4. Setup Guide

4.1. Installation

Gently slide your Samsung Galaxy S25 (6.2-inch) into the battery case, ensuring the phone's USB-C port aligns correctly with the case's connector. Press firmly until the phone is securely seated.

4.2. Disassembly

To remove your phone, gently bend the soft top edge of the battery case backward. Then, push the phone out from the camera cutout area. Avoid excessive force to prevent damage.

Follow these steps for proper installation and removal of your phone from the battery case.

5. OPERATING INSTRUCTIONS

5.1. Charging Your Phone

To begin charging your phone, press the power button on the back of the battery case once. The LED display will illuminate, showing the battery level, and your phone will start charging.

To stop charging, double-click the power button. The LED display will turn off.

5.2. Charging the Battery Case

Connect the provided USB-C to USB-C cable to the case's input port and to a compatible USB-C power adapter. The LED display will show the charging progress.

The case also supports Qi wireless charging. Place the case (with or without the phone inside) on a Qi-compatible wireless charging pad. Press the power button once to initiate wireless charging of the case and phone simultaneously.

5.3. Charging Multiple Devices

The battery case can charge two devices simultaneously. You can charge your phone wirelessly while also using the USB-C output port to charge another device (e.g., earbuds) via a USB-C cable.

6. MAINTENANCE

- Keep the case away from excessive heat, liquids, or high-pressure environments.
- Do not disassemble or puncture the case.
- Turn off the power when not in use for extended periods to conserve battery life.
- Use only chargers that comply with safety standards to charge this product.
- The product's temperature may rise during charging; this is normal. Avoid charging in poorly ventilated areas or under blankets/pillows to prevent overheating.

7. TROUBLESHOOTING

- **Case not charging phone:** Ensure the phone is correctly seated in the case and the power button has been pressed once. Check the case's battery level.

- **Case not charging:** Ensure the USB-C cable is securely connected to both the case and the power source. If using wireless charging, ensure the case is properly aligned on the charging pad and the power button has been pressed once.
- **Slow charging:** Verify that you are using a compatible fast charger and cable. Ensure no other devices are drawing power from the case's output port if you intend to fast charge the phone.
- **Phone not recognized for data sync:** Ensure the phone is correctly installed and the USB-C cable is connected to a computer. Some phones may require specific settings to enable data transfer.
