Trefl 62050

Trefl Brick Trick Moro Military Airport Building Set Instruction Manual

Model: 62050

INTRODUCTION

This instruction manual provides essential information for the assembly, use, and care of your Trefl Brick Trick Moro Military Airport building set. This set allows you to construct a detailed military airport model using real ceramic bricks and other natural materials. Please read all instructions carefully before beginning assembly.

SAFETY INFORMATION

WARNING:

- Not suitable for children under 6 years due to small parts. Choking hazard.
- For use under adult supervision only.
- The kit contains chemicals (adhesive) that can be harmful if used improperly. Read the adhesive instructions before use.
- Avoid contact with eyes and mouth. In case of contact, rinse immediately with plenty of water and seek medical advice.
- Keep the set and its components away from small children and animals.
- Retain this instruction manual and packaging for future reference as they contain important information.

PACKAGE CONTENTS

Verify that all components listed below are present in your set:

- Genuine ceramic stones (over 360 pieces)
- Wooden boards
- Special water-soluble adhesive
- HDF stand (High-Density Fiberboard)
- Stickers with foundation outline

- Decorative elements made of cardboard
- Real moss and stones
- Detailed building instructions

ASSEMBLY INSTRUCTIONS

Follow these steps to construct your Military Airport model:

1. **Preparation:** Unpack all components and organize them. Ensure you have a clean, flat, and stable surface for assembly. Review the detailed building instructions provided in the box.
2. **Foundation:** Place the HDF stand on your work surface. Apply the stickers with the foundation outline to the HDF stand as indicated in the building instructions. This will guide the placement of your initial brick layers.
3. **Brick Laying:** Begin laying the ceramic bricks according to the provided building plans. Apply a small drop of the special adhesive to each brick surface that will connect to another brick. The adhesive works quickly.
4. **Integrating Elements:** As you build, incorporate the wooden boards and decorative cardboard elements at the specified stages, following the instructions.
5. **Detailing:** Once the main structure is complete and the adhesive has dried, use the real moss and stones to add environmental details and enhance the realism of your military airport.
6. **Drying Time:** Allow sufficient time for the adhesive to fully cure before handling the completed model extensively. Refer to the adhesive instructions for specific drying times.

You may also choose to use your imagination to create unique constructions, but it is recommended to follow the provided plans for the initial build.

REUSABILITY AND DISASSEMBLY

A unique feature of the Brick Trick Moro sets is the reusability of the ceramic bricks. If you wish to disassemble your construction and build something new, follow these steps:

1. **Submerge in Water:** Carefully place the constructed model into a container of water. Ensure the entire structure is submerged.
2. **Soak:** Allow the model to soak for several hours, or until the adhesive dissolves and the bricks can be easily separated. The special adhesive is water-soluble.
3. **Clean and Dry:** Once separated, gently clean any remaining adhesive residue from the bricks. Rinse them thoroughly and allow them to air dry completely before storing or reusing them for a new construction.

CARE AND MAINTENANCE

- Keep the assembled model in a dry environment to prevent damage to the materials.
- To clean, gently dust the model with a soft, dry brush. Avoid using water or cleaning solutions on the assembled model, as the adhesive is water-soluble.
- Store unused bricks and components in their original packaging or a sealed container to protect them from dust and moisture.

SPECIFICATIONS

Brand:	Trefl
Model Name:	Brick Trick Moro Military Airport
Item Model Number:	62050
Number of Pieces:	360
Recommended Age:	6 years and up
Materials:	Ceramic, Wood, Cardboard, HDF
Product Dimensions (L x W x H):	12.48 x 8.94 x 2.83 inches
Item Weight:	4.47 pounds
Eco-Friendly:	Made from 96% natural materials

SUPPORT AND CONTACT

For further assistance, missing parts, or inquiries regarding your Trefl Brick Trick Moro Military Airport set, please contact Trefl customer support. Refer to the product packaging or the official Trefl website for the most current contact information.
