FiveWillowise 47.2" Fluted Buffet Sideboard Cabinet Instruction Manual

Model: B0DSC7368X

INTRODUCTION

Thank you for choosing the FiveWillowise 47.2" Fluted Buffet Sideboard Cabinet. This manual provides essential information for the safe assembly, operation, and maintenance of your new furniture. Please read all instructions carefully before beginning assembly and retain this manual for future reference.

This modern buffet cabinet features a distinctive textured design with elegant wave-like panels and sleek black metal handles. It offers generous storage with adjustable shelves and is built with high-quality MDF for durability.

IMPORTANT SAFETY INFORMATION

WARNING: Always ensure the cabinet is properly secured to the wall using the anti-tip mechanism to prevent tipping. Do not attempt to mount the cabinet on a wall as it is designed for floor use only.

- Keep all small parts and packaging materials away from children.
- Assemble on a soft, clean surface to prevent scratches.
- Ensure all connections are securely tightened before use.
- Do not overload shelves; adhere to the maximum weight capacity.
- Regularly check and re-tighten all fasteners.

PACKAGE CONTENTS

Before assembly, verify that all parts listed below are present and undamaged. If any parts are missing or damaged, please contact customer support.

The assembly video provides a visual guide to the included components and hardware.

SETUP AND ASSEMBLY

Assembly is required for this product. Please follow the steps below carefully. An online installation video is available for visual guidance.

Tools Required:

- Phillips Head Screwdriver (not included)
- Hammer (not included)

Assembly Steps:

1. Step 1: Prepare the Base Panel

Attach the magnetic catches and anti-tip brackets to the designated positions on the bottom panel using the provided screws. Ensure they are securely fastened.

2. Step 2: Attach Hinges and Handles to Doors

Secure the hinges to the three door panels. Then, attach the gold-colored handles to the front of each door. Refer to the diagram for correct orientation.

3. Step 3: Assemble Side and Middle Panels

Insert the wooden dowels into the pre-drilled holes on the side and middle panels. Connect these panels to the bottom panel, ensuring a snug fit.

4. Step 4: Install Rear Support Bar

Attach the metal rear support bar to the back of the cabinet structure using the specified screws. This provides additional stability.

5. Step 5: Attach Top Panel

Carefully place the top panel onto the assembled structure, aligning it with the dowels and screw holes. Secure it in place with screws.

6. Step 6: Assemble and Attach Legs

Assemble the golden metal legs according to the instructions, ensuring the foot pads are attached. Secure the assembled legs to the underside of the cabinet.

7. Step 7: Install Back Panels

Slide the back panels into the grooves on the rear of the cabinet and secure them with small nails or screws as indicated.

8. Step 8: Insert Adjustable Shelves

Place the shelf pins into the desired height holes within the cabinet compartments. Then, rest the adjustable shelves on these pins.

OPERATING INSTRUCTIONS

Adjusting Shelves:

The internal shelves can be adjusted to three different heights, each spaced 2 inches apart. To adjust, remove the shelf, reposition the shelf pins to the desired height, and then reinsert the shelf.

Image: Detailed view of the adjustable shelf mechanism, illustrating how to customize storage space.

Door Operation:

The cabinet features three doors with magnetic catches for secure closure. Gently push to open and close the doors. If doors are misaligned, adjust the hinges as necessary.

MAINTENANCE

- **Cleaning:** Wipe surfaces with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners. The surface is waterproof and scratch-resistant.
- **Dusting:** Regularly dust with a dry, soft cloth.
- **Fasteners:** Periodically check all screws and bolts to ensure they remain tight. Re-tighten if necessary.
- **Anti-Tip Mechanism:** Verify that the anti-tip mechanism remains securely attached to the wall and the cabinet.

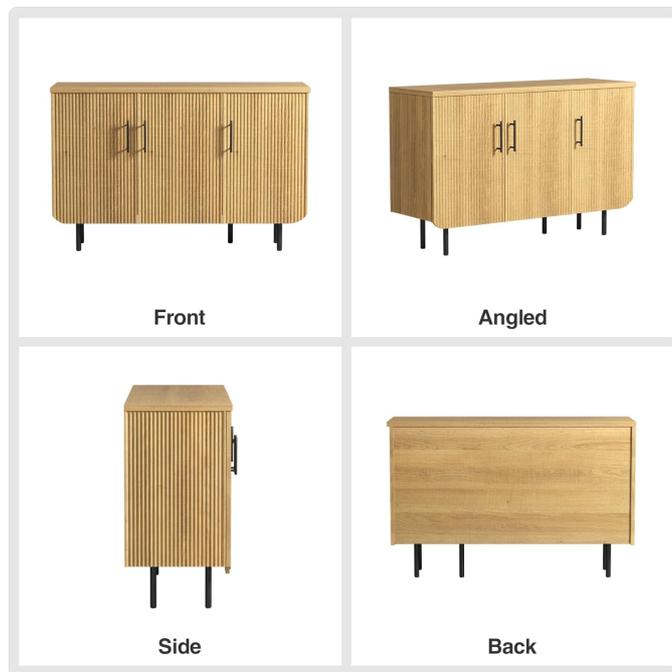

Image: The cabinet's design allows for easy cleaning underneath, including access for robot vacuums.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Cabinet is wobbly	Loose fasteners; uneven floor.	Check and tighten all screws. Use shims under legs if floor is uneven. Ensure anti-tip mechanism is installed.
Doors do not close properly	Misaligned hinges; obstruction.	Adjust hinge screws to align doors. Check for items blocking door closure.
Missing parts during assembly	Packaging error.	Contact FiveWillowise customer support with your purchase details and the specific missing parts.
