# LifePro Pro Red Light Therapy Glove Instruction Manual

Model: LP-ALVGLVPRO-BLK

## Introduction and Overview

The LifePro Pro Red Light Therapy Glove is designed to aid in your body's natural recovery process, targeting muscles, joints, and tissues. It utilizes two effective wavelengths: 660 nm red light and 850 nm near-infrared light, providing a gentle, soothing warmth for a comfortable experience. This portable and user-friendly device is ideal for alleviating hand pain, stiffness, and inflammation, while also supporting circulation and skin rejuvenation.

A user treating their hands with the LifePro Pro Red Light Therapy Glove, highlighting its comfort and benefits for joints, stiffness, tired hands, and skin rejuvenation.

## Product Features

- **Dual Wavelength Therapy:** Features 660 nm red light and 850 nm near-infrared light for comprehensive tissue penetration.
- **Comfortable and Portable:** Designed for a snug, comfortable fit, making it easy to use on the go.
- **Digital Countdown Display:** Offers 15 or 20-minute session options for easy management.
- **Long-lasting Battery:** Powerful 2500mAh battery provides 1.5-2 hours of use on a single charge.
- **Cordless Operation:** Allows for freedom of movement during therapy sessions.

Key features of the LifePro Red Light Therapy Glove, including its built-in battery, digital display, triple-chip LED lights, and USB-C port for charging.

An illustrative diagram detailing how 660nm red light and 850nm near-infrared light penetrate different layers of the skin and muscle to provide therapeutic benefits.

## Setup and Charging

1. **Initial Charge:** Fully charge the glove before its first use. Connect the provided USB-C cable to the glove's charging port and a suitable power adapter.
2. **Battery Indicator:** The digital screen will display the battery percentage, ensuring you know when it's ready for use or needs recharging. A full charge provides approximately 1.5 to 2 hours of operation.

The glove's digital display and USB-C charging port, indicating its readiness for use.

## Operating Instructions

1. **Select Session Duration:** Use the controls on the digital screen to choose between a 15 or 20-minute therapy session.
2. **Wear the Glove:** Insert your hand into the glove, ensuring a snug and comfortable fit.
3. **Begin Therapy:** Activate the device to start the red light therapy session.
4. **Relax:** Allow the glove to work its therapeutic effects. The device will automatically shut off once the selected session duration is complete.
5. **Remove and Store:** After the session, remove the glove and store it properly for future use.

A visual guide to the simple steps for using the LifePro Red Light Therapy Glove: Charge it, insert your hand, turn on, and enjoy relief and relaxation.

The LifePro Red Light Therapy Glove is easy to use and portable, making it convenient for alleviating hand pain and discomfort on the go.

## Maintenance and Care

To ensure the longevity and optimal performance of your LifePro Pro Red Light Therapy Glove, follow these simple maintenance guidelines:

- **Cleaning:** Gently wipe the exterior of the glove with a soft, damp cloth. Do not submerge the device in water or use harsh chemicals.
- **Storage:** Store the glove in a cool, dry place away from direct sunlight and extreme temperatures. Ensure it is fully charged before long-term storage to preserve battery health.
- **Handling:** Handle the device with care to avoid damage to the LED lights or internal components.

## Troubleshooting

No specific troubleshooting steps are provided in the product information. If you encounter any issues with your LifePro Pro Red Light Therapy Glove, please refer to the Warranty & Support section for assistance.

## Warranty and Support

LifePro offers **Lifetime Customer Support** for your product. If your LifePro Pro Red Light Therapy Glove does not function as intended, we will replace the product free of charge. For any inquiries or assistance, please contact LifePro customer support.

## Safety Information

While the product information provided under 'Safety Information' primarily details return and replacement policies, it is crucial to always prioritize safety when using any electronic device. Please adhere to the following general safety

guidelines:

- Do not use the device if it appears damaged or malfunctioning.
- Keep out of reach of children.
- Consult a healthcare professional before use if you have any pre-existing medical conditions or concerns.
- Do not look directly into the LED lights during operation.
- **Return Policy Note:** If your product doesn't function as intended, it will be replaced free of charge. If a unit has been used or opened and returned for reasons other than malfunction, a 15% restocking fee will apply, and shipping costs for such returns are not covered.

## Ask a question about this manual

Ask about setup, troubleshooting, compatibility, parts, safety, or missing instructions. Manuals+ will review the question and use this page's manual context to help answer it.
