Katalic APF001

Katalic Automatic Cat Feeder Instruction Manual

Model: APF001 | Brand: Katalic

1. PRODUCT OVERVIEW

The Katalic Automatic Cat Feeder (Model APF001) is designed to provide convenient and reliable feeding for up to two cats. With its generous 5-liter (20-cup) capacity, dual stainless steel bowls, and programmable settings, it ensures your pets receive their meals on schedule, even when you're away. The feeder supports up to 6 meals per day with adjustable portion sizes, a 10-second voice recording feature, and dual power supply options for uninterrupted operation.

Image 1.1: The Katalic Automatic Cat Feeder, showcasing its design and dual feeding capability.

Key Features:

- **Dual Feeding System:** Equipped with a unique meal divider and two stainless steel bowls, allowing two cats to eat simultaneously without conflict.
- **Large Capacity:** 5L (20 cups) transparent food storage reduces the frequency of refills, providing up to 2-3 weeks of feeding for two pets.
- **Programmable Meals:** Schedule up to 6 meals per day with 1-20 portions per meal, ensuring precise feeding control.
- **Voice Recording:** Record a 10-second personalized message to call your pets to mealtime, fostering good eating habits.
- **Dual Power Supply:** Operates via wall power or 3 D-size batteries (not included) for reliable backup during power outages.
- **Freshness Preservation:** Secure sliding lock lid and included desiccant bag keep food fresh and crunchy.

- **Easy to Clean:** Removable components for hassle-free cleaning (main unit is not washable).

2. COMPONENTS

Before setting up your feeder, ensure all components are present and undamaged:

1. Main Feeder Unit (with control panel and food outlet)
2. Food Storage Tank (transparent)
3. Lid with secure lock
4. Meal Divider
5. 2 x Stainless Steel Bowls
6. Bowl Holders
7. Power Adapter (USB cable and wall plug)
8. Desiccant Bag

Anti-Jam Design

Easy-to-Clean

Anti-grain spoilage

Capacity 20 cups

Easy to remove and clean

Stable and anti fall measures

3. SETUP GUIDE

Follow these steps to set up your Katalic Automatic Cat Feeder:

1. **Unpack and Assemble:** Carefully remove all components from the packaging. Insert the meal divider into the food outlet. Place the stainless steel bowls into their respective holders and position them under the food outlet.
2. **Install Food Tank:** Place the transparent food storage tank onto the main feeder unit, ensuring it is securely seated.
3. **Fill with Food:** Open the lid and fill the food tank with dry pet food. Ensure the food size is appropriate for the dispenser mechanism (recommended 4-12mm kibble). Place the desiccant bag in its designated slot under the lid to maintain food freshness. Close the lid securely.
4. **Power Connection:** Connect the USB power cable to the feeder and plug the adapter into a wall outlet. For backup power, insert 3 D-size batteries (not included) into the battery compartment at the bottom of the unit.

Installation Video:

For a visual guide on setting up your feeder, please watch the video below:

Video 3.2: This video demonstrates the step-by-step process of installing the Katalic Automatic Cat Feeder, including assembly and initial setup.

4. OPERATING INSTRUCTIONS

Setting Current Time:

1. Press and hold the **Setting** button (gear icon) for 3 seconds to unlock the screen.
2. Press the **Setting** button again to enter the time setting mode. The hour display will flash.
3. Use the **+** and **-** buttons to adjust the hour.
4. Press the **Setting** button to confirm the hour and move to minute setting. The minute display will flash.
5. Use the **+** and **-** buttons to adjust the minutes.
6. Press and hold the **Setting** button for 3 seconds to save the current time and exit the setting mode. This prevents time delays.

Programming Meal Times and Portions:

The feeder allows you to program up to 6 meals per day.

1. Unlock the screen by pressing and holding the **Setting** button for 3 seconds.
2. Press the **Setting** button repeatedly until you see 'P-01' (for Meal 1).
3. Use the **+** and **-** buttons to set the desired feeding time for Meal 1.
4. Press the **Setting** button to move to portion size setting. The portion display will flash.
5. Use the **+** and **-** buttons to set the number of portions (1-20) for Meal 1.
6. Repeat steps 3-5 for additional meals (P-02 to P-06) as needed.
7. After setting all desired meals, press and hold the **Setting** button for 3 seconds to save all settings and exit.

Scheduled Feeding

ensuring they receive their meals at the same time every day,
even when you're not home

Programming and Time Setting Videos:

These videos provide detailed instructions on programming your feeder and ensuring accurate timekeeping:

Video 4.2: A comprehensive guide on how to program the Katalic Automatic Pet Feeder for scheduled meals.

Video 4.3: Learn how to properly set the time on your feeder to avoid delays in feeding schedules.

Voice Recording:

Record a personalized 10-second message to play at each mealtime:

1. Unlock the screen by pressing and holding the **Setting** button for 3 seconds.
2. Press the **Record** button (microphone icon) once. The screen will show 'REC'.
3. Speak your message clearly into the microphone for up to 10 seconds.
4. Press the **Record** button again to stop recording. The message will be saved.
5. To test the recording, press the **Play** button (speaker icon).

Manual Feeding:

To dispense food manually, press the **Feed** button (paw print icon) once. Each press will dispense one portion of food.

5. MAINTENANCE AND CLEANING

Regular cleaning ensures the longevity and hygiene of your feeder:

- **Disassembly:** Unplug the feeder and remove the food tank, lid, meal divider, and stainless steel bowls.
- **Washable Parts:** The food tank, lid, meal divider, and stainless steel bowls can be washed with mild soap and water. Rinse thoroughly and dry completely before reassembling.
- **Main Unit:** The main feeder unit (with the electronic components) is **NOT** washable. Wipe it clean with a soft, damp cloth. Do not immerse it in water or use abrasive cleaners.
- **Food Outlet:** Periodically check the food outlet for any kibble residue or blockages and clear them carefully.
- **Desiccant Bag:** Replace the desiccant bag every 1-2 months to ensure optimal food freshness.

6. TROUBLESHOOTING

If you encounter issues with your feeder, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Feeder not dispensing food.	Food tank empty; food jammed; power issue.	Refill food tank. Check for kibble jams in the outlet and clear. Ensure power adapter is securely plugged in or batteries are installed correctly.
Incorrect portion sizes dispensed.	Incorrect portion setting; kibble size too large/small.	Re-program portion sizes according to manual. Ensure kibble size is within 4-12mm.
Time display is inaccurate.	Time not saved correctly; battery low (if running on battery).	Ensure you press and hold the Setting button to save the time after adjustment. Replace D-size batteries if using battery power.
Voice recording not playing.	No recording saved; volume too low.	Ensure a recording has been made and saved. Check volume settings if available (not explicitly mentioned in features, but a common troubleshooting step).
Lid is difficult to open.	Secure locking mechanism.	Locate the front tab and depress it firmly while lifting the lid. This is a design feature to prevent pets from opening it.

If the problem persists after trying these solutions, please contact customer support.

7. SPECIFICATIONS

Specification	Detail
Model Name	APF01
Item Model Number	APF001
Brand	Katalic
Capacity	5L / 20 Cups
Dimensions (LxWxH)	7 x 7 x 10 inches
