Yeabomy AK6PRO

Yeabomy AK6 PRO Wired Gaming Earbuds Instruction Manual

Model: AK6PRO

Brand: Yeabomy

INTRODUCTION

This manual provides essential information for the proper use and maintenance of your Yeabomy AK6 PRO Wired Gaming Earbuds. These in-ear monitors are designed for high-fidelity audio, featuring a 10mm dynamic driver for deep bass and clear sound, suitable for music, gaming, and video calling. The ergonomic design ensures a comfortable and stable fit, while passive noise cancellation helps reduce ambient noise.

PACKAGE CONTENTS

- 1 pair AK6 PRO Earbuds
- 1 Earphones Cable
- 3 pairs of Ear Tips (various sizes)
- 1 User Manual (this document)

PRODUCT FEATURES

- **Ergonomic Design:** Lightweight cavity and soft fit for the auricle, with new PU memory ear hooks for comfortable and stable wear.
- **Excellent Sound Quality:** Features a new 1DD 10mm dynamic driver for rich, vigorous performance across bass, midrange, and treble. Independent sound channels prevent distortion.
- **Passive Noise Cancellation:** Designed to block out approximately 90% of ambient noise, enhancing immersion during listening.
- **Detachable Cable:** The earphones cable is detachable, offering flexibility and ease of replacement.
- **Wide Compatibility:** Compatible with laptops, desktops, gaming consoles, tablets, and cellphones via a 3.5mm jack.

SETUP INSTRUCTIONS

1. Attach the Earbuds to the Cable:

Identify the left (L) and right (R) earbuds and the corresponding connectors on the cable. Gently push the earbud connector onto the cable pin until it clicks securely into place. Ensure a firm connection for optimal audio performance.

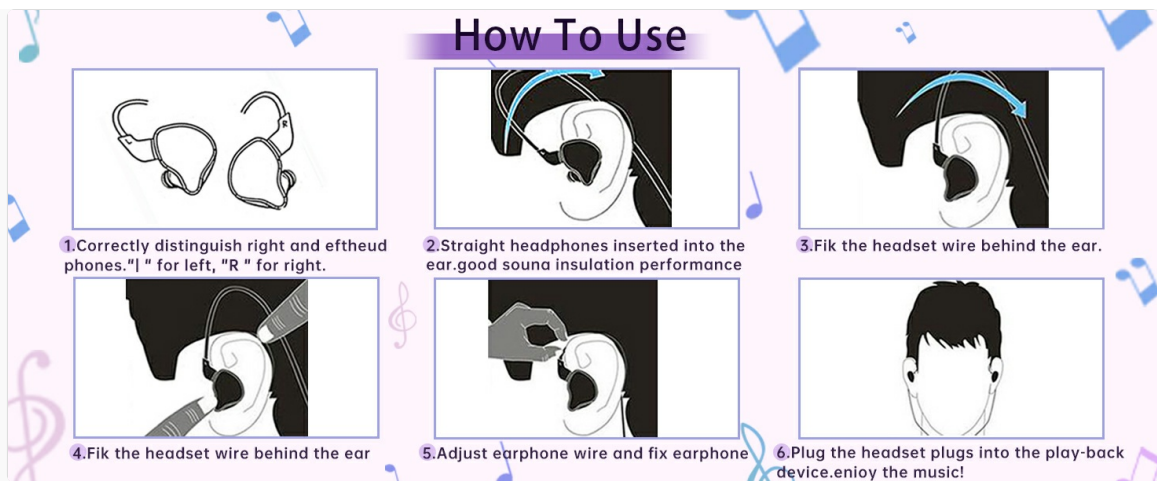

Image: Step-by-step diagram illustrating the connection of the earbud units to the cable and the correct over-ear wearing method.

2. Select Appropriate Ear Tips:

The package includes three pairs of ear tips (small, medium, large). Choose the size that provides the most comfortable and secure fit in your ear canal. A proper seal is crucial for effective noise cancellation and sound quality.

3. Wear the Earbuds:

Insert the earbud into your ear canal. The cable is designed to loop over the top of your ear, providing a secure fit and reducing microphonics (cable noise). Adjust the memory ear hook to conform to the shape of your ear for maximum comfort and stability.

Never Fall

The ear is inclined at 45°, which fits the ear well and does not fall easily

45 ° inclined ear

Born for sports

Image: Visual guide demonstrating the ergonomic fit of the earbuds, showing how they sit securely in the ear with the cable looped over.

4. **Connect to Device:**

Plug the 3.5mm audio jack into the headphone port of your audio device (smartphone, tablet, PC, gaming console, etc.).

OPERATING INSTRUCTIONS

- **Audio Playback:** Once connected, your device should automatically recognize the earbuds. Begin playing audio from your device.
- **Volume Control:** Adjust the volume directly from your connected device.
- **Microphone Usage:** The integrated microphone allows for clear communication during gaming, calls, or recording. Position the microphone for optimal voice pickup.
- **Noise Cancellation:** The passive noise cancellation feature works by physically sealing the ear canal. Ensure a snug fit with the correct ear tip size to maximize this effect.

MAINTENANCE

- **Cleaning:** Regularly clean the ear tips with a soft, dry cloth. For deeper cleaning, remove the ear tips and wash them with mild soap and water, ensuring they are completely dry before reattaching.
- **Cable Care:** Avoid sharp bends or excessive pulling on the cable to prevent damage. When not in use, coil the cable loosely.
- **Storage:** Store the earbuds in a clean, dry place, away from extreme temperatures and direct sunlight.
- **Detachable Cable:** If the cable needs replacement, ensure you use a compatible cable to maintain sound quality and functionality.

TROUBLESHOOTING

Problem	Possible Cause	Solution
No sound or low volume	Cable not fully connected. Device volume too low. Incorrect ear tip size/poor seal. Damaged cable or earbud.	Ensure cable is securely attached to both earbuds and the device. Increase device volume. Try different ear tip sizes for a snug fit. Inspect cable and earbuds for visible damage. Replace if necessary.
Sound distortion	Loose cable connection. Audio source issue. Earbuds or cable damage.	Check all cable connections. Test with a different audio source or device. Inspect for damage.
Earbuds fall out easily	Incorrect ear tip size. Improper wearing technique.	Try a larger ear tip size. Ensure the cable is looped over the ear and the earbud is securely seated in the ear canal.

SPECIFICATIONS
