Osprey Comet

Osprey Comet Laptop Backpack Instruction Manual

Model: Comet (10006246)

Brand: Osprey

INTRODUCTION

The Osprey Comet Laptop Backpack in Tungsten/Soundwave Grey Heather is designed for daily use, offering fresh and functional features for campus, commute, and beyond. It includes an independent 16-inch laptop compartment and a roomy main compartment with internal organization. Constructed from bluesign approved, 100% recycled nylon main body fabric, it features a comfortable AirScape backpanel, BioStretch harness, and a reinforced grab handle for enhanced comfort and durability.

KEY FEATURES

- **Organization:** Multiple organization pockets, side stretch mesh pockets, and a dedicated, padded laptop and document sleeve provide quick access to all your daily items.
- **Outdoor Aptitude:** Designed with comfortable, capable suspension and the same commitment to fit, features, and fabrics as Osprey's technical packs.
- **Separate Laptop Compartment:** Features a dedicated zippered laptop compartment with internal organization, accommodating up to a 16-inch laptop.
- **Dual Water Bottle Pockets:** Includes dual mesh water bottle pockets for convenient hydration.
- **Blinky Light Attachment:** A loop for blinky light attachment (light not included) enhances visibility.
- **Front Panel Grab Handle:** A reinforced grab handle on the front panel offers an additional carrying option.
- **Removable Hipbelt:** A removable web belt provides extra stability when needed.

SETUP AND ADJUSTMENT

For optimal comfort and load distribution, properly adjust your Osprey Comet backpack:

- Shoulder Straps:** Loosen all straps before putting on the pack. Place the pack on your back and tighten the shoulder straps until the pack feels secure and comfortable on your shoulders.
- Sternum Strap:** Adjust the sternum strap across your chest to a comfortable height and tension. This helps stabilize the pack and distribute weight.
- Hipbelt:** If using the removable web belt, fasten it around your hips and tighten. The hipbelt helps

transfer weight from your shoulders to your hips, improving comfort with heavier loads.

4. **AirScape Backpanel:** The AirScape backpanel is designed to provide a close-to-body fit while allowing airflow to prevent overheating. Ensure the pack sits flush against your back.

OPERATING INSTRUCTIONS

Utilize the various compartments and features of your Comet backpack effectively:

- **Laptop Compartment:** Access the dedicated zippered compartment at the back of the pack to safely store your 16-inch laptop or tablet. This compartment is padded for protection.
- **Main Compartment:** The roomy main compartment offers ample space for books, clothing, or larger items. Use the internal organization pockets to keep smaller items tidy.
- **Front Organization Pocket:** A zippered front pocket provides quick access to pens, keys, and other small essentials.
- **Side Mesh Pockets:** Use the dual stretch mesh pockets on the sides for water bottles or other items you need to grab quickly.
- **Front Shove-It Pocket:** The front panel features a convenient shove-it pocket for stashing a jacket or other quick-access items.
- **Blinky Light Loop:** Attach a blinky light to the designated loop at the bottom of the front panel for increased visibility in low-light conditions.

Outdoor Aptitude

Designed with comfortable, capable suspension and a commitment to technical fit, features and fabrics.

MAINTENANCE AND CARE

To ensure the longevity of your Osprey Comet Laptop Backpack, follow these care guidelines:

- **Cleaning:** Spot clean with mild soap and water. Do not machine wash or tumble dry, as this can damage the fabric and coatings.
- **Drying:** Air dry the backpack completely before storing to prevent mildew. Avoid direct sunlight or high heat.
- **Storage:** Store your backpack in a cool, dry place away from direct sunlight when not in use.
- **Fabric:** The backpack is made from bluesign approved, 100% recycled nylon with a DWR (Durable Water Repellent) treatment. While water-resistant, it is not fully waterproof. For heavy rain, consider using a rain cover.

TROUBLESHOOTING

Here are solutions to common issues you might encounter:

- **Uncomfortable Fit:** Re-adjust all straps (shoulder, sternum, hipbelt) to ensure proper load distribution. The AirScape backpanel should sit comfortably against your back.
- **Bag Feels Heavy:** Ensure heavier items are packed closer to your back and centered. Utilize the hipbelt to transfer weight to your hips.
- **Zippers Sticking:** Apply a small amount of zipper lubricant or graphite (from a pencil) to the zipper teeth and work the zipper back and forth.
- **Contents Getting Damp:** While the fabric has a DWR treatment, it is not fully waterproof. For prolonged exposure to rain, use a separate rain cover.

SPECIFICATIONS

Feature	Detail
Product Dimensions	11.4 x 12.2 x 18.9 inches
Item Weight	1.93 pounds
Capacity Total	30 Liters
Material	bluesign approved, 100% recycled nylon main body fabric with DWR
