Alaga 3K Indoor Security Camera User Manual

Model: B0DSD71DDK

1. INTRODUCTION

Thank you for choosing the Alaga 3K Indoor Security Camera. This advanced camera is designed to provide comprehensive indoor surveillance with intelligent features to keep your home and loved ones secure. It offers high-resolution video, two-way audio, and smart motion detection, ensuring you stay connected to your home from anywhere.

2. KEY FEATURES

- **3K/5MP Resolution:** Delivers clear and detailed video footage.
- **Dual-Band WiFi & Bluetooth Connectivity:** Supports both 2.4G and 5G WiFi for stable and seamless connection, plus Bluetooth for easy pairing.
- **360° Pan & Tilt:** Offers a wide field of view, allowing you to remotely adjust the camera's angle to monitor different areas of a room.
- **AI Human & Pet Motion Detection:** Intelligently identifies human and pet movement, reducing false alarms and providing relevant alerts.
- **Night Vision:** Provides clear monitoring in low-light conditions, with a range of up to 30 feet.
- **Two-Way Audio:** Enables real-time communication through the camera, allowing you to speak to and hear from anyone near the camera.
- **Instant Notifications:** Receive immediate alerts on your mobile device when motion is detected.
- **Patrol Mode:** Program the camera to automatically scan predefined areas.

- **Smart Motion Siren:** An audible alarm can be triggered upon detection to deter intruders.
- **Compatibility:** Works seamlessly with Alexa and Google Assistant for voice control and integration into smart home systems.
- **Pet Time Album:** Includes a free 1-year trial for a 7-day pet time album feature, allowing you to capture and review your pets' activities.

3. SETUP

1. **Unpack the Camera:** Carefully remove the camera and all accessories from the packaging.
2. **Power On:** Connect the power adapter to the camera and plug it into a power outlet. The camera will power on and indicate its status with an LED light.
3. **Download the App:** Download the official Alaga security camera app from your device's app store (iOS or Android).
4. **Create Account:** Open the app and follow the on-screen instructions to create a new user account or log in if you already have one.

5. **Add Device:** In the app, select "Add Device" or the '+' icon. Choose your Alaga 3K Indoor Security Camera from the list of available devices.
6. **Connect to Wi-Fi:** Follow the app's instructions to connect the camera to your Wi-Fi network. Ensure your Wi-Fi is either 2.4GHz or 5GHz, as the camera supports both. You may need to scan a QR code displayed on your phone with the camera.
7. **Placement:** Place the camera on a flat, stable surface or mount it on a wall using the provided mounting accessories. Ensure it has a clear view of the area you wish to monitor.

Place the Alaga indoor security camera on any flat surface or mount it on the wall

Keep an eye on your pet from any angle you prefer!

4. OPERATING THE CAMERA

4.1 Live View and Pan/Tilt Control

Once connected, open the app to access the live video feed from your camera. Use the on-screen controls to pan (move horizontally) and tilt (move vertically) the camera lens, allowing you to view different angles of the room. The camera offers a 360° pan and wide tilt range for comprehensive coverage.

4.2 Two-Way Audio

To use the two-way audio feature, tap the microphone icon in the live view interface. You can then speak into your phone, and your voice will be projected through the camera's speaker. This is ideal for communicating with family members, pets, or deterring unwanted visitors.

Two-Way Audio

Control Mischief in Real Time

4.3 Motion Detection & Notifications

The Alaga camera features advanced AI human and pet motion detection. You can enable or disable motion detection and customize sensitivity settings within the app. When motion is detected, you will receive instant notifications on your phone. You can also set up a Smart Motion Siren to activate an audible alarm.

The camera can automatically record video clips when motion is detected, which can be stored locally on an SD card (not included) or uploaded to the cloud (subscription may be required).

