

ZMUIPNG MH18

ZMUIPNG USB C Docking Station Dual Monitor 15-in-1 Instruction Manual

Model: MH18 | Brand: ZMUIPNG

1. INTRODUCTION

This manual provides detailed instructions for the ZMUIPNG USB C Docking Station (Model MH18). This 15-in-1 docking station is designed to expand the connectivity of your laptop, supporting dual and triple monitor setups, high-speed data transfer, power delivery, and network connectivity. Please read this manual thoroughly before use to ensure proper operation and to maximize the product's capabilities.

Image 1.1: Overview of the ZMUIPNG 15-in-1 USB C Docking Station with connected devices.

2. PRODUCT FEATURES

The ZMUIPNG USB C Docking Station offers a comprehensive set of features to enhance your productivity:

- **15-in-1 Connectivity:** Includes 2*4K HDMI, VGA, 5Gbps USB-C, 100W USB-C PD, 2*USB 3.0, 3*USB 2.0, 1Gbps Ethernet, SD/Micro SD card reader, and a 3.5mm audio jack.
- **Triple Display Support:** Supports dual and triple monitor setups for Windows systems (MST and SST modes). Mac systems support mirrored display only.
- **High-Resolution Video Output:** Up to 4K@60Hz via single HDMI 1, 4K@30Hz via HDMI 2, and 1080P@60Hz via VGA.
- **Monitor Control Button:** A dedicated button to easily turn displays on or off without unplugging cables.
- **Fast Data Transfer:** USB 3.0 and USB-C ports for rapid file transfers, with USB 2.0 ports for peripherals.
- **100W Power Delivery:** Provides up to 87W charging to your laptop (13W consumed by the docking station).
- **Gigabit Ethernet:** Ensures stable and fast wired network connectivity (10/100/1000BASE-T).
- **SD/TF Card Reader:** Supports simultaneous use of SD and TF cards.

- **Audio/Mic Port:** Integrated 3.5mm audio/mic combo jack.
- **Status Indicator Lights:** Blue light for power delivery/data/video support, white light for hub function.

3. PORT LAYOUT

Familiarize yourself with the various ports available on the docking station:

Image 3.1: Detailed diagram of the 15-in-1 docking station ports.

1. **Turn-off Button:** To turn off/wake up the monitor.
2. **USB C PD (100W):** Power Delivery input for charging the laptop.

3. **USB C 3.0 (5Gbps):** High-speed data transfer port.
4. **SD/TF (104Mb/s):** Card reader for SD and Micro SD cards.
5. **HDMI 1 (4K@60Hz for DP1.4, 4K@30Hz for DP1.2):** Primary HDMI output.
6. **HDMI 2 (4K@30Hz):** Secondary HDMI output.
7. **VGA (up to 1080P@60Hz):** VGA video output.
8. **RJ45 (1000Mbps):** Gigabit Ethernet port.
9. **USB A 2.0 (480Mbps):** Three standard USB 2.0 ports for peripherals.
10. **USB A 3.0 (5Gbps):** Two high-speed USB 3.0 ports.
11. **Audio/Mic (3.5mm):** Combined audio input/output jack.

4. SETUP GUIDE

Follow these steps to set up your docking station:

1. **Connect to Power (Optional but Recommended):** If you wish to charge your laptop via the docking station, connect a USB-C power adapter (not included) to the USB C PD port on the docking station.
2. **Connect to Laptop:** Plug the integrated USB-C cable from the docking station into a compatible USB-C port on your laptop. Ensure your laptop's USB-C port supports Power Delivery, Data Transfer, and DisplayPort functions for full functionality.
3. **Connect Monitors:**
 - For HDMI displays, connect HDMI cables from your monitors to the HDMI 1 and/or HDMI 2 ports on the docking station.
 - For VGA displays, connect a VGA cable from your monitor to the VGA port on the docking station.
4. **Connect Peripherals:** Plug in your USB devices (mouse, keyboard, external hard drives, webcam) into the available USB-A 2.0, USB-A 3.0, or USB-C 3.0 ports.
5. **Connect Network:** For a wired internet connection, connect an Ethernet cable to the RJ45 port.
6. **Connect Audio:** If desired, plug headphones or a headset into the 3.5mm audio/mic combo port.

The docking station is plug-and-play; no drivers are typically required for most operating systems.

5. OPERATING INSTRUCTIONS

5.1. Indicator Lights

The docking station features two indicator lights:

- **Blue Light:** Indicates that your connected USB-C port supports power delivery, data transfer, and video output.
- **White Light:** Indicates that the USB-C hub is functioning properly.

When both lights are illuminated, the docking station is fully compatible and operational with your laptop.

