

Premier Pet GBC00-18125

Premier Pet Digital Bark Collar User Manual

Model: GBC00-18125

INTRODUCTION

The Premier Pet Digital Bark Collar is designed to help manage and reduce excessive barking in dogs. This device provides a safe and effective solution by utilizing tone, vibration, and static stimulation to discourage unwanted barking. Its intelligent design automatically adjusts to your dog's barking behavior, ensuring precise and appropriate correction. The collar is suitable for dogs of various sizes due to its adjustable nylon strap and features a clear LED display for easy monitoring of your dog's progress.

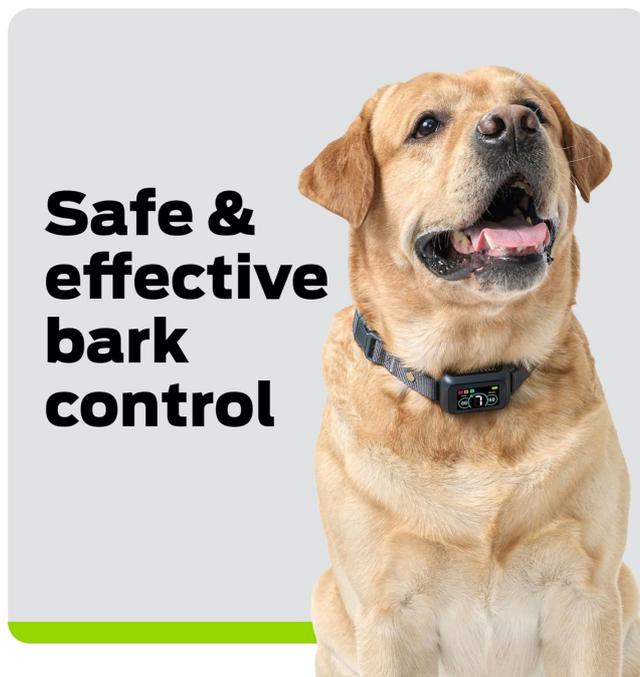

PRODUCT OVERVIEW

The Premier Pet Digital Bark Collar is a comprehensive tool for bark control, featuring:

- Effective discouragement of nuisance barking with tone, vibration, and static correction.
- An LED display with a bark counter to track your dog's progress.
- Up to 3 weeks of battery life on a single charge.
- A low battery indicator and a quick 2-hour charging time.
- A waterproof design for durability and suitability in various environments.

Charging the Collar

Before initial use, fully charge the bark collar. The device features a quick 2-hour charge time and a low battery indicator for convenience.

1. Locate the charging port on the collar unit.
2. Connect the provided USB charging cable to the collar and a suitable USB power source.
3. The LED display will indicate charging status. A full charge typically takes 2 hours.

Fitting the Collar

Proper fit is crucial for the collar's effectiveness and your dog's comfort.

1. Ensure the collar is turned off before fitting.
2. Place the collar around your dog's neck, positioning the unit centrally under their chin.
3. Adjust the nylon strap to ensure a snug fit. You should be able to fit one or two fingers comfortably between the collar and your dog's neck. The contact points must touch the skin.
4. Trim any excess strap if necessary, leaving enough room for future adjustments.

OPERATING THE COLLAR

The collar features multiple correction options and an intelligent system to manage barking.

Correction Modes

The collar offers three primary correction modes: Tone, Vibration, and Static Stimulation. It automatically adjusts to your dog's barking behavior, starting at the lowest level and increasing only if barking persists.

Monitoring Progress

The integrated LED display provides real-time feedback on your dog's barking activity.

- **Bark Counter:** The display shows a daily and weekly bark count, allowing you to monitor your dog's progress and identify patterns.

- **Sensitivity Levels:** The collar has 5 adjustable sensitivity levels. Refer to the product's quick start guide for instructions on how to adjust these levels to best suit your dog's needs.

MAINTENANCE

Proper maintenance ensures the longevity and effectiveness of your bark collar.

Cleaning

Regularly clean the collar and contact points to prevent skin irritation and ensure proper function.

- Turn off the collar before cleaning.
- Wipe the collar unit and strap with a damp cloth. Avoid using harsh chemicals or abrasive materials.
- Ensure the contact points are clean and free of debris.

Waterproof Design

The collar features a waterproof design, making it suitable for outdoor use and various weather conditions. However, it is not intended for prolonged submersion.

Waterproof collar reduces barking inside and out

Battery Care

To maximize battery life and performance:

- Charge the collar fully when the low battery indicator appears.
- Avoid overcharging the battery.
- Store the collar in a cool, dry place when not in use.

TROUBLESHOOTING

If you encounter issues with your Premier Pet Digital Bark Collar, consider the following common solutions:

Problem	Possible Cause	Solution
Collar not activating when dog barks.	Improper fit; low battery; sensitivity too low.	Ensure snug fit with contact points touching skin. Charge the collar. Increase sensitivity level.
Collar activating without barking.	Sensitivity too high; external noise interference.	Decrease sensitivity level. Test in a quieter environment.
Short battery life.	Aging battery; frequent activation.	Ensure full charge. Reduce unnecessary activations by adjusting sensitivity or training. Consider battery replacement if applicable (contact support).
Skin irritation on dog's neck.	Collar worn too long; improper fit; dirty contact points.	Remove collar for several hours daily. Ensure proper fit (not too tight). Clean contact points regularly. Consult a veterinarian if irritation persists.

SPECIFICATIONS

Feature	Detail
---------	--------

Feature	Detail
Model Name	Premier Pet Digital Bark Collar
Item Model Number	GBC00-18125
Item Weight	6.2 ounces
Product Dimensions	28"L x 1"W x 0.1"H
