6. MAINTENANCE

6.1 Cleaning the Print Head

To maintain print quality, regularly clean the print head. Use a cotton swab lightly dampened with isopropyl alcohol. Gently wipe the print head surface. Ensure the printer is off and completely dry before use.

6.2 Battery Care

- Avoid fully discharging the battery frequently.
- Charge the printer regularly, even if not in use, to prolong battery life.
- Store the printer in a cool, dry place when not in use for extended periods.

7. TROUBLESHOOTING

If you encounter issues with your Vretti K2 printer, refer to the following common problems and solutions:

- **Printer not connecting via Bluetooth:**

  - Ensure the printer is powered on and within range of your mobile device.
  - Verify Bluetooth is enabled on your device.
  - Restart both the printer and your mobile device.
  - Check if the XeasyLabel app has Bluetooth permissions enabled.

- **Poor print quality:**

  - Clean the print head as described in the Maintenance section.

- Ensure you are using high-quality thermal labels.
- Check the label roll for proper installation and ensure it is not damaged.

- **Labels not feeding correctly:**

  - Ensure the label roll is inserted correctly and aligned.
  - Check for any obstructions in the paper path.
  - Make sure the label type selected in the app matches the physical labels.

- **Printer not turning on:**

  - Charge the printer for at least 30 minutes.
  - Try a different USB-C cable and power adapter.
