

vebiliki B0DS4HPF7Y

vebiliki Indoor WiFi & 4G Camera Combo User Manual

Model: B0DS4HPF7Y

1. INTRODUCTION

This manual provides detailed instructions for the setup, operation, and maintenance of your vebiliki Indoor WiFi & 4G Camera Combo. This product includes two distinct cameras: one mini WiFi camera for indoor security and one mini 4G camera for indoor security. Both cameras are designed to work seamlessly with the 'Ubox' App, offering high-resolution video, motion detection, and flexible storage options.

Please read this manual thoroughly before using the cameras to ensure proper installation and optimal performance.

2. PRODUCT COMPONENTS

The vebiliki Indoor WiFi & 4G Camera Combo package typically includes the following items:

- 1 x Mini WiFi Camera
- 1 x Mini 4G Camera
- 2 x USB Charging Cables
- 2 x Mounting Brackets/Stand
- 1 x User Manual (this document)
- 1 x SIM Card (for 4G camera, with a 300MB free trial)
- Mounting Screws and Anchors

Note: Please check all components upon unboxing. If any items are missing or damaged, contact customer support.

3. SETUP GUIDE

3.1 Initial Camera Preparation

1. **Charge the Cameras:** Before first use, fully charge both cameras using the provided USB cables and a standard 5V/1A USB power adapter (not included). The charging indicator light will typically turn off or change color when fully charged.
2. **Insert Micro SD Card (Optional):** For local storage, insert a compatible Micro SD card (up to 128GB, Class 10 or higher, not included) into the designated slot on each camera. Ensure the card is inserted correctly.
3. **Insert SIM Card (for 4G Camera only):** For the 4G camera, carefully insert the provided SIM card into the SIM card slot. Ensure the SIM card is activated and has an active data plan.

3.2 App Download and Account Creation

1. **Download the 'Ubox' App:** Search for 'Ubox' in your smartphone's App Store (iOS) or Google Play Store (Android) and download the application.
2. **Register an Account:** Open the Ubox App and follow the on-screen instructions to register a new account using your email address or phone number.

3.3 Mounting the Cameras

Both cameras come with magnetic stands for flexible placement. Choose a location that provides the desired viewing angle and is within range of your WiFi network (for the WiFi camera) or has good 4G signal (for the 4G camera).

- **Surface Placement:** The magnetic stand allows for easy placement on any flat, magnetic surface.
- **Wall/Ceiling Mounting:** Use the provided screws and anchors to securely attach the mounting bracket to a wall or ceiling. Then, attach the camera to the magnetic base of the bracket.

Easy to install

Simple installation, easy to attach to the magnetical stand

Image: The camera can be easily installed using its magnetic stand for various placements.

4. OPERATING INSTRUCTIONS

4.1 Adding Cameras to the Ubox App

1. **Power On:** Turn on both cameras. The indicator light will flash, indicating they are ready for pairing.
2. **Add Device:** Open the Ubox App, tap the '+' icon to add a new device.
3. **Select Camera Type:** Choose the appropriate camera type (WiFi or 4G) when prompted.
4. **Follow In-App Instructions:**
 - **For WiFi Camera:** Connect your phone to a 2.4GHz WiFi network. The app will guide you to scan a QR code displayed on your phone with the camera lens.
 - **For 4G Camera:** The app will detect the 4G camera automatically or guide you through a simple pairing process using the SIM card.
5. **Name Your Camera:** Assign a name to each camera for easy identification (e.g., "Living Room WiFi Cam", "Garage 4G Cam").

Excellent Features

4K

Night Vision

Motion Detection

Push Notification

24/7 Recording

Local/Cloud Storage

90 Days Standby

2.4Ghz WiFi only

Image: The WiFi camera offers 4K resolution, night vision, motion detection, and supports 2.4GHz WiFi.

Powerful 4G Camera

4G Device

2K Video

Radar Motion Detection

Night Vision

Portable

SD&Cloud Storage

Image: The 4G camera provides 2K video, radar motion detection, and is portable for various uses.

4.2 Live View and Playback

- **Access Live View:** From the Ubox App homepage, tap on the desired camera to view its live feed.
- **Playback Recorded Footage:** Access the playback section within the app to review recordings stored on the Micro SD card or in cloud storage.

