Shark HP072

Shark NeverChange Compact Pro Air Purifier

MODEL: HP072

Introduction

The Shark NeverChange Compact Pro Air Purifier is designed to deliver clean air with powerful, long-lasting HEPA filtration. This manual provides essential information for setting up, operating, and maintaining your air purifier to ensure optimal performance and air quality in your home.

Watch your air improve in real time

Clean Sense IQ™ auto-adjusts to improve air quality and displays results.

*Percentage displayed corresponds to concentration of particles measured (between PM 1.0 -10). Higher percentage means lower concentration of particles in air.

Setup

1. **Unpack the Unit:** Carefully remove the air purifier and all components from the packaging.
2. **Remove Filter Packaging:** Before first use, locate the HEPA filter at the bottom of the unit. Twist the bottom cover to unlock, remove the filter, and discard any plastic packaging. Reinsert the filter and secure the cover by twisting it back into place.
3. **Install Odor Neutralizer Cartridge:** Locate the Odor Neutralizer Technology cartridge. Insert it into the designated slot on top of the unit. Rotate the dial to adjust the scent intensity (from minimum to maximum). This cartridge helps guard against odors and releases a fresh scent.
4. **Position the Air Purifier:** Place the unit on a flat, stable surface in the desired room. Ensure there is adequate space around the air intake (sides) and air outlet (top) for optimal airflow.
5. **Connect Power:** Plug the 6-foot power cord into a standard electrical outlet.

Operating Instructions

The Shark NeverChange Air Purifier features an intuitive control panel and CleanSense IQ technology to automatically manage air quality.

Control Panel Overview

Get to know the Shark NeverChange™ Air Purifier Compact Pro:

Image: Diagram highlighting the control panel features, including the Odor Neutralizer Technology, Front Display LED Screen, DebrisDefense Filters, and Shark NeverChange Filter.

- **Power Button:** Press to turn the unit ON or OFF.
- **Fan Speed:** Cycle through 5 manual fan speeds or select AUTO mode. In AUTO mode, the purifier adjusts fan speed based on real-time air quality.
- **Brightness Control:** Adjust the brightness of the display lights, including a dim mode for minimal sleep interruption.
- **Air Quality Display:** The LED screen displays real-time air quality percentage. A blue ring indicates good air quality (85-100%), orange indicates fair (70-84%), and red indicates poor (0-69%).
- **Air Quality Views:** Press the 'i' button to switch between different air quality views: Clean Air percentage, PM1.0 (allergens), PM2.5 (smoke), and PM10 (dust).

CleanSense IQ Technology

With CleanSense IQ, the air purifier continuously monitors your air quality. When pollutants are detected, the unit automatically increases fan speed to clean the air. Once the air quality improves to 100% for 5 minutes, the unit enters Eco mode to conserve filter life and energy.

Maintenance

Regular maintenance ensures the longevity and efficiency of your Shark NeverChange Air Purifier.

Debris Defense Washable Filter

- The Debris Defense filter is designed to capture large particles like hair, dust, and pet dander before they reach the HEPA filter.
- **Cleaning:** Easily remove the Debris Defense screens from the sides of the unit. You can vacuum, wipe, or rinse them clean. Allow them to dry completely before reinserting.

Capture hair, dust, and dander

Cleanable DebrisDefense™ traps large particles before they reach your filter.

