### Amico KDM52PLY3B03R1

# Amico 52-Inch Ceiling Fan with Light and Remote Control

Model: KDM52PLY3B03R1

## PRODUCT OVERVIEW

---

The Amico 52-inch ceiling fan with light and remote control is designed for both indoor and outdoor use (not directly exposed to rain). It features a reversible DC motor, 6 adjustable fan speeds, and an integrated LED light with 3 color temperature options (3000K, 4000K, 6000K) and dimmable brightness (10%-100%). The fan operates quietly, making it suitable for various living spaces.

## SAFETY INFORMATION

---

- Ensure power is disconnected at the circuit breaker before installation or maintenance.
- All electrical wiring must be performed by a qualified electrician in accordance with local codes and regulations.
- Mount the fan securely to a ceiling joist or a suitable support structure capable of holding the fan's weight.
- Maintain adequate clearance between the fan blades and any obstructions.
- This fan is suitable for damp locations but should not be directly exposed to rain.

## PACKAGE CONTENTS

---

Verify that all components are present before beginning installation:

- Ceiling Fan Motor Assembly

- Fan Blades (3) - Reversible (Black/Walnut)
- LED Light Board
- Lampshade
- Remote Control with 2 AAA batteries (included)
- Mounting Hardware
- Installation Manual

## INSTALLATION INSTRUCTIONS

---

Installation of this ceiling fan is designed to be straightforward. A detailed installation manual is included in the package, and an installation video is available to guide you through the process. It is recommended to review both resources before starting.

The fan is compatible with conventional wall switches for basic on/off control of both the fan and light. **Note:** Do not connect to a dimmer switch or a fan's gear switch, as this may cause malfunction.

## OPERATING INSTRUCTIONS

The Amico ceiling fan is primarily operated using the included remote control. The remote allows for independent control of the fan and light functions.

### Remote Control Functions

- **Fan Speed Adjustment:** Select from 6 fan speeds to achieve desired airflow.
- **Light Control:** Turn the light on/off, adjust brightness (10%-100%), and change color temperature (3000K, 4000K, 6000K).
- **Timer Setting:** Set the fan to automatically turn off after 1, 2, or 4 hours.
- **Reversible Motor:** Switch between downdraft mode for cooling in summer and updraft mode for circulating warm air in winter.

The remote control can also be mounted on a wall for convenience, functioning as a wall switch.

## Light Features

The integrated LED light offers customization for various needs:

- **Dimmable:** Adjust brightness from 10% to 100% (200LM to 2000LM).
- **Color Temperature:** Choose between 3000K (warm white), 4000K (neutral white), and 6000K (cool white).

**Remote Control**  
After fixed, it can be used as a wall switch.

Please feel free to contact us if you have lost your remote control or need to purchase an additional one!

## Fan Features

- **6 Speed Settings:** From a gentle breeze (Level 1-2) to strong cooling (Level 5-6).
- **Reversible DC Motor:** Changes airflow direction for seasonal comfort. Downdraft for summer cooling, updraft for winter heat circulation.
- **Dual-Sided Blades:** Fan blades feature two colors (black and walnut) for aesthetic versatility.

## • Reversible DC Motor Warm in winter, cool in summer

Image: An illustration demonstrating the reversible DC motor, showing how it provides cooling in summer and helps circulate warm air in winter.