4.3 Motion Detection and Alerts

Both cameras feature motion detection capabilities. When motion is detected, the cameras can send push notifications to your smartphone and begin recording.

1. **Enable Motion Detection:** Go to the camera settings in the Ubox App.
2. **Adjust Sensitivity:** Set the motion detection sensitivity level according to your environment to minimize false alarms.
3. **Configure Alerts:** Ensure push notifications are enabled in both the app and your phone's system settings.

4.4 Night Vision

The cameras are equipped with automatic infrared night vision, providing clear video even in low-light or complete darkness. This feature activates automatically when ambient light levels are insufficient.

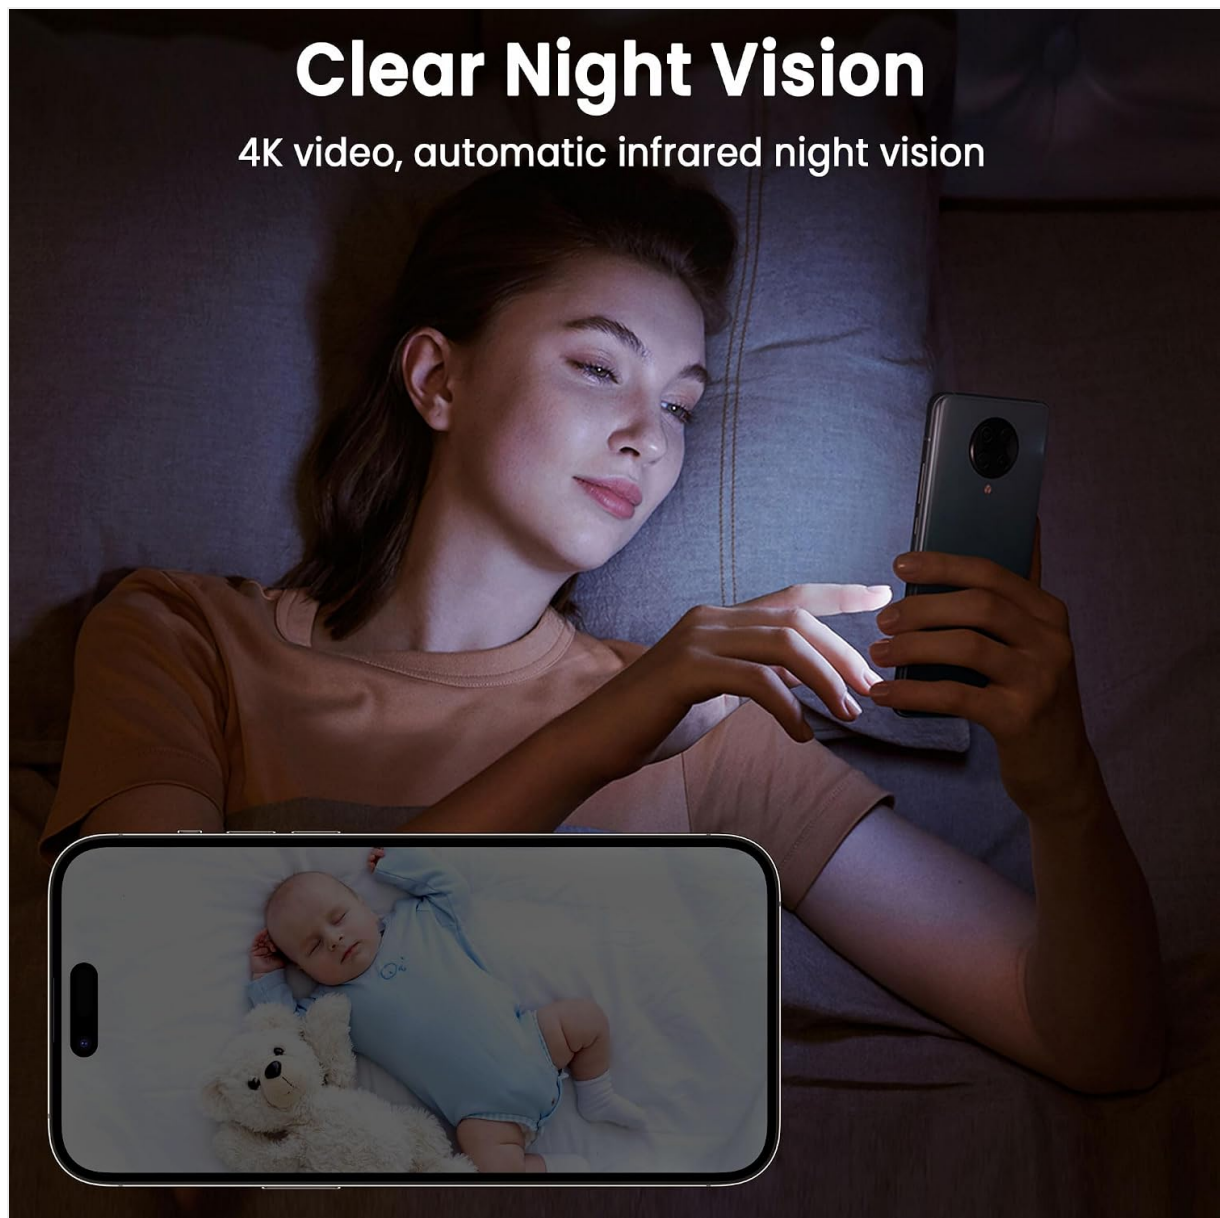

Image: The cameras provide clear night vision, allowing monitoring in dark conditions.

4.5 Sharing Camera Access

You can share access to your cameras with family members or trusted individuals through the Ubox App.

1. **Navigate to Sharing Settings:** In the app, select the camera you wish to share and go to its settings.
2. **Add Family Member:** Follow the instructions to invite others to view the camera feed. They will need their own Ubox account.

