5. OPERATING INSTRUCTIONS

5.1. Using as a Sofa

The CALIFE sofa is designed for comfortable seating for two people. The high-resilience polyurethane foam seat cushions (density 30 kg/m³) and polyurethane back cushions (density 21 kg/m³) provide optimal support. The seat cushions are removable for easy cleaning.

5.2. Converting to a Bed (Express Mechanism)

The express convertible mechanism allows for quick transformation from sofa to bed. Follow these steps:

1. **Remove Back Cushions:** Lift and remove the back cushions from the sofa.
2. **Locate Handle:** Find the handle located behind the back cushions.
3. **Pull to Deploy:** Firmly pull the handle upwards and outwards. The mechanism will unfold, revealing the bed frame and mattress.
4. **Adjust Legs:** Ensure the support legs of the bed frame are fully extended and locked into place for stability.

- 3. **Replace Cushions:** Place the back cushions back onto the sofa.

6. MAINTENANCE AND CARE

Proper care will extend the life and appearance of your sofa.

- **Fabric Care:** The sofa is upholstered in 100% polyester fabric. For general cleaning, vacuum regularly with an upholstery attachment.
- **Removable Seat Cushions:** The seat cushions are removable and can be unzipped for cleaning. Follow the care instructions on the fabric label for washing.
- **Spot Cleaning:** For spills, blot immediately with a clean, dry cloth. Do not rub. Use a mild fabric cleaner if necessary, testing on an inconspicuous area first.
- **Frame Care:** Wipe the visible parts of the frame with a soft, damp cloth. Avoid harsh chemicals.
- **Mechanism Lubrication:** Periodically check the convertible mechanism for smooth operation. If needed, apply a silicone-based lubricant to moving parts (avoid oil-based lubricants).

7. TROUBLESHOOTING

If you encounter issues with your CALIFE sofa, refer to the following common solutions:

- **Difficulty Converting:** Ensure no obstructions are present. Check that the mechanism is properly aligned and lubricated. Do not force the mechanism.
- **Squeaking Noises:** Inspect all bolts and screws for tightness. Tighten any loose fasteners. Lubricate moving parts of the mechanism if the noise persists.
- **Unstable Sofa/Bed:** Verify that the sofa is placed on a level surface. Check that all assembly connections are secure and support legs are fully extended when in bed mode.
- **Damaged Fabric:** For minor snags, carefully trim loose threads. For significant damage, contact customer support for repair options.
