4. MAINTENANCE

To maintain the appearance and functionality of your SURITCH phone case, follow these guidelines:

- **Cleaning:** Wipe the case regularly with a soft, damp cloth to remove dust and fingerprints. Avoid harsh chemicals or abrasive cleaners, as these can damage the Thermoplastic Polyurethane (TPU) material.
- **Avoid Extreme Conditions:** Do not expose the case to extreme temperatures or direct sunlight for prolonged periods, as this may affect its material integrity and color.
- **Screen Protection:** While the case offers raised bezels for screen protection, it is recommended to use a screen protector for comprehensive defense against scratches and impacts.

5. TROUBLESHOOTING

If you encounter any issues with your SURITCH phone case, consider the following:

- **Lack of Grip:** Some users may find the matte finish to be less grippy on the sides. If this is a concern, ensure your hands are dry and clean when handling the phone.
- **Discoloration:** Over time, some materials may show signs of discoloration due to skin oils or environmental factors. Regular cleaning as described in the Maintenance section can help mitigate this. If discoloration persists, it may be a natural aging process of the material.
- **Magnetic Attachment Strength:** Ensure no foreign objects are between the case and the magnetic accessory that could interfere with the magnetic connection.
- **Kickstand Stability:** If the kickstand feels loose, ensure it is fully extended and placed on a flat, stable surface. Avoid applying excessive force.

6. SPECIFICATIONS

Feature	Detail
Brand	SURITCH
Compatible Phone Models	Samsung Galaxy S25 Ultra (2025)
