3. OPERATING INSTRUCTIONS

Power On/Off

Locate the 'POWER' button on the left side of the control panel. Press it to turn the keyboard on or off. The LED screen will illuminate upon power-on.

Volume Control

Use the 'VOLUME' buttons (+/-) to adjust the master volume of the keyboard. Separate controls are available for accompaniment volume ('ACCOMP VOL') and chord volume ('CHORD VOL').

Selecting Tones and Rhythms

The keyboard offers 300 tones and 300 rhythms. Use the numeric keypad and the 'TONE' or 'RHYTHM' buttons to select your desired sound or rhythm. The LED display will show your selection.

Recording and Playback

Press the 'RECORD' button to begin recording your performance. Press 'PLAY' to listen to your recorded track. The 'PROGRAM' function allows for more advanced sequencing.

Teaching Modes

Engage the 'Single-Key Mode' or 'Follow Mode' for guided learning. The lighted keys will assist you in mastering melodies and finger placement.

7. MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to clean the surface of the keyboard. Avoid using abrasive cleaners or solvents.
- **Storage:** Store the keyboard in a cool, dry place away from direct sunlight and extreme temperatures.

- **Battery Care:** If using batteries, remove them if the keyboard will not be used for an extended period to prevent leakage.

8. TROUBLESHOOTING

- **No Sound:** Check if the power is on and the volume is turned up. Ensure headphones are not plugged in if you intend to use the speakers.
- **Keys Not Responding:** Verify the keyboard is powered on. If using teaching modes, ensure you are pressing the correct lighted keys.
- **Power Issues:** If using the adapter, ensure it is securely plugged into both the keyboard and the outlet. If using batteries, check if they are correctly inserted and not depleted.
