3. Power On/Off:

Rotate the top knob clockwise to power on the radio. Rotate it counter-clockwise until it clicks to power off the device.

4. Initial Frequency Programming:

The radio supports direct frequency input via the alphanumeric keypad. For quick setup, you can utilize the one-key frequency copy function to replicate frequencies from another compatible radio.

OPERATING INSTRUCTIONS

1. Basic Communication (PTT):

Select the desired frequency or channel. Press and hold the PTT button on the side of the radio to transmit. Speak clearly into the microphone. Release the PTT button to receive.

2. Channel Selection:

Use the up/down arrow keys or rotate the top knob to navigate through the 999 available memory channels.

- **Customizable Display:**

Personalize the radio's display with predefined logos, custom text, or real-time voltage information to suit your preferences.

MAINTENANCE

- **Battery Care:** To prolong battery life, avoid overcharging and fully discharging the battery. Store the battery in a cool, dry place when not in use.
- **Cleaning:** Clean the radio's exterior with a soft, damp cloth. Do not use harsh chemicals, abrasive cleaners, or solvents, as these can damage the device.
- **Antenna:** Ensure the antenna is securely attached. Avoid bending or stressing the antenna, as this can affect performance and cause damage.
- **Storage:** When storing the radio for extended periods, remove the battery and store the device in a dry, dust-free environment.

TROUBLESHOOTING

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
No Power	Battery discharged or improperly installed.	Check battery charge level and ensure it is correctly installed. Charge the battery if necessary.
No Signal / Poor Reception	Antenna loose, incorrect frequency, or out of range.	Verify antenna connection. Check frequency settings and ensure you are within the operational range of the other radio or repeater.
Poor Audio Quality	Volume too low/high, microphone/speaker obstructed.	Adjust volume. Check microphone and speaker for any obstructions. Ensure proper speaking distance from the microphone.
Radio Not Responding	Temporary software glitch.	Try powering the radio off and then on again. If issues persist, a factory reset may be necessary (consult advanced user guide for specific procedure).
