

## JmGO J70-6A6

# JMGO N1S 4K Smart Portable Projector

## USER MANUAL

### 1. INTRODUCTION

Thank you for choosing the JMGO N1S 4K Smart Portable Projector. This manual provides essential information for setting up, operating, maintaining, and troubleshooting your device. Please read it thoroughly before use to ensure optimal performance and safety.

The JMGO N1S 4K projector offers a premium cinematic experience with its 4K UHD resolution, triple laser technology, and integrated Google TV. Its portable design and intelligent adaptive systems make it versatile for various environments, from home theaters to outdoor viewing.

## 3. SETUP GUIDE

### 3.1 Physical Placement and Power Connection

Place the projector on a stable, flat surface. Ensure adequate ventilation around the device. Connect the power adapter to the projector's power input and then to a power outlet.

### 3.2 Initial Power-On and Network Setup

Press the power button on the projector or remote control to turn on the device. Follow the on-screen instructions to select your language and connect to a Wi-Fi network. A stable internet connection is required for Google TV features.

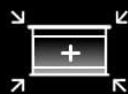

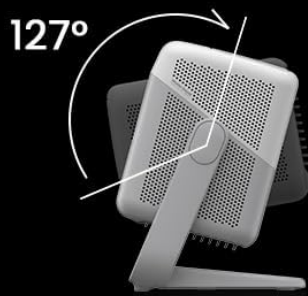

### 3.3 Google TV Setup

Sign in with your Google account to access Google TV features, including personalized recommendations, app downloads, and Google Assistant. If you do not have a Google account, you will be prompted to create one.

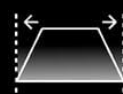

### 3.4 Gimbal and Auto-Correction

The JMGO N1S features an integrated gimbal for flexible projection angles. The FlexiSmart Adaptive System 2.0 automatically adjusts the image for real-time auto focus and keystone correction. Simply position the projector, and it will optimize the display.

## 4. OPERATING INSTRUCTIONS

### 4.1 Remote Control Functions

Use the provided remote control to navigate the interface. Key buttons include power, navigation (up/down/left/right), OK, back, home, volume, and dedicated app buttons (if available).

### 4.2 Navigating Google TV

The Google TV interface provides access to your favorite streaming services, apps, and content recommendations. Use the remote's navigation buttons to browse and select content.

### 4.3 Streaming Content

The projector comes with officially licensed Netflix and access to over 10,000 apps and 800+ free channels via Google TV, including YouTube TV and Hulu. Simply select the desired app and log in to your account to start streaming.

Video 4.1: Official JMGO video demonstrating ease of streaming with Google TV integration.

### 4.4 Google Cast

Utilize Google Cast to wirelessly stream content from your Android or iOS devices directly to the projector. Ensure both devices are connected to the same Wi-Fi network.

