SETUP AND ASSEMBLY

Assembly of the GarveeHome dresser is designed to be straightforward with clear, marked parts and detailed instructions. An average assembly time is approximately one hour for a single person. It is recommended to have a power drill for faster and easier assembly, though a screwdriver can also be used.

1. **Unpack and Organize:** Lay out all components on a clean, soft surface to prevent scratches. Verify all parts against the included parts list.
2. **Assemble the Main Frame:** Follow the numbered steps in the user guide to connect the side, top, and bottom panels using the provided hardware. Ensure all connections are secure.
3. **Install Drawer Slides:** Attach the drawer slides to the interior side panels of the dresser frame and to the sides of each drawer.
4. **Assemble Drawers:** Construct each drawer by connecting the front, back, and side panels, then slide in the bottom panel. Attach the gold metal handles to the front of each drawer.
5. **Insert Drawers:** Carefully slide the assembled drawers into their respective slots on the dresser frame.
6. **Attach Anti-Tipping Device:** For safety, secure the dresser to a wall using the provided anti-tipping straps. This is crucial to prevent accidental tipping, especially in households with children or pets.

TROUBLESHOOTING

If you encounter any issues with your dresser, refer to the following common solutions:

- **Drawers not sliding smoothly:** Check that the drawer slides are properly aligned and free of obstructions. Ensure all screws on the slides are tightened.
- **Wobbly dresser:** Verify that all assembly hardware is securely tightened. Ensure the dresser is placed on a flat, level surface. Adjust leveling feet if present.
- **Damage during assembly:** Exercise caution when tightening screws, especially larger ones, to avoid overtightening or piercing through panels. If a part is damaged, contact customer support for assistance.
