1. INTRODUCTION

This user manual provides detailed instructions for the JJC 67mm CPL Filter and Magnetic Adapter Kit. This kit is designed to enhance your mobile photography and videography experience by allowing you to attach standard 67mm filters to your iPhone, manage reflections, and expand your accessory options. Please read this manual carefully before use to ensure proper operation and longevity of your product.

2. WHAT'S IN THE BOX

The JJC 67mm CPL Filter and Magnetic Adapter Kit includes the following components:

- Magnetic Filter Adapter x1
- 67mm CPL Filter x1

- [illegible]

3. COMPATIBILITY

- iPhone 14, iPhone 14 Plus, iPhone 14 Pro, iPhone 14 Pro Max
- iPhone 15, iPhone 15 Plus, iPhone 15 Pro, iPhone 15 Pro Max
- iPhone 16, iPhone 16 Plus, iPhone 16 Pro, iPhone 16 Pro Max

For iPhone Plus and Pro Max models (14 Plus, 15 Plus, 16 Plus, 14 Pro Max, 15 Pro Max, 16 Pro Max), gently pull out the front ring of the adapter before use to ensure proper fit. Please note that this product is not compatible with iPhone 17 Pro and iPhone 17 Pro Max. For optimal performance, it is recommended to use the adapter without a phone case.

Stretchable Design

Stretchable Design

Note: Package Includes a CPL filter.

- **Extended state** for iPhone 16 Plus /15 Plus /14 Plus/ iPhone 16 Pro Max /15 Pro Max /14 Pro Max
- **Contracted state** for iPhone 16/15/14; iPhone 16/15/14 Pro

Image 3.1: The adapter's stretchable design accommodates different iPhone sizes.

⚠ Note*: it's recommended to use without a phone case

Image 3.2: Recommendation to use the filter kit without a phone case for best results.

4. SETUP

4.1 Attaching the Magnetic Filter Adapter to your iPhone

1. Ensure your iPhone is clean and free of debris.
2. Align the magnetic filter adapter with the camera module on the back of your iPhone. The adapter features 18 heavy-duty magnets and a silicone pad on the inner side for secure attachment.
3. For larger iPhone models (Plus/Pro Max), gently pull out the front ring of the adapter to extend its reach over the camera module.
4. The adapter will snap securely into place due to its magnetic design.

Easy to Carry and Keep Organized

Three Elastic Pockets for Better Protection

Durable Polyester Material

Hoop and Loop Closure

Image 4.1: Quick and secure magnetic attachment of the adapter to the iPhone.

4.2 Attaching the 67mm CPL Filter

1. Once the magnetic adapter is securely attached to your iPhone, take the 67mm CPL filter.
2. Thread the CPL filter onto the 67mm threaded ring on the magnetic adapter. Turn clockwise until it is finger-tight.

Suitable for **67mm** Threaded Filters

Provides a more professional solution for your videography and photography

Image 4.2: The 67mm CPL filter being attached to the adapter.

4.3 Attaching External Accessories

The adapter features two expansion holes on the sides for attaching additional accessories:

- **Cold Shoe Mount:** Use the included cold shoe mount adapter to attach accessories like LED lights or microphones. Slide the accessory into the cold shoe mount.
- **1/4"-20 Female Thread Adapter:** Use the included 1/4"-20 female thread adapter to install a tripod, monopod, or handgrip. Screw the adapter onto your desired support.

Quick Snap-on Secure Magnetic Attachment

4.4 Official Product Video: Setup and Features

Your browser does not support the video tag. This video demonstrates the magnetic filter adapter with CPL for iPhone 12, 13, 14, 15, and 16 Series, showcasing its setup and features.

Video 4.1: A detailed look at the setup and functionality of the magnetic filter adapter.

