For visual guidance, easy-to-follow video instructions are often available. Please check the product page on the retailer's website or the OLIXIS official website for any available assembly videos.

6. OPERATING INSTRUCTIONS

Your OLIXIS Criss Cross Legged Chair offers several adjustable features for personalized comfort:

6.1. Adjusting Seat Height

- To raise the seat: While standing, pull the height adjustment handle upwards. The seat will rise automatically. Release the handle at the desired height.
- To lower the seat: While seated, pull the height adjustment handle upwards. The seat will lower. Release the handle at the desired height.

6.2. Using the 360° Swivel

The chair features a full 360° swivel function. Simply rotate the seat in any direction to adjust your viewing angle or reach items around your workspace.

6.3. Engaging the Reclining Function

- To activate the rocking/recline mode: Locate the knob beneath the seat (often near the height adjustment handle). Rotate this knob to enable the rocking motion.
- The chair allows for a recline angle of up to 22°. Lean back gently to find your preferred reclining position.
- To lock the recline position or disable rocking: Rotate the knob back to its original position.

Key adjustable features and stable base design.

7. MAINTENANCE

Proper care and maintenance will extend the life and appearance of your OLIXIS chair:

- **Cleaning the PU Leather:**
 - For general cleaning, wipe the surface with a soft, damp cloth.
 - For stubborn stains, use a mild soap solution on a soft cloth, then wipe clean with a damp cloth and dry thoroughly.
 - Avoid using harsh chemicals, abrasive cleaners, or solvents, as these can damage the PU leather.
- **Frame and Base:** Wipe the metal frame and base with a dry or slightly damp cloth to remove dust and dirt.
- **Regular Inspection:** Periodically check all screws and bolts to ensure they are tight. Retighten as needed to maintain stability and safety.
- **Avoid Direct Sunlight:** Prolonged exposure to direct sunlight can cause the material to fade or crack.
- **Avoid Sharp Objects:** Keep sharp objects away from the chair's upholstery to prevent punctures or tears.

8. TROUBLESHOOTING

If you encounter any issues with your OLIXIS Criss Cross Legged Chair, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Chair does not adjust height	Gas lift not properly installed or damaged. Handle mechanism stuck.	Ensure the gas lift is fully inserted into the base and seat mechanism. Check if the handle is obstructed. If still not working, the gas lift may need replacement.
Chair feels unstable or wobbly	Loose screws or connections. Uneven floor surface.	Check and tighten all assembly screws, especially those connecting the seat to the backrest and the base. Ensure the chair is on a flat, level surface.
Recline function is not working smoothly	Recline tension knob is too tight or too loose. Mechanism obstructed.	Adjust the recline tension knob (if present) to a comfortable setting. Check for any obstructions under the seat that might hinder the mechanism.
Squeaking noises	Loose connections or friction between parts.	Tighten all screws. Apply a small amount of silicone lubricant to moving parts if the noise persists (avoid contact with upholstery).
