R for Rabbit WRHBSW03

R for Rabbit Hot Bot Smart 3-in-1 Electric Bottle Warmer Sterilizer User Manual

Model: WRHBSW03

Introduction

The R for Rabbit Hot Bot Smart is a versatile 3-in-1 electric device designed to warm milk, warm food, and sterilize baby bottles. It features an LED touchscreen for easy operation, adjustable timer and temperature control, and an auto cut-off function for safety. Constructed from BPA-free PP material, this device is designed for durability and ease of use.

Safety Information

- Read all instructions before use.
- Do not immerse the main unit in water or other liquids.
- Keep out of reach of children.
- Always ensure the appliance is unplugged before cleaning and when not in use.
- Use only distilled water for sterilization to prevent mineral buildup.
- The anti-scalding basket is designed to prevent burns when removing items. Always use it.
- Do not operate the appliance if it has a damaged cord or plug, or if it malfunctions.
- Ensure the voltage indicated on the appliance corresponds to your local mains voltage before connecting.

Product Overview

The R for Rabbit Hot Bot Smart offers multiple functions including milk warming, food warming, and bottle sterilization. It features an intuitive LED smart touchscreen for control and an anti-scalding basket for safe handling.

Image: An overview of the device's 8 key features, including adjustable timer and temperature, dry burn prevention, 24-hour keep warm, auto cut-off, milk warming, bottle sterilization, anti-scalding baskets, and an inbuilt thermostat.

Setup

1. Unpack all components and remove any packaging materials.
2. Wipe the main unit with a damp cloth. Wash the anti-scalding basket and lid with warm soapy water, then rinse thoroughly.
3. Place the unit on a stable, flat, heat-resistant surface, away from direct sunlight or heat sources.
4. Ensure the power cord is easily accessible and not obstructed.

Operating Instructions

General Operation with LED Touchscreen

Image: A close-up view of the LED smart touchscreen, demonstrating its ease of use with a finger touching the controls.

The device features an LED smart touchscreen for all functions. Use the '+' and '-' buttons to adjust temperature and time, and the 'M' button to select modes.

1. Milk Warming

1. Place the anti-scalding basket into the main unit.
2. Pour the desired amount of water into the unit, ensuring it does not exceed the maximum fill line and is sufficient to cover the bottom of the bottle.
3. Place the baby bottle (with milk) into the anti-scalding basket.
4. Select the 'Milk Warmer' mode using the 'M' button.
5. Adjust the desired temperature using the '+' and '-' buttons. The recommended temperature for milk is typically around 37-40°C.
6. The device will automatically heat the milk to the set temperature and maintain it.

Image: The device displaying accurate temperature control, ensuring milk is warmed to the right temperature to preserve nutrients.

2. Food Warming

1. Place the anti-scalding basket into the main unit.
2. Pour water into the unit, ensuring it is sufficient for warming the food jar.
3. Place the baby food jar into the anti-scalding basket.
4. Select the 'Food Warmer' mode using the 'M' button.
5. Adjust the desired temperature using the '+' and '-' buttons.
6. The device will heat the food to the set temperature. Stir the food occasionally to ensure even heating.

3. Bottle Sterilization

1. Place the anti-scalding basket into the main unit.
2. Pour approximately 100-120ml of distilled water into the heating plate.
3. Place clean bottles, nipples, and other accessories upside down into the anti-scalding basket.

4. Cover the unit with the lid.
5. Select the 'Sterilizer' mode using the 'M' button.
6. The device will heat the water to boiling point, producing steam to sterilize the items. The sterilization cycle typically lasts for a set duration.
7. Once complete, carefully remove the items using tongs to avoid burns.

Image: The device in sterilization mode, with steam visible, highlighting its ability to kill 99.9% of germs.

4. Keep Warm Function

The device can maintain a set temperature for up to 24 hours, ideal for keeping milk or water warm for extended periods.

1. After warming milk or water, the device can automatically switch to 'Keep Warm' mode.
2. Alternatively, select the 'Keep Warm' mode and set the desired temperature.
3. The device will maintain this temperature for up to 24 hours.

Image: The device maintaining milk warmth for 24 hours, illustrating its convenience for overnight use.

Maintenance and Cleaning

- Always unplug the device and allow it to cool completely before cleaning.
- Wipe the exterior of the main unit with a damp cloth. Do not use abrasive cleaners or immerse the unit in water.
- Wash the anti-scalding basket and lid with warm soapy water and rinse thoroughly.
- **Descaling:** Over time, mineral deposits may accumulate on the heating plate. To descale, mix 50ml of white vinegar with 100ml of water and pour it onto the heating plate. Let it stand for 30 minutes to an hour, then pour out the solution and rinse the plate thoroughly with clean water. Repeat if necessary.
- Ensure all parts are completely dry before storing or next use.

Troubleshooting

Problem	Possible Cause	Solution
Device does not turn on.	Not plugged in; power outlet issue; device malfunction.	Check power connection; try a different outlet; contact customer support if issue persists.
Milk/Food not warming.	Insufficient water; incorrect mode selected; temperature set too low.	Ensure adequate water level; select correct mode; increase temperature setting.
Sterilization not effective.	Insufficient water for steam; lid not properly closed; items not clean before sterilization.	Add correct amount of distilled water; ensure lid is sealed; pre-clean items thoroughly.
Error message on display.	Internal sensor issue; overheating; low water.	Unplug and restart; check water level; if error persists, contact customer support.
Excessive mineral buildup.	Hard water used; infrequent descaling.	Use distilled water; perform descaling procedure regularly as described in Maintenance.

Specifications

- **Model:** WRHBSW03
- **Material Composition:** BPA Free PP Material
- **Product Dimensions:** 16 x 16 x 16.3 cm
- **Item Weight:** 950 g
- **Additional Features:** Anti-Scalding, Auto-Cut Off, Fits all Bottles, LED Smart Touch Screen
- **Batteries Required:** No
- **Manufacturer Recommended Age:** 0 - 3 years
