Allparts Equipment & Accessories 1001-A

Allparts Equipment & Accessories SKYTECH 1001 Series On/Off Millivolt Fireplace Remote Transmitter User Manual

Models: 1001-A, 1001-B, 1001TX, 1001TX-A

1. Introduction

This manual provides comprehensive instructions for the installation, operation, and maintenance of your Allparts Equipment & Accessories SKYTECH 1001 Series On/Off Millivolt Fireplace Remote Transmitter. Please read this manual thoroughly before using the product to ensure safe and efficient operation. This transmitter is designed to work exclusively with compatible SKYTECH 1001 Series receivers.

2. Product Overview

The SKYTECH 1001 Series remote transmitter provides convenient on/off control for your millivolt fireplace system. Utilizing Radio Frequency (RF) technology, it does not require a direct line of sight to operate the receiver, offering flexibility in placement.

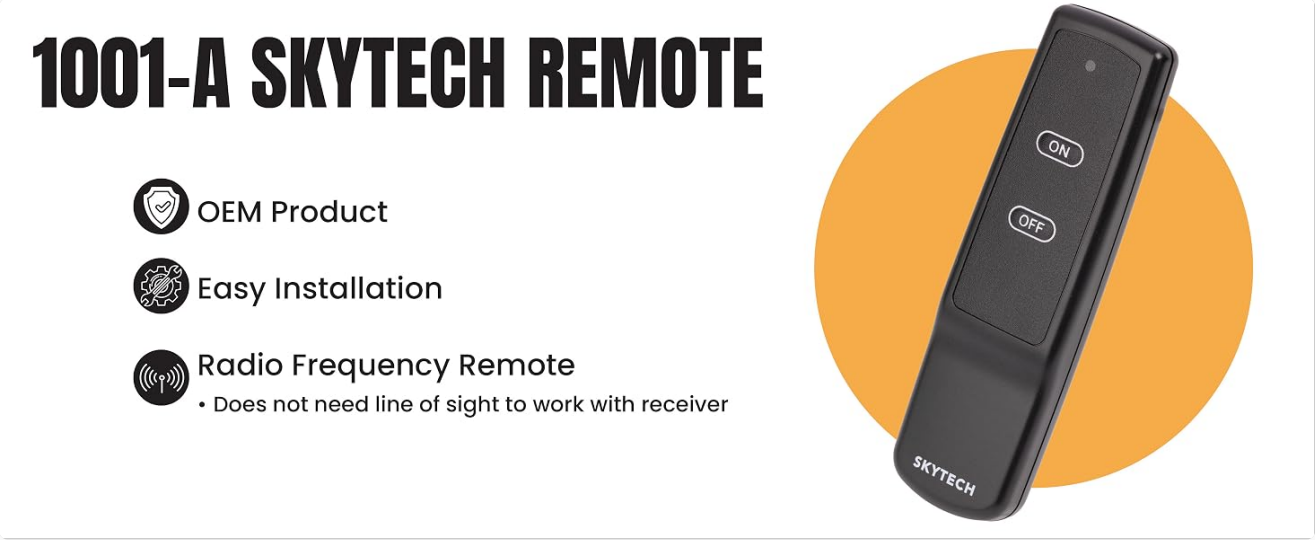

Image: Front view of the SKYTECH 1001-A fireplace remote transmitter, showing the 'ON' and 'OFF' buttons and the SKYTECH logo.

Key Features:

- **Transmitter Only:** This package includes only the remote transmitter. A compatible receiver (1001-A or 1001TH-A) is required for operation.
- **On/Off Function:** Simple two-button operation for turning your fireplace on and off.
- **Radio Frequency (RF) Operated:** No line of sight is needed between the transmitter and receiver.
- **Easy Installation:** Features a built-in "Learn" function for quick pairing with your existing Skytech Receiver.
- **Battery Operated:** Requires AA Alkaline batteries (not included).

3. Compatibility

This remote transmitter is designed for use with the SKYTECH 1001 Series Remote Systems. It is compatible with the following receivers:

- SKYTECH 1001-A Receiver
- SKYTECH 1001TH-A Receiver

Please verify your existing receiver's model number to ensure compatibility before use. The transmitter itself may be labeled 1001-A, 1001-B, 1001TX, or 1001TX-A, all of which are functionally identical for this series.

Image: Comparison of remote backs, highlighting model numbers 1001-A and 1001-B, confirming they are the same remote. Compatible receivers (1001-A and 1001TH-A) are also listed.

4. Setup and Installation

4.1. Battery Installation

1. Locate the battery compartment on the back of the transmitter.
2. Slide open the battery cover.
3. Insert the required AA Alkaline batteries (not included), ensuring correct polarity (+/-).
4. Close the battery cover securely.

4.2. Pairing with Receiver

The transmitter must be paired with your existing SKYTECH receiver using its built-in "Learn" function.

1. Ensure your fireplace receiver is powered on and connected to the fireplace valve.
2. Locate the "Learn" button on your SKYTECH receiver. This button is typically small and may be recessed.
3. Press and hold the "Learn" button on the receiver until you hear a beep or see an indicator light flash (refer to your receiver's manual for specific indications).
4. Within 10-20 seconds of activating the receiver's "Learn" mode, press the "ON" button on your new remote transmitter.
5. You should hear a confirmation beep or see the indicator light on the receiver confirm successful pairing.
6. Test the remote by pressing the "ON" and "OFF" buttons to ensure proper communication with the fireplace.

5. Operating Instructions

5.1. Basic Operation

- To turn your fireplace **ON**, press the **ON** button on the remote transmitter.
- To turn your fireplace **OFF**, press the **OFF** button on the remote transmitter.

Due to Radio Frequency (RF) technology, the remote does not require direct line of sight to the receiver. You can operate your fireplace from various locations within the signal range.

6. Maintenance

6.1. Cleaning

To clean the remote transmitter, use a soft, dry cloth. Do not use abrasive cleaners, solvents, or wet cloths, as these can damage the device.

6.2. Battery Replacement

When the remote's range decreases or it becomes unresponsive, it is likely time to replace the batteries. Follow the battery installation steps in Section 4.1 to replace the AA Alkaline batteries. Always dispose of old batteries responsibly according to local regulations.

7. Troubleshooting

If you experience issues with your remote transmitter, consider the following:

- **Remote Not Responding:**
  - Check and replace the batteries in the remote transmitter.
  - Ensure the receiver is powered and properly connected to the fireplace.
  - Re-pair the transmitter with the receiver following the steps in Section 4.2.
- **Reduced Range:**
  - Replace the batteries in the remote transmitter.
  - Ensure there are no major obstructions (e.g., large metal objects) between the transmitter and receiver.
- **Fireplace Does Not Turn On/Off:**
  - Verify that the fireplace's pilot light is lit and the main gas valve is open.
  - Confirm the receiver is correctly wired to the fireplace's millivolt valve.
  - Consult your fireplace or receiver's instruction manual for specific troubleshooting related to the fireplace unit itself.