Independent Button Switch Display

One-click operation without unplugging

Wake up/Turn off

Working detection (white) light:
indicates that the hub is connected to the laptop port and is working properly

Compatibility detection (blue) light:
Indicate whether the USB C port of the laptop you are connected to supports video output function

Tips: When two lights are on at the same time, it is compatible with your laptop and supports video output

Image 5.1: Docking station in use, showing indicator lights and the monitor control button.

5.2. Monitor Control Button

The dedicated monitor control button allows you to quickly turn your connected displays on or off with a single click. This feature helps protect privacy and simplifies display management without needing to unplug cables.

5.3. Multi-Display Modes

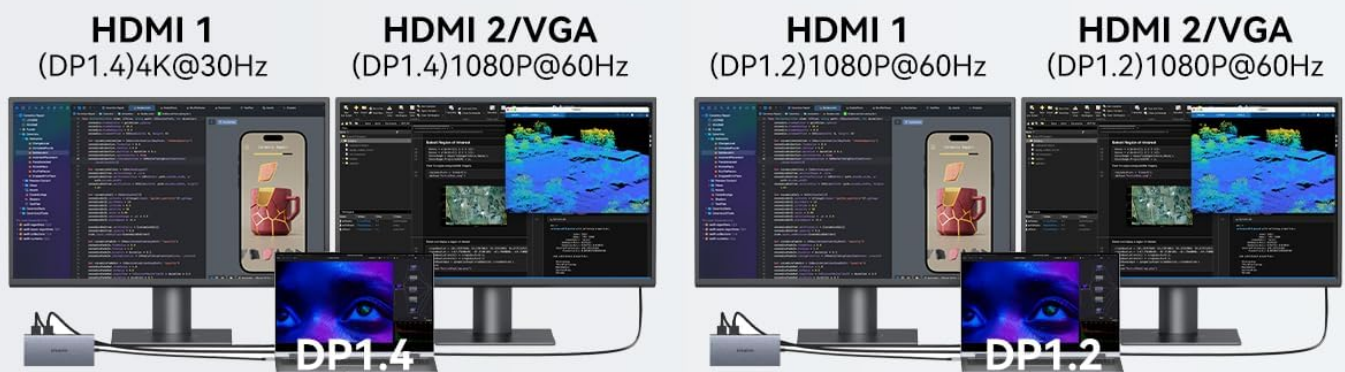

The docking station supports various display configurations:

- **For Windows Systems:** Supports both MST (Multi-Stream Transport) and SST (Single-Stream Transport) modes, allowing for extended or mirrored displays across multiple monitors.
- **For Mac Systems:** Supports only mirrored display (SST Extend Mode). Multi-Stream Transport (MST) is not supported by macOS.

Non-MST & Extend Mode for Mac OS

 Note: macOS does not support Multi-Stream Transport (MST) display.

SST Extend Mode

Not Support MST

Image 5.3: Mac OS Display Modes (SST Extend Mode supported, MST not supported).

5.4. Power Delivery (PD) Charging

The docking station supports up to 100W Power Delivery input. While the docking station itself consumes approximately 13W, it can deliver up to 87W of power to charge your connected laptop. A power adapter and cable are not included and must be purchased separately.

PD 100W Fast Charging

Please Note: Power adapter and cable not included.

Image 5.4: Laptop charging via the 100W Power Delivery port.

5.5. High-Speed Data Transfer

Utilize the USB 3.0 and USB-C 3.0 ports for rapid data transfer speeds up to 5Gbps. The USB 2.0 ports are suitable for connecting standard peripherals like mice and keyboards. The integrated SD/TF card reader supports simultaneous use for seamless data access.

6. COMPATIBILITY

The ZMUIPNG USB C Docking Station is designed for broad compatibility. However, full functionality depends on your laptop's USB-C port capabilities. It is compatible with laptops featuring Thunderbolt 3/4, USB-C 3.1 Gen 1/Gen 2, and USB-C 3.2 Gen 1/Gen 2 with Power Delivery and DisplayPort functions.

6.2. Incompatible Devices (Partial List)

Please note that the following devices or types of ports may not be fully compatible or supported:

Image 6.4: Partial list of incompatible devices (Part 1).

