Howeall 4x12 Inches Antique Brass 4PCS

Howeall 4x12 Inches Heavy Duty Walkable Floor Register Instruction Manual

Model: 4x12 Inches Antique Brass 4PCS

PRODUCT OVERVIEW

The Howeall 4x12 Inches Heavy Duty Walkable Floor Register is designed to provide efficient airflow control and enhance the aesthetic appeal of your home. Crafted from robust steel, these floor registers are built for durability and can withstand significant walking weight. They feature an easy-adjust air supply lever for customizable airflow and a decorative Boston design to complement various interior decors.

KEY FEATURES

- **Exceptional Strength & Durability:** Crafted from robust 2mm thick steel, capable of withstanding up to 300 pounds of walking weight. Features a premium finish that resists rust and corrosion.
- **Customizable Airflow Control:** Adjustable dampers made from recycled high-impact polystyrene provide complete control over air direction and volume, operating quietly without rattling.
- **Effortless Installation & Perfect Fit:** Edge folding process ensures a seamless fit with the floor, eliminating tripping

hazards. No screws or tools are needed for installation.

- **Aesthetic Appeal:** Stylish decorative patterns, including the elegant Boston design, available in various colors and sizes to complement any decor.
- **Low-Maintenance:** Easy to clean by simply removing the register and wiping the surface with a dry cloth.

INSTALLATION GUIDE

Installing your Howeall floor register is a straightforward process that requires no special tools. Follow these simple steps for a secure and functional fit:

1. **Step 1: Remove Existing Register**

Carefully remove any existing floor register from the duct opening.

2. **Step 2: Determine Correct Size**

Measure the exact dimensions (width and height) of the duct opening in your floor. **Do not measure your existing cover.** Ensure the new register matches these dimensions for a proper fit.

3. **Step 3: Insert New Register**

Simply drop the Howeall floor register into the measured duct hole. The edge folding process ensures a seamless and flush fit with your flooring.

EASY TO INSTALL

No tools are required for installation!
Simply drop into the duct hole and enjoy!

Step 1

Remove Your Existing
Floor Register

Step 2

Determine The Correct
Size By Measuring The Duct
Opening In The Floor

**Do not measure
your existing cover.**

OPERATING INSTRUCTIONS

The Howeall floor register features an adjustable damper system to control airflow. This allows you to customize the air direction and volume from your central air system for optimal comfort.

- **Adjusting Airflow:** Locate the small lever or switch on the top surface of the register. Slide this lever to open or close the internal dampers.
- **Open Position:** Sliding the lever to the open position will allow maximum airflow through the register.
- **Closed Position:** Sliding the lever to the closed position will restrict or completely block airflow, useful for directing air to other areas or conserving energy.

Maximum Airflow Control

Easy adjustment, allows precise airflow control at your will

The adjustable dampers are designed to operate quietly and without rattling, ensuring a peaceful environment.

MAINTENANCE

Maintaining your Howeall floor register is simple and helps preserve its appearance and functionality:

- **Regular Cleaning:** Periodically remove the register from the duct opening.
- **Surface Wipe:** Use a dry cloth to wipe away any surface dust or stains. Avoid abrasive cleaners or harsh chemicals that could damage the finish.
- **Reinstallation:** Once cleaned, place the register back into the duct opening.

The premium finish is designed to resist rust and corrosion, ensuring long-lasting performance. The register is also capable of withstanding high temperatures up to 194°F without deformation or melting, making it suitable for various home environments.

Worry-free Usage During Winter

Capable of withstanding high temperatures up to 194 °F without deformation or melting

- ✓ Long service life
- ✓ Anti-rust and fading
- ✓ High-standard injection molding
- ✓ Not easy to fall off

TROUBLESHOOTING

If you encounter any issues with your Howeall floor register, consider the following common solutions:

- **Register Not Fitting Properly:** Ensure you have measured the duct opening accurately. The register should fit snugly without force. If the opening is irregular, minor adjustments to the surrounding flooring may be necessary, or consider a different size.
- **Airflow Issues:** Check that the adjustable damper is fully open if you desire maximum airflow. Ensure there are no obstructions within the ductwork or the register itself.
- **Rattling Noise:** Verify that the register is seated firmly in the duct opening. The dampers are designed to be quiet, but if rattling occurs, ensure they are not loose or damaged.
- **Surface Damage:** While designed for durability, avoid dropping heavy objects on the register or using harsh cleaning agents. For minor scuffs, a gentle polish suitable for metal finishes may help.

For persistent issues not covered here, please refer to the warranty and support information.

SPECIFICATIONS

Attribute	Detail
Manufacturer	Howeall
Item Weight	4.75 pounds
Package Dimensions	14.13 x 7.68 x 5.79 inches
Size	4x12 Inches
Color	Antique Brass 4PCS
Material	Steel, Plastic