5. OPERATING INSTRUCTIONS

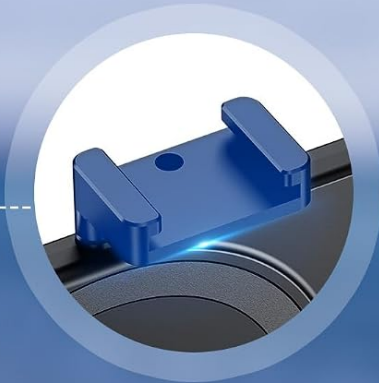

5.1 Using the CPL Filter

The Circular Polarizer (CPL) filter helps to manage light and reflections in your photos and videos:

- **Eliminate Reflections:** Rotate the outer ring of the CPL filter to reduce unwanted reflections from non-metallic surfaces such as water, glass, and wet foliage.
- **Enhance Colors:** Adjust the filter rotation to boost color saturation and contrast, particularly in skies and landscapes.

Two Interface Options

Take Your Shooting to the Next Level!

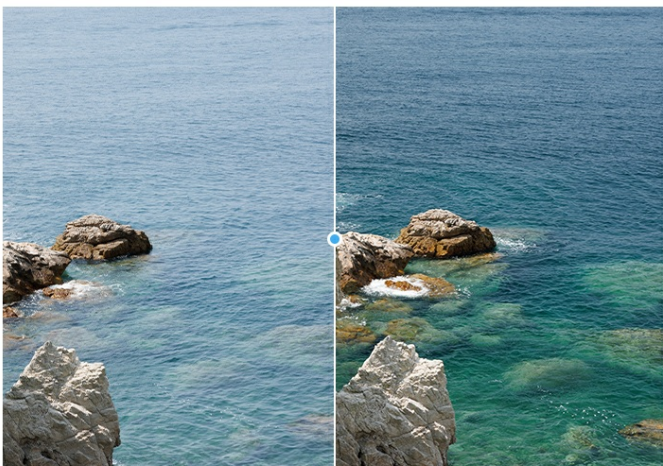

Cold Shoe Adapter
for mounting a LED light,
microphone, etc.

1/4"-20 Female Thread Adapter
for installing a tripod, handgrip, etc.

Reducing Water Reflections

Removing Glass Reflections

Image 5.2: The CPL filter effectively reduces water and glass reflections.

6. KEY FEATURES

- **Stretchable Design:** The magnetic filter mount is stretchable to fit various iPhone 14, 15, and 16 series models, including Plus and Pro Max versions.
- **67mm Threaded Filter Compatibility:** The adapter allows you to attach any standard 67mm threaded filter, such as CPL, ND, black mist, or blue/gold streak filters, without blocking your iPhone's lenses.
- **Multi-Coated & Slim Frame:** The filter features multi-layer Nano coatings for protection against water, oil, dust, and scratches. Its slim aluminum alloy frame prevents vignetting.
- **Double-sided Magnetic Design:** The inner side has 18 strong magnets with a silicone pad for secure phone attachment. The outer side has 36 magnets to support MagSafe accessories like LED lights, selfie sticks, and stabilizers.
- **Expansion Capabilities:** Equipped with two extension holes for the included cold shoe mount adapter and 1/4"-20 female thread adapter, allowing easy attachment of video lights, microphones, or tripods.