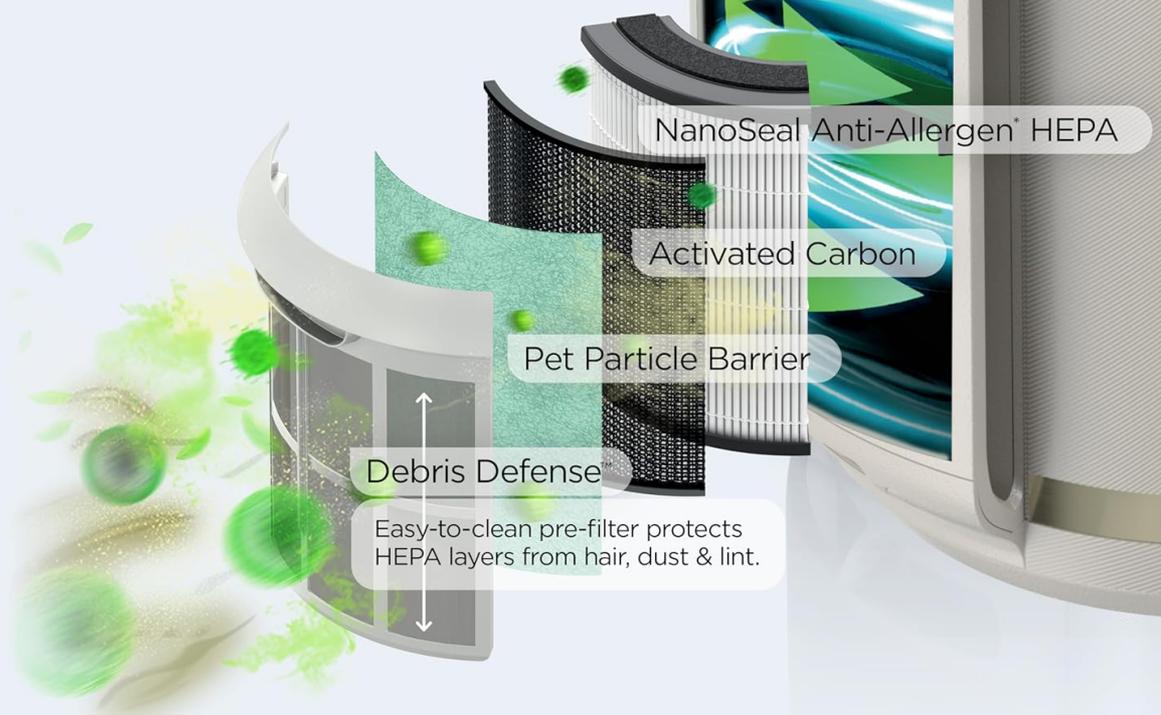

Image: A person demonstrating how to slide out and clean the Debris Defense filter of the Shark NeverChange Air Purifier.

NeverChange HEPA Filter

- The NeverChange HEPA filter is designed for long-lasting filtration, potentially up to 5 years, reducing the need for frequent replacements.
- **Replacement:** The unit's display will indicate the remaining filter life. When replacement is needed, twist the bottom cover, remove the old filter, and insert a new Shark NeverChange HEPA filter.

PureShield™ Anti-Allergen* HEPA

Captures 99.98%** of large, small,
and micro-sized particles.

*Allergens refers to non-living matter. **Based on EST RP CC007.3 0.1-0.2 microns.

Troubleshooting

- **Unit Not Turning On:** Ensure the power cord is securely plugged into both the unit and a working electrical outlet. Check if the filter cover is properly secured.
- **Poor Air Quality Reading:** Verify that the Debris Defense filters are clean and the HEPA filter is not expired. Ensure the unit is placed in an open area, not obstructed by walls or furniture.
- **Unusual Noise:** Check for any obstructions in the fan or filter area. Ensure all filters are correctly installed.
- **No Scent from Odor Neutralizer:** Check if the Odor Neutralizer cartridge is correctly installed and the dial is set to a desired intensity. The cartridge may need replacement if it has been in use for an extended period.

Specifications

- **Model Number:** HP072
- **Brand:** Shark

- **Color:** Dove
- **Product Dimensions:** 9.21"D x 9.21"W x 11.61"H
- **Item Weight:** 4.41 pounds
- **Floor Area Coverage:** Up to 250 Square Feet (Based on AHAM AC-1, at one air change per hour)
- **Filter Class:** HEPA (HEPA-Exceeding Anti-Allergen NanoSeal)
- **Particle Retention Size:** 0.2 microns
- **Special Features:** CleanSense IQ, NeverChange Filtration, Debris Defense Protection, Odor Neutralizer Technology
- **Power Source:** AC/DC
- **Wattage:** 19.2 watts

Up to 250 square feet* of coverage

Compact design, ideal for bedrooms,
home offices, and more.

*Based on AHAM AC-1, at one air change per hour.
