Pumptiva P011

Pumptiva P011 Portable Tire Inflator User Manual

Brand: Pumptiva

INTRODUCTION

Thank you for choosing the Pumptiva P011 Portable Tire Inflator. This device is designed for convenient and efficient inflation of various items, including car tires, motorcycle tires, bicycle tires, and sports balls. It features a powerful 150 PSI motor, accurate digital pressure gauge, automatic shut-off, and multiple preset modes for ease of use. Please read this manual thoroughly before operation to ensure safe and optimal performance.

SAFETY INSTRUCTIONS

- Always ensure the inflator is fully charged before use, especially for emergencies.
- Do not leave the inflator unattended during operation.
- The inflation hose and nozzle may become hot during prolonged use. Handle with care to avoid burns.
- Keep out of reach of children.
- Do not over-inflate items. Always refer to the manufacturer's recommended pressure for your specific item. The auto shut-off feature helps prevent over-inflation.
- Store the device in a cool, dry place away from direct sunlight and extreme temperatures.
- Do not attempt to disassemble or modify the device. Contact customer support for any repairs.

PACKAGE CONTENTS

Image: The Pumptiva P011 Portable Tire Inflator shown with its included accessories, including various nozzles, charging cable, and storage bag.

- Pumptiva P011 Tire Inflator Unit
- Storage Bag
- Ball Needle
- Nozzle for Swimming Ring
- Nozzle for Air Mattress
- Presta Valve Adapter
- Fuse
- Type-C Charging Cable
- User Manual (this document)

PRODUCT OVERVIEW & FEATURES

The Pumptiva P011 is a compact and versatile air compressor designed for portability and ease of use. Key features include:

- **Fast Inflation:** Equipped with a powerful motor, it can inflate tires up to 150 PSI quickly.
- **Accurate Digital Display:** An LCD screen shows real-time tire pressure and allows for precise

pressure setting.

- **Automatic Shut-Off:** Stops inflation automatically once the preset pressure is reached, preventing over-inflation.
- **4 Preset Inflation Modes:** Dedicated modes for bicycles, motorcycles, cars, and balls for quick selection.
- **Multi-Functional LED Light:** Features 3 modes (General, SOS, Flashing) for illumination during emergencies or low-light conditions.
- **Compact and Portable:** Lightweight design makes it easy to carry and store in a backpack or car.

CORDLESS TIRE INFLATOR

Easy to carry, your travel companion

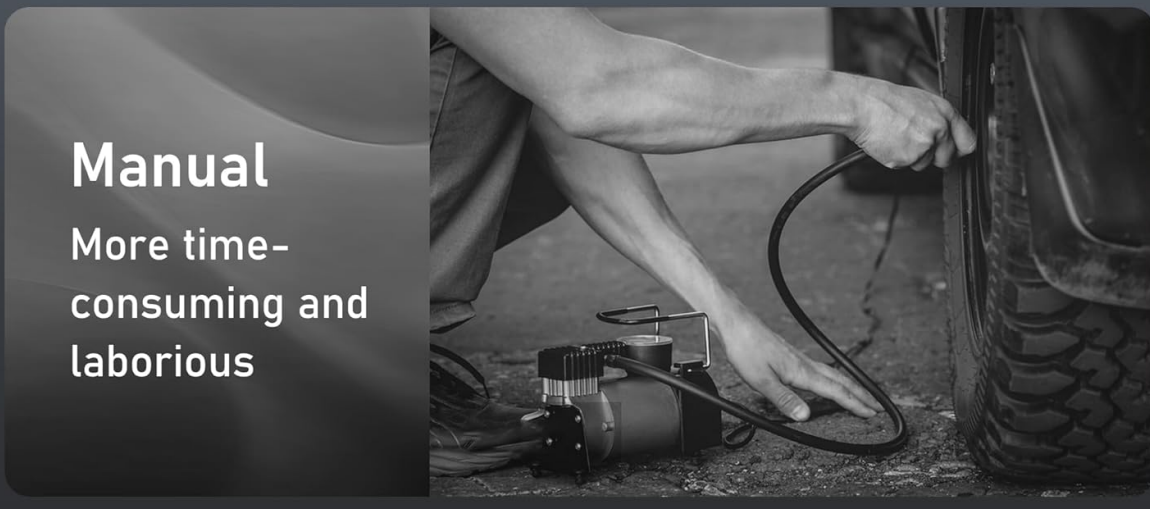

Image: Comparison illustrating the convenience of the cordless electric Pumptiva P011 versus a traditional manual pump.

Image: The compact dimensions of the Pumptiva P011, highlighting its portability for storage in a backpack, car console, or attached to a bicycle frame.

SETUP

1. **Charge the Device:** Before first use, fully charge the inflator using the provided Type-C charging cable. The battery indicator on the LCD screen will show charging status.
2. **Attach the Air Hose:** Screw the air hose securely into the inflation port on the top of the device.
3. **Select Appropriate Nozzle:** Choose the correct nozzle or adapter for the item you intend to inflate (e.g., ball needle, Presta valve adapter for bicycles, standard nozzle for car tires). Attach it to the end of the air hose.

