Zyerch 30-inch Bathroom Vanity with Ceramic Sink Combo

Model: N710F-X

INTRODUCTION

This manual provides detailed instructions for the assembly, installation, operation, and maintenance of your Zyerch 30-inch Bathroom Vanity with Ceramic Sink Combo. Please read all instructions carefully before beginning assembly and retain this manual for future reference.

SAFETY INFORMATION

WARNING: Failure to follow these safety instructions could result in injury or property damage.

- Handle with care during installation to prevent damage to the unit or personal injury.
- Do not expose the ceramic sink to extreme temperatures or sudden impacts, as this may cause cracking.
- Always wear appropriate safety gear, such as gloves and eye protection, when handling and installing the cabinet.
- Ensure the vanity is placed on a level surface to prevent tipping.
- Keep small parts away from children during assembly.

SETUP AND ASSEMBLY INSTRUCTIONS

Assembly is required. All necessary hardware and accessories are included. Follow these steps carefully.

1. **Unpack Components:** Carefully remove all parts from the packaging. Lay them out on a clean, soft surface to prevent scratches. Verify all parts against the package contents list.
2. **Assemble Cabinet Frame:** Follow the included diagrams to connect the cabinet panels. Ensure all screws and fasteners are tightened securely.
3. **Install Drawers and Doors:** Attach the drawer slides to the cabinet and the drawers. Install the soft-closing hinges onto the door and then attach the door to the cabinet. Adjust hinges for proper alignment.
4. **Place Ceramic Sink:** Carefully place the ceramic sink onto the top of the cabinet. Ensure it is properly aligned with the pre-drilled holes for the faucet and drain. Apply a silicone sealant (not included) around the edges of the sink to secure it and prevent water leakage.
5. **Install Faucet and Drain:** Install your 8-inch centerset faucet and drain assembly (not included)

according to their respective manufacturer's instructions. Connect water supply lines.

6. **Position Vanity:** Move the assembled vanity to its desired location. Ensure it is level.

OPERATING INSTRUCTIONS

The Zyerch bathroom vanity is designed for functional storage and daily use in a bathroom environment.

- **Drawers:** Utilize the two drawers for organizing smaller bathroom items. The full extension drawer allows for easy access to contents.
- **Cabinet:** The main cabinet area behind the door provides larger storage space for towels, cleaning supplies, or other essentials.
- **Sink:** The ceramic sink is suitable for standard bathroom use. The overflow hole helps prevent water from spilling over if the faucet is left running.

MAINTENANCE

Proper care will ensure the longevity and appearance of your vanity.

- **Ceramic Sink:** Clean regularly with a soft cloth and mild, non-abrasive cleaner. Avoid harsh chemicals or abrasive pads that can scratch the surface. Rinse thoroughly after cleaning.
- **Cabinet Surface:** Wipe the painted MDF and solid wood surfaces with a soft, damp cloth. Avoid excessive moisture. Do not use abrasive cleaners or solvents.
- **Hinges and Slides:** Periodically check and tighten any loose screws on hinges and drawer slides. Lubricate with a silicone-based spray if movement becomes stiff.
- **Spills:** Wipe up any water spills immediately to prevent water damage to the cabinet materials.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Drawers or doors do not close smoothly.	Loose hinges or drawer slides; obstruction.	Check and tighten all screws on hinges and slides. Ensure no items are blocking the movement. Lubricate slides if necessary.
Water leakage around the sink.	Improper sealant application; loose drain connection.	Ensure silicone sealant around the sink is intact. Check and tighten the drain assembly connections.
Vanity appears unstable or wobbly.	Uneven floor; loose leg connections.	Adjust the vanity's position to a level surface. Check and tighten the connections for the solid wood feet.
