4D Build 6073468

4D Build Marvel Spider-Man 3D Puzzle Model Kit Instruction Manual

Model: 6073468

Introduction

This manual provides comprehensive instructions for assembling and maintaining your 4D Build Marvel Spider-Man 3D Puzzle Model Kit. This kit allows you to construct a detailed, full-body replica of Spider-Man in an iconic pose, designed for display. The model measures approximately 15.7 inches by 13.5 inches by 12.2 inches (40x34.2x30.9cm) upon completion.

What's Included

Your 4D Build Marvel Spider-Man 3D Puzzle Model Kit contains all necessary components for assembly. No additional glue or tools are required.

- 20 EPS Foam 3D Puzzle Sheets: These sheets contain 195 intricate, durable punch-out pieces.
- Easy-Assembly Instructions: A step-by-step guide to assist with construction.

Setup and Assembly

Follow these steps to assemble your 4D Build Spider-Man model. Take your time and be gentle when handling the pieces.

1. **Unpack Components:** Carefully remove all 20 EPS foam sheets and the instruction manual from the packaging.
2. **Identify Pieces:** Each piece is numbered and corresponds to a specific step in the instructions. Familiarize yourself with the numbering system.
3. **Punch Out Pieces:** Gently punch out the required pieces from the foam sheets as indicated in the instructions. Avoid forcing pieces to prevent damage. If a piece is difficult to remove, use a blunt, thin object to carefully push it out.
4. **Assemble Sections:** Follow the step-by-step instructions to connect the pieces. The pieces are designed to interlock without the need for glue or additional tools. Ensure each connection is secure.
5. **Build the Base:** Assemble the display base first, as this will provide a stable platform for the model.
6. **Attach Model to Base:** Once the Spider-Man figure is fully assembled, carefully attach it to the designated slots on the display base.

Operating and Display

Once assembled, your 4D Build Spider-Man model is ready for display. The included stand ensures stability and showcases the detailed replica in its iconic action pose.

- **Placement:** Choose a flat, stable surface for display, such as a desk, shelf, or coffee table.
- **Lighting:** Optimal lighting can enhance the visual details of the model.
- **Dimensions:** The assembled model measures approximately 15.7" (length) x 13.5" (width) x 12.2" (height). Ensure adequate space for display.

Maintenance

To ensure the longevity and appearance of your 4D Build Spider-Man model, follow these simple maintenance guidelines:

- **Cleaning:** Dust the model regularly with a soft, dry cloth or a soft brush. Avoid using abrasive cleaners or liquids, as these may damage the EPS foam material or printed details.
- **Storage:** If disassembling for storage, do so carefully to avoid bending or tearing the foam pieces. Store in a dry, cool place away from direct sunlight.
- **Handling:** Handle the model by its base whenever possible to prevent stress on individual pieces.

Troubleshooting

If you encounter any difficulties during assembly, consider the following:

- **Pieces Not Fitting:** Double-check the piece numbers against the instructions. Ensure you are using the correct pieces for

the current step. Sometimes, pieces may require a gentle but firm push to interlock properly.

- **Damaged Pieces:** If a piece is bent or torn, attempt to gently reshape it. If severely damaged, contact customer support for possible replacement options.
- **Stability Issues:** Ensure all connections are fully engaged. If the model feels unstable, re-examine the base assembly and the connection points to the main figure.

Specifications

Brand Name	4D Build
Model Number	6073468
UPC	681147074354
Material Type	EPS Foam
Number of Pieces	195
Assembled Dimensions (L x W x H)	15.7" x 13.5" x 12.2" (40 x 34.2 x 30.9 cm)
Item Weight	0.5 Pounds
Recommended Age	12 years and up
Assembly Required	Yes
Tools Required	None