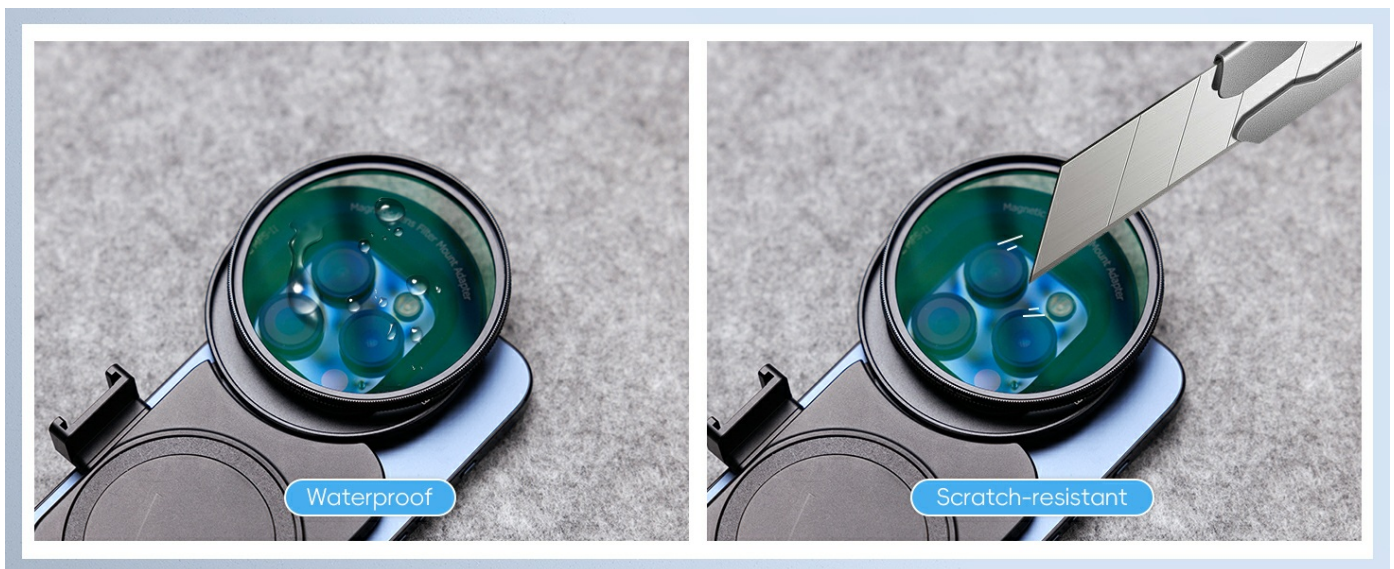

Image 6.1: The 12-layer multi-coated HD optical glass reduces reflections.

Image 6.2: The filter is waterproof and scratch-resistant.

In the Box

Magnetic Filter Adapter x1

67mm CPL Filter x1

Storage Pouch x1

Cleaning Cloth x1

Screwdriver x1

Spare Screw x2

Image 6.3: Both the filter frame and adapter are constructed from durable aluminum alloy.

7. MAINTENANCE

To ensure the best performance and longevity of your JJC 67mm CPL Filter and Magnetic Adapter Kit, follow these maintenance guidelines:

- **Cleaning the Filter:** Use the provided JJC Digital Cleaning Cloth to gently wipe the filter surface. For stubborn smudges, a small amount of lens cleaning solution can be applied to the cloth (not directly to the filter).
- **Cleaning the Adapter:** Wipe the magnetic adapter with a soft, dry cloth to remove dust or fingerprints. Avoid using harsh chemicals.
- **Storage:** When not in use, store the filter and adapter in the included storage pouch to protect them from dust and scratches.

⚠ Note*: it's recommended to use without a phone case

Image 7.1: The included storage pouch helps keep your kit organized and protected.

8. TROUBLESHOOTING

- **Vignetting with Wide-Angle Lens:** If you experience dark corners (vignetting) when using the wide-angle lens, ensure the adapter is correctly positioned and that the front ring is extended for larger iPhone models. Using the kit without a phone case is also recommended to minimize this effect.
- **Adapter Not Sticking Securely:** Ensure your iPhone's back surface is clean and dry. If using a MagSafe-compatible case, verify its magnetic strength. For best results, use the adapter directly on the iPhone without a case.
- **Filter Not Threading Properly:** Check for any debris in the filter threads on both the CPL filter and the adapter. Ensure the filter is aligned correctly before attempting to thread it.

9. SPECIFICATIONS

Brand	JJC
-------	-----

Model Name	MFS-CPLK-U3
Material	Aluminum, Optical Glass, Silicone
Photo Filter Thread Size	67 Millimeters
Coating Description	Nano Coating
Photo Filter Effect Type	Polarizer
