TUINYO S07

TUINYO AI Headphones User Manual

Model: S07

1. Introduction

The TUINYO AI Headphones (Model S07) are next-generation wireless open-ear headphones designed for comfort, premium sound, and advanced AI translation capabilities. They provide a secure fit without entering the ear canal, minimizing discomfort and allowing awareness of your surroundings. Featuring Bluetooth 5.4 for stable connections, AI-enhanced noise cancellation for clear calls, and a long battery life, these headphones are ideal for travel, language learning, and daily use.
The integrated AI translation function supports 142 languages, offering both face-to-face translation and AI chat modes through a dedicated mobile application.

2. What's in the Box

- TUINYO AI Headphones (Left and Right)
- Wireless Charging Case
- USB Charging Cable (not explicitly listed but standard)
- User Manual (this document)

3. Setup Guide

3.1 Charging the Headphones

Before first use, fully charge the headphones and the charging case. Place the headphones into the charging case. Connect the charging case to a power source using a compatible USB cable. The indicator lights on the case will show the charging status. A full charge provides up to 7 hours of use for the headphones, and the charging case extends total playtime to 35 hours. A quick 5-minute charge can provide approximately one hour of listening time.

3.2 Bluetooth Pairing

1. Ensure the headphones are charged.

2. Open the charging case. The headphones will automatically enter pairing mode.
3. On your device (smartphone, tablet, computer), go to Bluetooth settings.
4. Select "TUINYO S07" from the list of available devices.
5. Once connected, a voice prompt will confirm successful pairing. The headphones will automatically reconnect to previously paired devices when taken out of the case.

3.3 App Download & Activation for AI Translation

To utilize the AI translation features, you need to download and activate the dedicated mobile application. Contact TUINYO customer service or refer to the QR code in the included quick start guide to obtain the official app download link. Install the app on your smartphone (compatible with both Android and iOS). Follow the in-app instructions to connect your headphones and activate the AI translation service.

4. Operating Instructions

4.1 Basic Touch Controls

The TUINYO AI Headphones feature convenient smart touch controls on each earbud. Specific functions may vary slightly based on the app or device, but common controls include:

- **Single Tap:** Play/Pause music, Answer/End calls.

- **Double Tap (Left/Right):** Previous/Next track.
- **Long Press:** Activate voice assistant (Siri, Google Assistant), Reject calls.
- **Volume Control:** Typically managed via the connected device or specific touch gestures defined in the app.

4.2 AI Translation Features

Leverage the power of AI for seamless communication through the dedicated mobile application.

Face-to-Face Translation

This mode is ideal for direct conversations. One person speaks into the headphone's microphone, and the translation is played through the other person's headphone or the phone's speaker. The app displays the translated text in real-time.

Image: Demonstrating face-to-face translation using the TUINYO AI Headphones.

AI Chat

For text-based communication or more complex translation scenarios, the AI Chat feature allows you to type or speak phrases, which are then translated and displayed in a chat-like interface within the app. This is useful for understanding documents, messages, or engaging in multi-turn conversations.

4.3 Sound Modes

The headphones support various sound modes to optimize your listening and communication experience:

- **Touch Mode:** Standard operation via touch controls.
- **Speaker Mode:** Audio output through the headphone speakers.
- **Free Talk Mode:** Optimized for clear, hands-free communication.

Image: Visual representation of the three primary sound modes: Touch Mode, Speaker Mode, and Free Talk Mode.

5. Care and Maintenance

- **Cleaning:** Use a soft, dry, lint-free cloth to clean the headphones and charging case. Do not use abrasive cleaners or solvents.
- **Storage:** Store the headphones in their charging case when not in use to protect them from dust and damage.
- **Avoid Water:** While designed for daily use, avoid submerging the headphones in water or exposing them to excessive moisture.
- **Temperature:** Do not expose the headphones to extreme temperatures (hot or cold).

6. Troubleshooting

Problem	Possible Solution

Problem	Possible Solution
Headphones do not turn on.	Ensure the headphones and charging case are fully charged.
Cannot pair with device.	Make sure Bluetooth is enabled on your device. Ensure headphones are in pairing mode. Forget the device in your Bluetooth settings and try pairing again.
No sound or low volume.	Check volume levels on both the headphones and your connected device. Ensure headphones are properly connected.
Translation feature not working.	Ensure the mobile app is installed and updated. Verify internet connection for translation services. Check app permissions.
Headphones disconnect frequently.	Ensure you are within the Bluetooth range of your device. Avoid strong electromagnetic interference.

7. Product Specifications

Feature	Specification