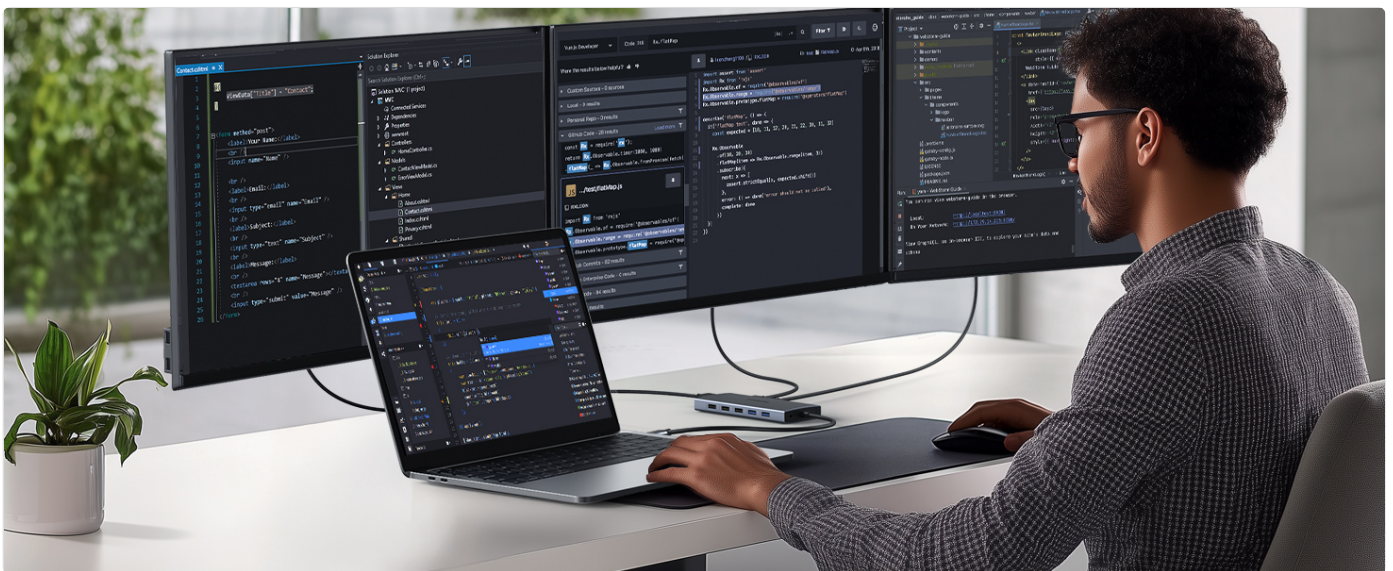

Image 6.5: Partial list of incompatible devices (Part 2).

If you are unsure about your laptop's compatibility, please refer to your laptop's manufacturer specifications or contact ZMUIPNG support with your exact laptop model.

7. TROUBLESHOOTING

If you encounter issues, please refer to the following common troubleshooting steps:

- **No Display Output:**
 - Ensure your laptop's USB-C port supports DisplayPort Alt Mode. Refer to Image 6.1.
 - Check all cable connections (USB-C to laptop, HDMI/VGA to monitors).
 - Verify that the monitor input source is correctly selected (e.g., HDMI 1, HDMI 2, VGA).
 - Restart your laptop and reconnect the docking station.
 - For Windows, check display settings (Display Settings > Multiple Displays). For Mac, check System Preferences > Displays.

• **No Power Delivery/Charging:**

- Ensure your USB-C power adapter is connected to the PD port on the docking station and is functional.
- Verify your laptop's USB-C port supports Power Delivery. Refer to Image 6.1.
- Check the blue indicator light on the docking station. If it's not on, the laptop's USB-C port may not support PD.

• **USB Devices Not Working:**

- Ensure the white indicator light on the docking station is on, indicating proper function.
- Try connecting the USB device directly to the laptop to confirm device functionality.
- Reconnect the docking station to the laptop.
- For wireless 2.4GHz devices, it is recommended to connect them to USB 2.0 ports for a more stable connection.

• **Ethernet Connection Issues:**

- Check the Ethernet cable connection to both the docking station and your router/modem.
- Verify network settings on your laptop.
- Try a different Ethernet cable.

8. SPECIFICATIONS

Feature	Detail
Model Number	MH18
Brand	ZMUIPNG
Connectivity	15-in-1 (2x HDMI, 1x VGA, 1x USB-C PD, 1x USB-C 3.0, 2x USB-A 3.0, 3x USB-A 2.0, 1x RJ45, 1x SD, 1x MicroSD, 1x 3.5mm Audio/Mic)
Video Output	HDMI 1: 4K@60Hz (DP1.4), 4K@30Hz (DP1.2) HDMI 2: 4K@30Hz VGA: Up to 1080P@60Hz Triple Display: 1080P (DP1.4)
Power Delivery	Up to 100W input, 87W output to laptop
Data Transfer Speed	USB 3.0 / USB-C 3.0: 5Gbps USB 2.0: 480Mbps SD/TF Card Reader: 104Mb/s
Ethernet	10/100/1000Mbps Gigabit Ethernet
Audio	3.5mm Audio/Mic Combo Jack
Dimensions	6.5 x 4.06 x 0.75 inches
Item Weight	5.9 ounces
