## PAWPRO 02

# PAWPRO Cooling Towels Instruction Manual

Model: 02

## PRODUCT OVERVIEW

The PAWPRO Cooling Towels are designed to provide instant cooling relief for various activities. Made from advanced ice-silk fabric, these towels absorb sweat and release a cooling sensation upon contact, helping to reduce body temperature by up to 10°C. They are ultra-lightweight, breathable, and come with reusable waterproof bags and carabiners for easy portability.

## Key Features:

- **Ultra-Lightweight & Quick Chill:** Experience a refreshing 10°C temperature drop with just a quick shake! Made from advanced ice-silk fabric, these towels absorb sweat instantly and release a cooling sensation upon contact.
- **No More Heavy & Clammy:** Triple-layer fabric absorbs 2x its weight in water, while 3D honeycomb weaving accelerates evaporation. Enjoy a dry, lightweight feel within minutes.
- **Freshen Up All Day:** Contains advanced fiber to prevent hygiene problems. Maintain hygiene during strenuous exercise or outdoor work without worrying about odors.
- **Light as a Feather:** Weighing under 50g, it folds into pocket size for easy carrying. Use it as a sweat towel, sun shield, neck wrap, or even a mini cooling blanket.
- **Luxury and Practicality:** Made of high-density fibers and seamless edges that remain soft and resistant to fraying after countless washes. Gentle on the skin for both adults and children.

## SETUP AND ACTIVATION

Activating your PAWPRO Cooling Towel is a simple three-step process:

1. **Soak It:** Submerge the cooling towel completely in water. Cold water is recommended for best results.
2. **Wring It:** Gently wring out the excess water from the towel until it is damp but not dripping.
3. **Shake It:** Hold the towel by its ends and shake it vigorously 3-5 times. This action activates the cooling properties of the fabric.

## Soak It

Soak the coolingtowel into water

## Wring It

Wring out the water

# SIMPLY GET COOL

Before: 52.0°C

After: 16.0°C

## Shake It

Shake the towel 3~5times

## OPERATING AND USAGE SCENARIOS

Once activated, the PAWPRO Cooling Towel can be used in various ways to provide cooling relief:

- **Around the Neck:** Drape the towel around your neck for continuous cooling, ideal during workouts or outdoor activities.
- **On the Face/Forehead:** Place the towel on your face or forehead for immediate relief from heat.
- **Around Wrists/Arms:** Wrap the towel around your wrists or arms to cool down your pulse points.
- **As a Headband:** Fold and tie the towel around your head to keep sweat out of your eyes and cool your scalp.

- **Sun Shield:** Use it to cover exposed skin for protection from the sun while providing a cooling effect.

### Ideal for:

- Gym workouts and fitness
- Running and jogging
- Yoga and Pilates
- Travel and commuting
- Hiking and climbing
- Any outdoor activity in hot weather

## CARE AND MAINTENANCE

To ensure the longevity and effectiveness of your PAWPRO Cooling Towels, please follow these care instructions:

- **Washing:** Machine wash cold or warm with mild detergent.
- **Bleaching:** Do not bleach.
- **Drying:** Air dry or tumble dry low.
- **Ironing:** Do not iron.

The reusable waterproof bags can be wiped clean with a damp cloth.

## TROUBLESHOOTING

### Towel not cooling effectively?

- Ensure the towel is thoroughly soaked in water.
- Wring out excess water firmly, but do not completely dry it. The towel needs to be damp to activate cooling.
- Shake the towel vigorously for several seconds to initiate the evaporative cooling process.
- If the towel dries out, simply re-soak, wring, and shake to reactivate.

### Unpleasant odor?

- Wash the towel according to the care instructions. The advanced fiber is designed to prevent hygiene problems, but regular washing is recommended.
- Ensure the towel is completely dry before storing in the waterproof bag for extended periods to prevent mildew.
