2. SAFETY INFORMATION

For the safety of all household members, especially children and pets, it is crucial to properly install the included anti-tipping device. This device helps prevent the dresser from accidentally tipping over. Always ensure the dresser is placed on a stable, level surface.

- **Anti-Tipping Device:** Securely attach the dresser to the wall using the provided anti-tipping kit.
- **Weight Limits:** Do not exceed the maximum weight capacity for each drawer (30 lbs) or the tabletop (130 lbs). Overloading can compromise stability.
- **Drawer Use:** Open only one drawer at a time to maintain balance and prevent tipping.
