Operating Instructions

Your Comvtu Cordless Vacuum Cleaner offers powerful and versatile cleaning. Familiarize yourself with its operating modes and features:

1. **Power On/Off:** Press the power button on the main unit to turn the vacuum on or off.
2. **Adjust Suction Modes:** Use the mode selection button to switch between LOW (7kPa suction, approx. 40 minutes runtime) and HIGH (12kPa suction, approx. 20 minutes runtime) power modes.
3. **LED Floor Brush:** The motorized floor brush features 4 LED lights that illuminate dark areas, making hidden dust and debris visible. The brush can rotate 180° horizontally and 90° vertically for easy maneuverability.
4. **Using Attachments:** For specialized cleaning, detach the telescopic tube and attach the 2-in-1 crevice brush directly to the main unit. This is ideal for upholstery, corners, and tight spaces.

Choose between two powerful suction modes for different cleaning needs.

The flexible floor brush with LED lights enhances visibility in dark areas.

Troubleshooting

If you encounter any issues with your Comvtu Cordless Vacuum Cleaner, please refer to the following table for common problems and solutions:

Problem	Possible Cause	Solution
Vacuum does not turn on	Battery is not charged or not properly installed.	Ensure battery is fully charged and securely inserted.
Low suction power	Dust cup is full, filters are clogged, or brush roll is tangled.	Empty dust cup, clean/replace filters, clear tangled debris from brush roll.
Brush roll not spinning	Brush roll is tangled with hair or debris.	Turn off vacuum, remove brush roll, and clear any obstructions.
Short battery life	Battery not fully charged or operating in HIGH mode continuously.	Ensure battery is fully charged. Use LOW mode for longer runtime. Consider purchasing additional batteries for extended use.