AI Pet Detection

Uninterrupted recording pet for playback anytime

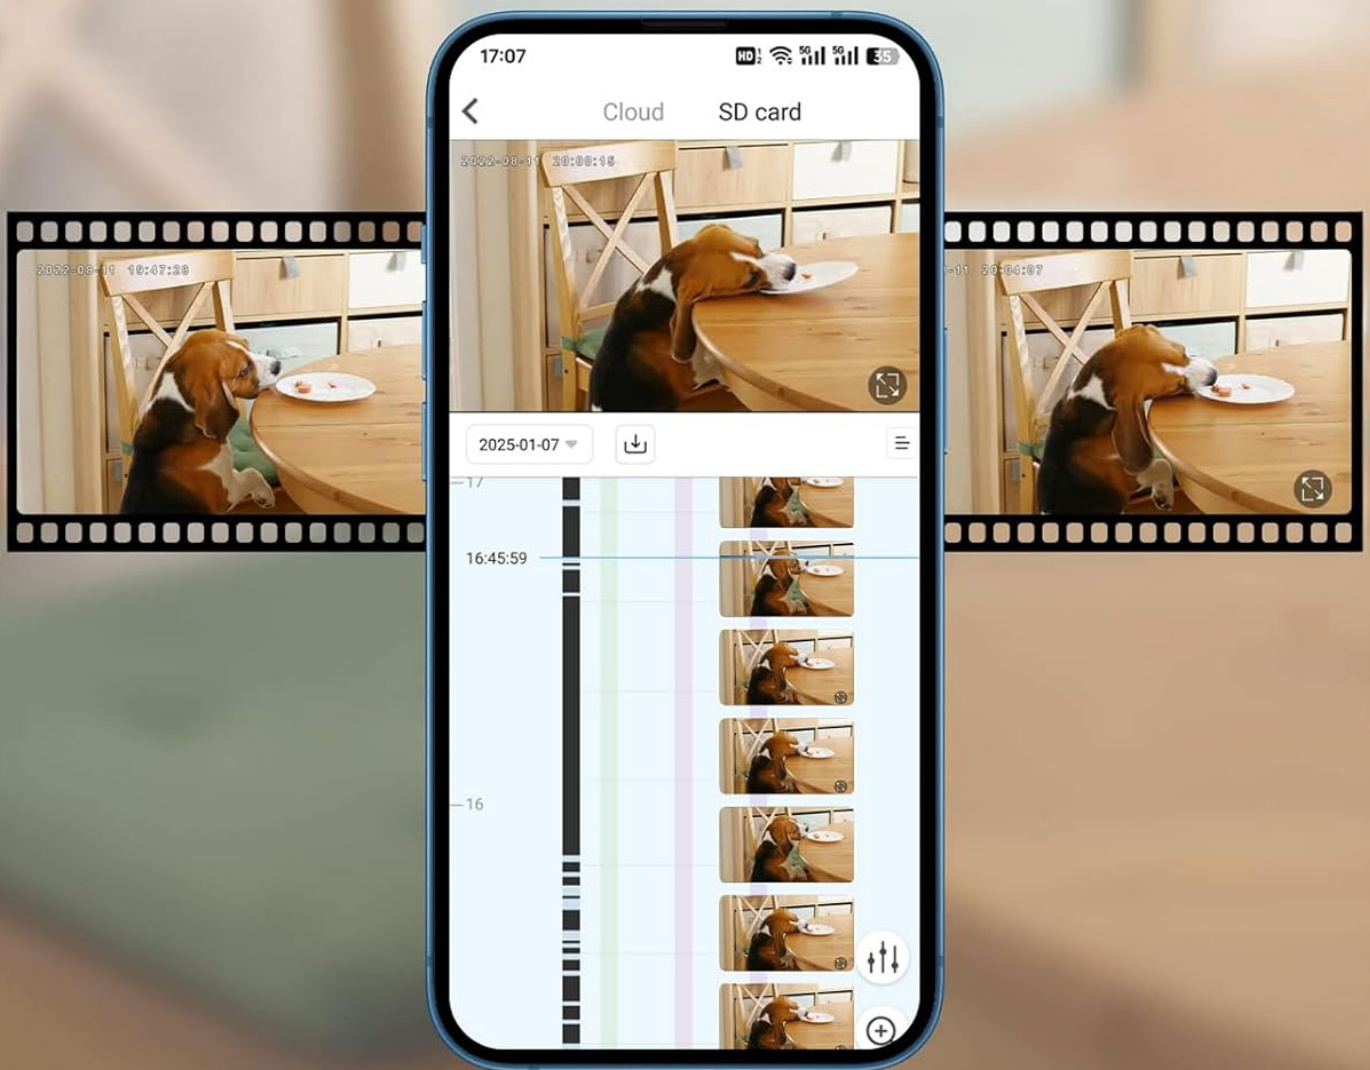

Figure 6: AI Pet Detection Playback

4.4 Night Vision

The camera automatically switches to night vision mode in low-light conditions, providing clear black-and-white or color (if supported by specific model) video up to 30 feet. This ensures continuous monitoring, day or night.

4.5 Recording and Storage

You can manually record video and take snapshots directly from the live view in the app. These recordings and images

can be saved to your phone's local album or to a cloud storage service (subscription required for cloud storage). The camera also supports continuous recording to a microSD card (up to 128GB, sold separately).

The image features a black, dome-shaped Alago camera with a lens and a small microphone. Above the camera is a horizontal strip of seven pet photos: a lemur, a cat, a dog, a rabbit, a ferret, a horse, and a bird. The background is a soft, out-of-focus indoor setting.

Capture Moment of Pet

Use Time Pet Album to capture your pets' journey from day to night and automatically generate a video of the pets.

- Free 1 year trial of Time Pet Album.
- It could recognise many pets such as dog, cat, small mammals - rabbit, ferret, horse, bird and reptile.

5. MAINTENANCE

- **Cleaning:** Gently wipe the camera lens and body with a soft, dry cloth. Avoid using harsh chemicals or abrasive cleaners.
- **Firmware Updates:** Regularly check the app for firmware updates to ensure your camera has the latest features and security enhancements.
- **Network Stability:** Ensure your Wi-Fi network is stable and strong for optimal camera performance.
- **SD Card Management:** If using a microSD card, periodically check its status and format it if necessary to maintain recording quality.

6. TROUBLESHOOTING

Problem	Possible Solution
