› BEDSURE Heated Blanket User Manual - Model 180 x 200 cm

Bedsure 180 x 200 cm

Bedsure Heated Blanket User Manual

Model: 180 x 200 cm

1. INTRODUCTION

Thank you for choosing the Bedsure Heated Blanket. This manual provides essential information for the safe and efficient use of your new heated blanket. Please read all instructions carefully before use and retain this manual for future reference.

The Bedsure Heated Blanket is designed to provide adjustable warmth and comfort, featuring multiple heat settings and a programmable timer for personalized use. Its soft material and safety features ensure a pleasant and secure experience.

This image shows the Bedsure heated blanket, black with a white sherpa lining, draped over a light-colored sofa in a living room setting. The digital controller is visible on the blanket.

2. SAFETY INSTRUCTIONS

Your safety is paramount. This heated blanket incorporates several features to ensure safe operation. Please adhere to the following guidelines:

- **Automatic Shut-Off:** If no specific timer is set, the blanket will automatically turn off after 8 hours to prevent overheating and conserve energy.
- **Overheat Protection:** The blanket is equipped with advanced heating wire technology and safety mechanisms to prevent overheating.
- **Certifications:** This product has passed 74 safety tests conducted in the Bedsure Intertek-approved satellite laboratory and exceeds UL standards. It is GS, CE, and RoHS certified.
- **Cleaning Safety:** Always disconnect the controller from the blanket before cleaning. Refer to the 'Maintenance and Cleaning' section for detailed instructions.
- **Do Not Bleach or Dry Clean:** Use only recommended cleaning methods.
- **Air Dry Only:** Do not tumble dry or iron the blanket.

3. PRODUCT FEATURES

The Bedsure Heated Blanket offers a range of features designed for optimal comfort and ease of use:

- **Adjustable Heat Settings:** Choose from 6 distinct heating levels to find your preferred warmth.
- **Programmable Timer:** Set the operating time with 10 different settings, allowing for up to 10 hours of continuous heat.
- **Intelligent Pre-heat Function:** Quickly warms to level 6 for one hour, then automatically switches to level 2 for sustained, comfortable warmth. This mode defaults to a 10-hour timer.
- **Soft and Durable Material:** Made with exceptionally soft and comfortable plush and Sherpa fleece on both sides, ensuring a cozy feel. The material is fade-resistant.
- **3-Layer Heat Storage Technology:** Features a skin-friendly plush layer, fast-heating wires, and a heat-retaining Sherpa-fleece layer for efficient and even warmth.
- **Machine Washable Design:** The removable connector allows for easy machine washing, simplifying

A graphic demonstrating the Bedsure heated blanket's superior heating comfort, showing faster and more even heat distribution compared to conventional blankets. It highlights a large heating area and temperature progression from 30°C to 55°C.

3-SCHICHTEN WÄRMESPEICHERUNG-TECHNOLOGIE

An exploded view diagram illustrating the three-layer heat storage technology of the blanket. It shows a skin-friendly plush top layer, fast-heating wires in the middle, and a heat-retaining Sherpa-fleece layer at the bottom. It also compares improved heating wires (Bedsure) with standard ones.

4. SETUP

1. **Unpack:** Carefully remove the heated blanket and its controller from the packaging.
2. **Position:** Lay the blanket flat on your bed or desired surface, ensuring there are no folds or creases.
3. **Connect Controller:** Locate the connector on the blanket and firmly plug in the digital controller. Ensure a secure connection.
4. **Power On:** Plug the controller's power cord into a standard electrical outlet.

5. OPERATING INSTRUCTIONS

The digital controller allows you to easily manage the blanket's heat and timer settings.

DIGITAL CONTROLLER

This image displays the intelligent digital controller for the Bedsure heated blanket. It features a digital display showing '06' (heat level), buttons for power, heat level adjustment, and timer settings. Text indicates 'Intelligent Pre-heat function', '10 Time Settings', and '6 Heat Levels'.

- **Power On/Off:** Press the power button to turn the blanket on or off. The digital display will illuminate when on.
- **Adjust Heat Level:** Use the 'TEMP' button to cycle through the 6 available heat settings (1-6). The selected level will be shown on the digital display.
- **Set Timer:** Press the 'TIME' button to select your desired operating duration from 1 to 10 hours. The chosen time will be displayed. If no timer is set, the blanket will automatically shut off after 8 hours.
- **Pre-heat Function:** The blanket offers a pre-heat function that quickly heats to level 6 for one hour, then automatically transitions to level 2 for continued warmth. This mode is set to a 10-hour default timer.

6. MAINTENANCE AND CLEANING

Proper care will extend the life of your heated blanket. Follow these cleaning instructions:

1. **Disconnect:** Always unplug the blanket from the wall outlet and then detach the controller from the blanket before cleaning.

2. **Machine Wash:** Place the blanket in a washing machine. Use a gentle cycle with cold water (30°C maximum).
3. **Detergent:** Use a mild detergent. Do not use bleach or harsh chemicals.
4. **Rinse:** Ensure the blanket is thoroughly rinsed to remove all detergent residue.
5. **Air Dry:** Gently squeeze out excess water. Hang the blanket or lay it flat to air dry completely. Do not tumble dry, iron, or dry clean. Ensure the blanket and connector are completely dry before reconnecting the controller and using.

This image shows a woman putting the Bedsure heated blanket into a washing machine, demonstrating its machine-washable design. Icons indicate 'No Bleach', 'No Chemical Cleaning', 'Gentle cycle at 30°C (remove switch beforehand)', and 'Air dry only'.

7. TROUBLESHOOTING

If you encounter any issues with your Bedsure Heated Blanket, please refer to the following common solutions:

- **Blanket Not Heating:**

- Ensure the power cord is securely plugged into a working electrical outlet.
- Verify that the controller is firmly connected to the blanket.

- Press the power button on the controller to turn the blanket on.
- Check if the timer has expired, causing the blanket to shut off automatically.
- **Blanket Shuts Off Unexpectedly:**
 - This is likely due to the automatic shut-off feature. If no timer is set, the blanket will turn off after 8 hours. If a timer was set, it will turn off once the set time has elapsed.
 - Ensure the blanket is not folded or bunched up, which could trigger overheat protection.
- **Controller Display Not Working:**
 - Check the power connection to the wall outlet and the connection to the blanket.
 - Try plugging the blanket into a different outlet.

If these steps do not resolve the issue, please contact Bedsure customer support for further assistance.

8. SPECIFICATIONS

Brand	Bedsure
Model Dimensions	180 x 200 cm
Item Weight	2.1 Kilograms
Material	Plush, Sherpa Fleece
Heat Levels	6
Timer Settings	10 (up to 10 hours)
