

## ROBUD RB-VC3-WG394

# ROBUD Wooden All-in-One Swing Set Instruction Manual

Model: RB-VC3-WG394

## 1. INTRODUCTION

Thank you for choosing the ROBUD Wooden All-in-One Swing Set. This manual provides essential information for the safe assembly, operation, and maintenance of your new outdoor play equipment. Please read all instructions carefully before beginning assembly and retain this manual for future reference.

This swing set is designed to provide a comprehensive play experience, featuring two swings, a wavy slide, a rock climbing wall, a blackboard, a telescope, and a fort area. It is constructed from premium cedar wood for durability and stability.

## 2. SAFETY INFORMATION

Your child's safety is paramount. Adhere to all safety guidelines to prevent injuries.

- **Adult Supervision:** Constant adult supervision is required when children are using the swing set.
- **Age Range:** This swing set is suitable for children aged 3 to 10 years.
- **Weight Capacity:** The total load-bearing capacity is 400 lbs, accommodating up to 6 children simultaneously. Ensure this limit is not exceeded.
- **Installation:** Install the swing set on level ground, at least 6 feet away from any structures or obstructions such as fences, garages, houses, overhead branches, laundry lines, or electrical wires.
- **Anchoring:** The A-shaped structure is designed for stability. Utilize the provided fixed anchors to secure the swing set firmly to the ground, preventing movement during use.
- **Hardware:** All bolts and fasteners are designed for crack resistance. Regularly inspect all hardware for tightness and wear.

- **Swing Chains:** The swing chains feature a pinch-free design to prevent finger injuries and hair entanglement.
- **Protective Surfacing:** It is recommended to install a protective surfacing material (e.g., wood chips, sand, rubber mulch) under and around the swing set to absorb falls.

## 3. SETUP AND ASSEMBLY

Assembly of the ROBUD Wooden All-in-One Swing Set requires careful attention to detail. Clear instructions are provided to guide you through the process. It is recommended that two adults perform the assembly.

### 3.1 Pre-Assembly Checklist

- Verify all parts are present and undamaged by comparing them with the parts list in your separate assembly guide.
- Ensure you have the necessary tools (e.g., hammer, wrench, screwdriver).
- Select a level, clear area for installation, adhering to the safety clearance recommendations.

### 3.2 Assembly Steps Overview

Follow the step-by-step instructions provided in the dedicated assembly manual. Key steps include:

1. Assembling the main wooden frame components.
2. Attaching the slide, swings, and climbing wall.
3. Installing the fort, blackboard, and telescope.
4. Securing the entire structure with fixed anchors.

Typical assembly time ranges from 4 to 8 hours, depending on experience and assistance.

## 4. OPERATING INSTRUCTIONS

The ROBUD Wooden All-in-One Swing Set offers multiple play zones for children to enjoy.

### 4.1 Using the Swings

- Ensure children sit properly in the swing seat, holding onto the ropes.
- Push swings gently and avoid excessive height to prevent falls.
- Do not allow children to stand on the swings or twist the ropes.

### 4.2 Using the Slide

- Children should slide down feet first, one at a time.
- Ensure the landing area at the bottom of the slide is clear.

### 4.3 Rock Climbing Wall

- Encourage children to use both hands and feet on the climbing holds.
- Supervise closely to prevent falls.

### 4.4 Blackboard and Telescope

- The blackboard is for use with chalk (not included).
- The telescope is for imaginative play and does not offer magnification.

## 5. MAINTENANCE

Regular maintenance will extend the life and ensure the safety of your ROBUD Swing Set.

- **Hardware Inspection:** Periodically check all nuts, bolts, and other fasteners for tightness. Tighten as necessary.
- **Wood Inspection:** Inspect wooden components for splinters, cracks, or signs of rot. Sand down splinters and apply a non-toxic sealant if needed.
- **Swing Ropes/Chains:** Check ropes and chains for fraying, wear, or damage. Replace any worn components immediately.
- **Cleaning:** Clean plastic parts (slide, swing seats) with mild soap and water. Wipe down wooden surfaces with a damp cloth. Avoid harsh chemicals.
- **Winterization:** In harsh winter climates, consider covering the swing set or disassembling and storing certain components to protect them from extreme weather.

## 6. TROUBLESHOOTING

Here are solutions to common issues you might encounter:

- **Issue:** The swing set feels wobbly or unstable.  
**Solution:** Ensure all fixed anchors are properly installed and hammered into the ground. Check and tighten all bolts and connections, especially those on the A-frame structure. Verify the ground beneath the set is level.
- **Issue:** Swings are squeaky.  
**Solution:** Apply a small amount of silicone-based lubricant to the swing hangers and any moving metal parts.
- **Issue:** Wood appears to be splintering or showing minor cracks.  
**Solution:** This can be normal for natural wood. Carefully sand down any splinters. For minor cracks, monitor them; if they widen significantly or affect structural integrity, contact customer support. Applying a wood sealant can help protect the wood.
- **Issue:** A part is missing or damaged upon arrival.  
**Solution:** Refer to the contact information in the Warranty and Support section to reach ROBUD customer service for assistance with replacement parts.

## 7. SPECIFICATIONS

Key specifications for the ROBUD Wooden All-in-One Swing Set (Model RB-VC3-WG394):

Feature	Detail
Brand	ROBUD

Feature	Detail
Model Number	RB-VC3-WG394