OPERATING INSTRUCTIONS

1. Powering On/Off

- **Power On:** Press and hold the power button (usually marked with a circle or 'M') for 2-3 seconds until the LCD screen illuminates.
- **Power Off:** Press and hold the power button again for 2-3 seconds, or the device will automatically power off after a period of inactivity.

2. Setting Pressure Units

- After powering on, short press the 'M' button (Mode/Unit button) to cycle through available pressure units: PSI, BAR, KPA, and kg/cm². Select your desired unit.

3. Selecting Inflation Modes

4 PRESET INFLATION MODES

Car: 26-50 PSI

Motorcycle: 26-45 PSI

Bicycle: 30-145 PSI

Ball: 4-16 PSI

Image: The Pumptiva P011 displaying its four preset inflation modes for cars (26-50 PSI), motorcycles (26-45 PSI), bicycles (30-145 PSI), and balls (4-16 PSI).

- Short press the mode button (often labeled with icons for car, motorcycle, bicycle, ball) to select the appropriate preset mode for your item. Each mode has a default pressure range.

4. Adjusting Target Pressure

ACCURATE REAL-TIME TIRE PRESSURE

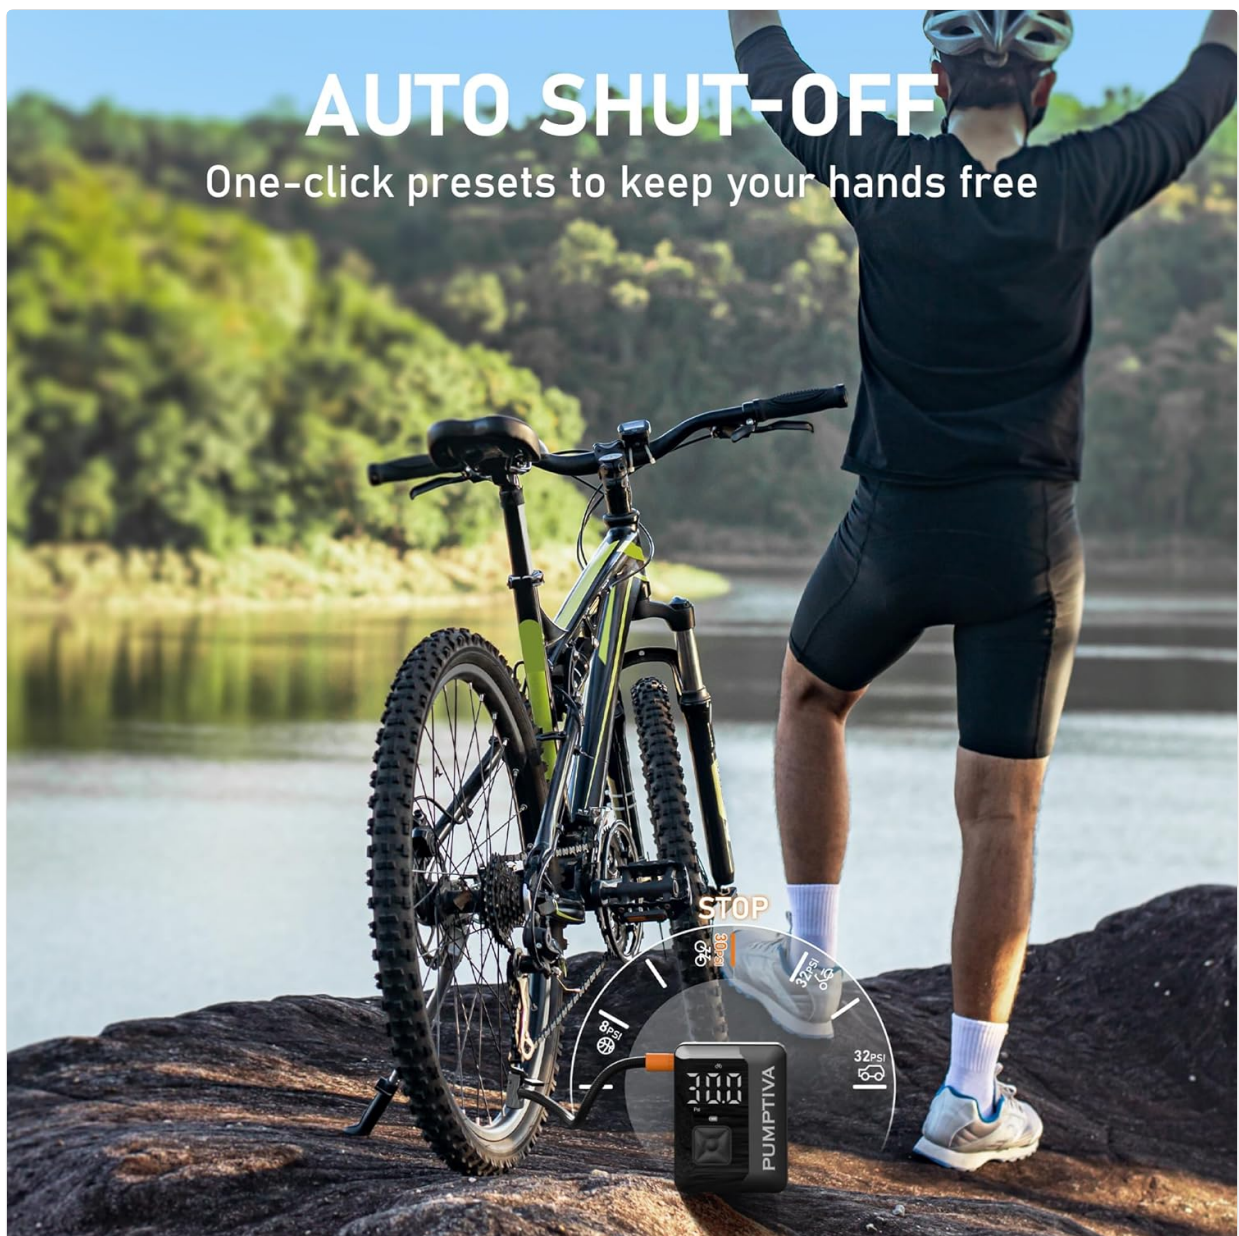

Image: The digital LCD display of the Pumptiva P011 showing accurate real-time tire pressure, ensuring precise inflation.

- Use the '+' and '-' buttons to increase or decrease the target pressure to your desired level. The current pressure of the connected item will be displayed, allowing you to set the target accurately.

5. Starting & Stopping Inflation

Image: The Pumptiva P011 inflating a car tire, highlighting its fast inflation capability (e.g., 28 PSI to 36 PSI in 45 seconds for a 195/65 R15 tire).

AUTO SHUT-OFF

One-click presets to keep your hands free

Image: The auto shut-off feature of the Pumptiva P011, allowing for hands-free operation once the preset pressure is reached, as demonstrated with a bicycle.

- **Connect:** Securely attach the nozzle to the item's valve stem. The screen will display the current pressure.
- **Start:** Press the power/start button (often the same as the power on button or a dedicated pump button) to begin inflation.
- **Auto Shut-Off:** The inflator will automatically stop once the target pressure is reached.
- **Manual Stop:** You can manually stop inflation at any time by pressing the power/start button.
- **Disconnect:** Carefully disconnect the nozzle from the valve stem. A small amount of air may escape, which is normal.