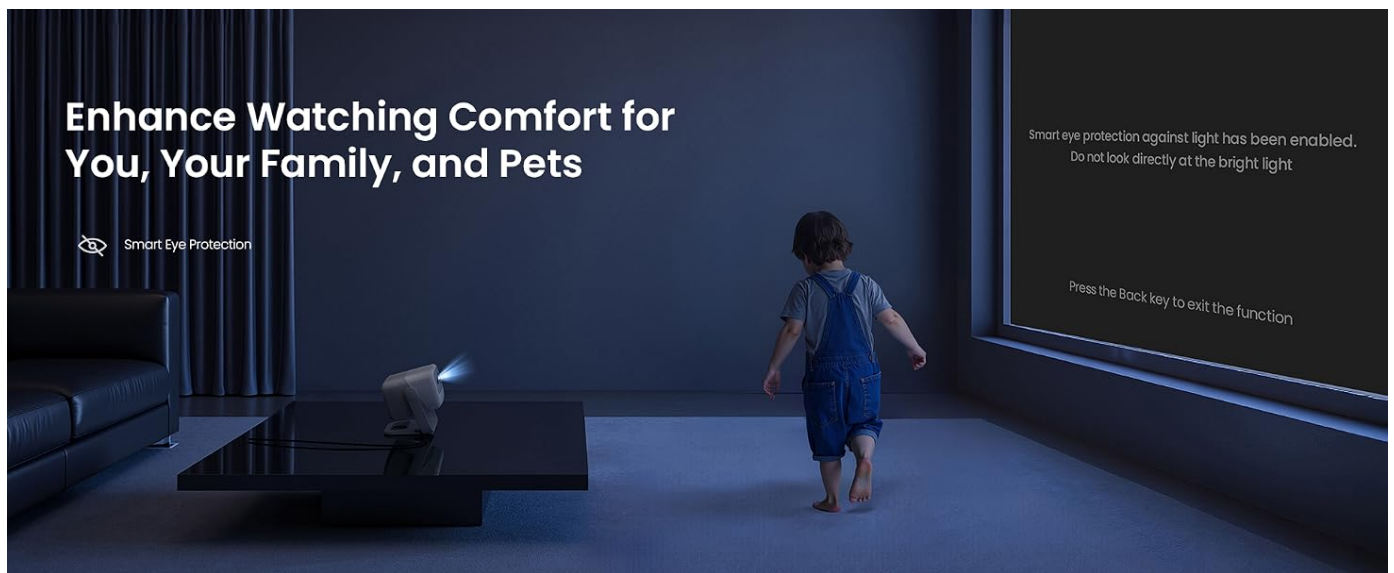

Image 4.1: Easily cast work, movies, and more from your devices to a larger screen using Google Cast.

## 4.5 3D Playback

The projector supports Blu-ray 3D. For an immersive 3D experience, pair the projector with active 3D glasses (sold separately) and play compatible 3D content.

# Discover the Magic of Seamless 3D Immersion

17ms  
Low Latency

Image 4.2: Discover the magic of seamless 3D immersion with the JMGO N1S 4K projector.

## 4.6 Gaming

With HDMI 2.1 and ultra-low 17ms latency, the projector provides a smooth gaming experience. Connect your gaming console via HDMI for immersive gameplay on a large screen.

Image 4.3: Experience flawless gaming with crisp, smooth performance thanks to low latency and HDMI 2.1.

4.7 Ambient Mode

Utilize the Ambient Mode to transform your space with relaxing visuals and sounds, creating a calming atmosphere.

Image 4.4: Ambient Mode immerses you in a relaxation atmosphere.

5. MAINTENANCE

5.1 Cleaning

Regularly clean the projector's lens with a soft, lint-free cloth specifically designed for optical surfaces. Do not use abrasive cleaners or solvents. Keep the ventilation grilles clear of dust and debris to ensure proper airflow.

5.2 Storage

When not in use for extended periods, store the projector in a cool, dry place, ideally in its original packaging or the provided carrying bag, to protect it from dust and physical damage.

6. TROUBLESHOOTING

If you encounter issues with your JMGO N1S 4K projector, refer to the following common problems and solutions:

| Problem      | Possible Cause                                            | Solution                                                                                         |
|--------------|-----------------------------------------------------------|--------------------------------------------------------------------------------------------------|
| No Power     | Power cable disconnected; Power outlet issue              | Ensure power cable is securely connected; Try a different power outlet.                          |
| No Image     | Lens cap on; Input source incorrect; Projector in standby | Remove lens cap; Select correct input source; Wake projector from standby.                       |
| Blurry Image | Out of focus; Incorrect keystone correction               | Allow auto-focus to adjust; Manually adjust focus if needed; Check keystone correction settings. |
| No Sound     | Volume too low; Muted; External audio device issue        | Increase volume; Unmute; Check connections to external audio devices.                            |

| Problem                 | Possible Cause                                           | Solution                                                            |
|-------------------------|----------------------------------------------------------|---------------------------------------------------------------------|
| Wi-Fi Connection Issues | Incorrect password; Router too far; Network interference | Re-enter password; Move projector closer to router; Restart router. |

If the problem persists after trying these solutions, please contact JMGO customer support.