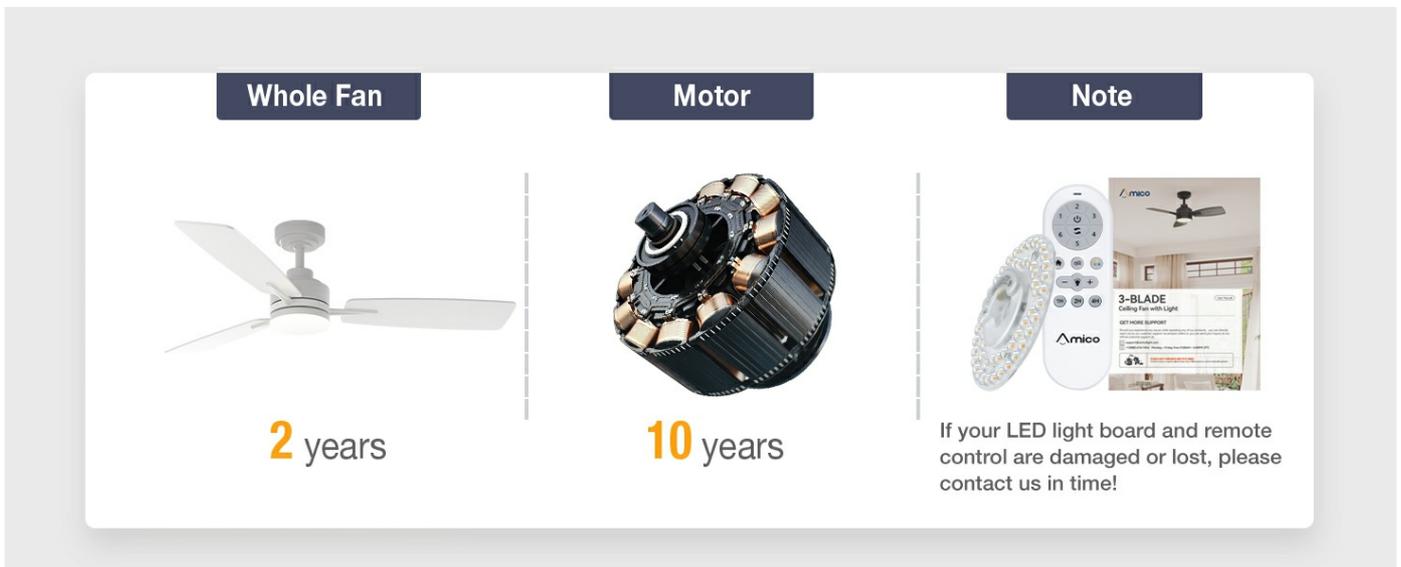

Image: Detailed dimensions of the fan, including blade length (21.8 inches), overall fan width (52 inches), and height (11.9 inches).

### Memory Function

The fan includes a memory function for light and fan settings:

1. Select your desired light brightness and color temperature.
2. Turn off the light and ensure it remains off for at least 10 seconds.
3. When the light is turned on again, it will resume the previously set color temperature and brightness.

The fan will also resume its last operating speed when turned back on.

**Note:** If the light is turned on again within 10 seconds of being turned off, the color temperature may switch.

## Memory Function

Ensure that the light is turned off for **10 seconds** or more! If you turn the light on again within **10 seconds** of turning it off, the color temperature of the light will switch.

Image: A step-by-step guide illustrating how the memory function works for the light settings.

## CARE AND MAINTENANCE

- Always turn off the power before cleaning your fan.
- Clean the motor housing and blades with a soft, damp cloth. Do not use abrasive cleaners or solvents.
- Periodically check all connections and mounting hardware for tightness.
- The LED light board is replaceable. Contact customer support for replacement parts.

## TROUBLESHOOTING

Problem	Possible Cause	Solution
Fan does not start	No power to the fan; loose wiring; remote control battery low.	Check circuit breaker; ensure all connections are secure; replace remote control batteries.
Light does not work	Loose wiring; LED light board issue; remote control battery low.	Check wiring; contact support for LED light board replacement; replace remote control batteries.

Problem	Possible Cause	Solution
Fan wobbles	Loose mounting screws; unbalanced blades.	Tighten all mounting screws; ensure blades are properly installed and balanced.
Remote control not responding	Low battery; interference; remote not paired.	Replace batteries; ensure no obstructions; refer to manual for pairing instructions.

If you encounter issues not listed here, or if the suggested solutions do not resolve the problem, please contact Amico customer support.

## SPECIFICATIONS

**Brand:** Amico

**Model Name:** KDM52PLY3B03R1

**Size:** 52 inch

**Color:** White

**Material:** Engineered Wood, Metal

**Indoor/Outdoor Usage:** Indoor, Outdoor (Damp Rated)

**Control Method:** Remote Control

**Fan Speeds:** 6

**Light:** Dimmable LED (10%-100%), 3 Color Temperatures (3000K, 4000K, 6000K)

**Air Flow Capacity:** 4532 Cubic Feet Per Minute

**Wattage:** 54 watts

**Voltage:** 120 Volts

**Item Weight:** 9.48 pounds

**Product Dimensions:** 51.97 x 51.97 x 15.75 inches

**Batteries:** 2 AAA batteries (included)

**Certification:** ETL