6. LED Light Functions

Image: The Pumptiva P011's integrated LED light, illustrating its three modes: Normal illumination, Flashing for attention, and SOS for emergency signaling.

- Press the light button (often marked with a lightbulb icon) to turn on the LED light.
- Short press the light button again to cycle through the 3 modes: General illumination, SOS signal, and Flashing warning light.
- Press and hold the light button to turn off the LED light.

MAINTENANCE

- Clean the device regularly with a soft, dry cloth. Do not use harsh chemicals or abrasive cleaners.

- Ensure the air hose and nozzles are free from dust and debris before and after use.
- Store all accessories in the provided storage bag to prevent loss and damage.
- Recharge the battery periodically if the device is not used for extended periods to maintain battery health.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Device does not power on.	Low battery or device is off.	Charge the device fully. Press and hold the power button for 2-3 seconds.
Inflator not pumping air.	Hose not securely attached, nozzle blocked, or target pressure already reached.	Ensure hose and nozzle are tight. Check for blockages. Verify target pressure setting.
Inaccurate pressure reading.	Loose connection or faulty sensor.	Ensure the nozzle is tightly connected to the valve stem. If issue persists, contact support.
Device gets hot during use.	Normal during prolonged operation.	Allow the device to cool down. Avoid continuous operation for extended periods.

SPECIFICATIONS

Feature	Detail
Brand	Pumptiva
Model	P011
Maximum Pressure	150 PSI
Item Weight	11.3 ounces
Product Dimensions	3.14 x 1.89 x 4.2 inches
Battery	1 x 12V battery (included)
Voltage	7.4 Volts
Special Features	Auto Shut-Off Function, Battery Supply, Convenient & Easy Storage, Easy Operation & LED Light

WARRANTY AND SUPPORT

Pumptiva is committed to providing high-quality products and excellent customer service.

- **Warranty:** This product comes with a 2-Year Protection Plan. Additional protection plans may be available for purchase.

- **Returns:** A 90-day return or exchange policy is typically available.
- **Customer Support:** For any questions, troubleshooting assistance, or warranty claims, please contact Pumptiva customer support.
- **Transparency:** Each item has a unique code verified before shipping to ensure authenticity.