Share with your family

Allow your family members to view this camera simultaneously

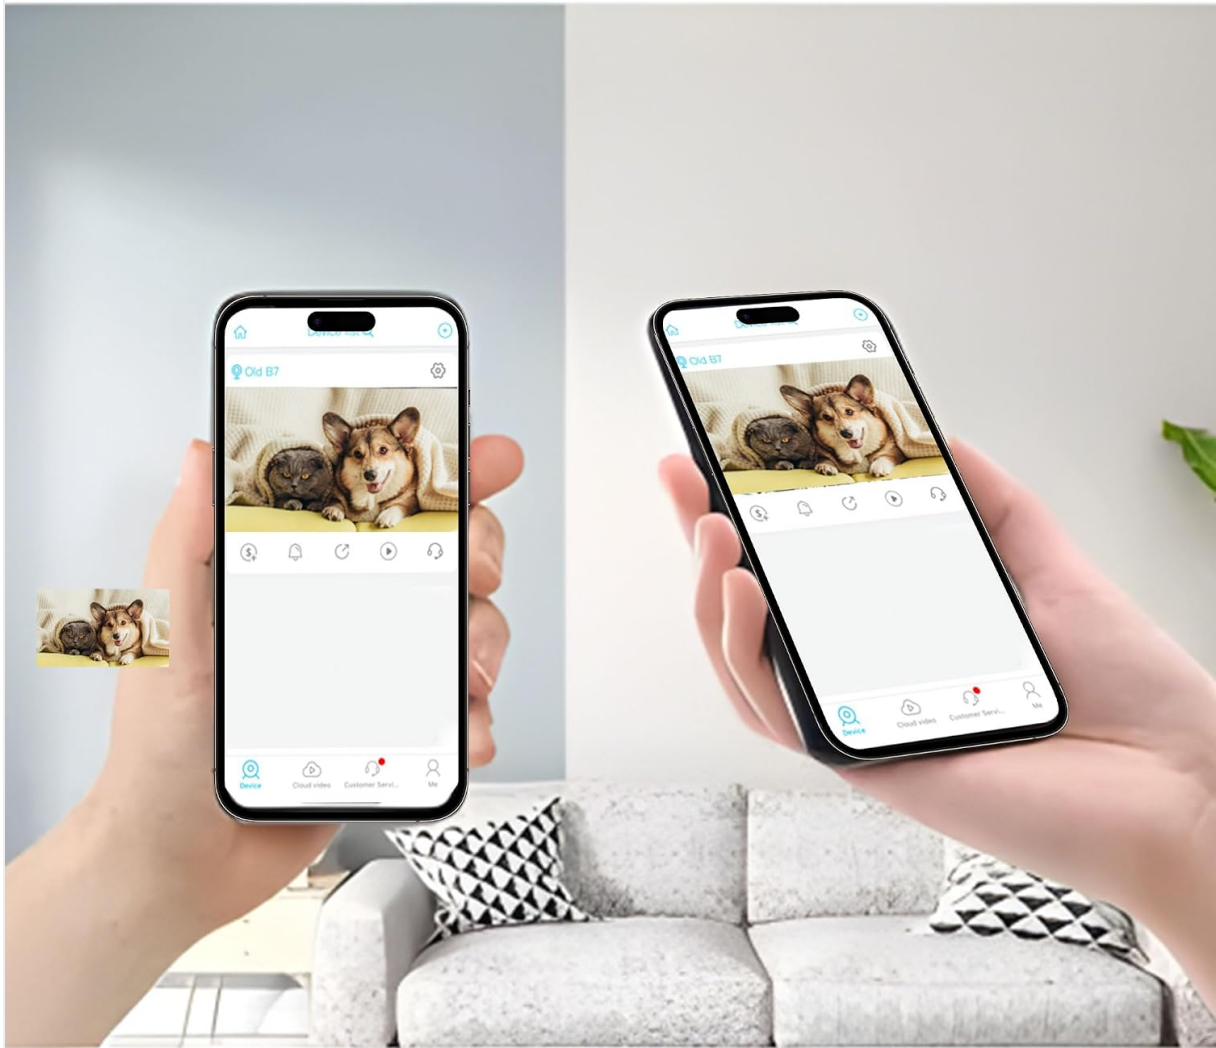

Image: The Ubox app allows multiple family members to view the camera simultaneously.

5. MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to clean the camera lens and body. Avoid using harsh chemicals or abrasive materials.
- **Battery Care (4G Camera):** To prolong battery life, avoid exposing the camera to extreme temperatures. Recharge the camera when the battery level is low. The 4G camera features a 2800mAh capacity and low power consumption technology for extended standby times.
- **Firmware Updates:** Regularly check the Ubox App for available firmware updates. Keeping your camera's firmware updated ensures optimal performance and security.
- **SD Card Management:** Periodically review and format your Micro SD card through the app to maintain recording efficiency.

Amazing Battery Life

Image: The cameras are designed for long battery life, with up to 100 days of standby.

Long Battery Life

Low Power Consumption Tech

Large 2800mAh Capacity

15-day standby under low sensitivity

Other

Corded: Restricted to area with electricity

Image: The 4G camera features low power consumption and a 2800mAh battery for extended operation.

6. TROUBLESHOOTING

Problem	Possible Cause	Solution
Camera not powering on	Low battery; faulty charging cable/adaptor	Charge the camera fully. Try a different USB cable and power adapter.
WiFi Camera cannot connect to network	Incorrect WiFi password; 5GHz WiFi network; camera too far from router	Ensure correct 2.4GHz WiFi password. Move camera closer to router. Confirm your router supports 2.4GHz.
4G Camera has no signal	SIM card not activated; poor 4G coverage; incorrect SIM card insertion	Verify SIM card activation and data plan. Move camera to an area with better 4G signal. Reinsert SIM card correctly.
No motion detection alerts	Motion detection disabled; low sensitivity; app notifications off	Enable motion detection in app settings. Increase sensitivity. Check app and phone notification settings.

Problem	Possible Cause	Solution
Recorded video is blurry or dark	Protective film on lens; dirty lens; insufficient light (night vision not active)	Remove any protective film. Clean the lens with a soft cloth. Ensure night vision is functioning in low light.

100% Wireless, No WiFi Needed

Support both 4G/LTE

SIM Card Included (300MB free trial)

Image: The 4G camera operates wirelessly via 4G/LTE, making it suitable for locations without WiFi.

7. SPECIFICATIONS
