

CKIKH LT-151ET

CKIKH Handheld Cordless Vacuum Cleaner

Model: LT-151ET

INTRODUCTION

Thank you for choosing the CKIKH Handheld Cordless Vacuum Cleaner. This manual provides essential information for the safe and efficient operation, maintenance, and troubleshooting of your new vacuum cleaner. Please read it thoroughly before use and retain it for future reference.

SAFETY INSTRUCTIONS

- **Read all instructions:** Familiarize yourself with the vacuum's features and operation before first use.
- **Charging:** Use only the provided Type-C charging cable. Do not charge near heat sources or in direct sunlight.
- **Dry Use Only:** This vacuum is designed for dry pick-up only. Do not vacuum liquids or wet materials.
- **Filter Maintenance:** Ensure filters are fully dry before re-inserting them into the vacuum.
- **Avoid Blockages:** Do not block air vents or the suction nozzle during operation.
- **Keep Away from Children:** Store the vacuum and its accessories out of reach of children.
- **Proper Disposal:** Dispose of the battery and product according to local regulations.

PACKAGE CONTENTS

Upon opening your package, please ensure all items listed below are present and in good condition:

- 1 x CKIKH Handheld Vacuum Cleaner
- 1 x Long Suction Nozzle
- 1 x Brush Suction Nozzle
- 1 x Extended Hose
- 2 x HEPA Filters (1 pre-installed, 1 spare)
- 1 x Metal Filter (pre-installed)
- 1 x Type-C Charging Cable
- 1 x User Manual

PRODUCT OVERVIEW

The CKIKH Handheld Cordless Vacuum Cleaner is designed for efficient and convenient cleaning

with its powerful suction and versatile features.

- **Powerful Suction:** 15000PA cyclonic suction with a 72000RPM high-speed motor for thorough cleaning.
- **Cordless & Lightweight:** Weighing only 1.7 lbs, it offers easy portability and maneuverability.
- **Long Battery Life:** High-capacity 7800mAh battery provides up to 30 minutes of continuous runtime.
- **Dual Filtration System:** Equipped with 2 replaceable HEPA filters and 1 washable metal filter to maintain suction power.
- **Easy Maintenance:** Features an easy-to-empty 400mL dustbin and washable filters.
- **Versatile Attachments:** Includes long suction nozzle, brush suction nozzle, and extended hose for various cleaning needs.

HUMANIZATION DESIGN

Ergonomic Design Handle

Comfortable to grip, reduces wrist strain

Smart Lock

One click to open the dust collection bin and easy to operate

Upgraded Dust Cup

It features a visible 400ML capacity and is designed to be more durable and long-lasting

Air Outlet

Optimized air outlet design for efficient exhaust and enhanced suction

Image: A visual breakdown of the vacuum's humanized design features, including the ergonomic handle, smart lock for easy dustbin release, upgraded 400ml dust cup, and optimized air outlet.

SETUP

1. **Initial Charge:** Before first use, fully charge the vacuum cleaner. Connect the Type-C charging

cable to the charging port at the back of the vacuum and plug the other end into a suitable USB power source (car charger, adapter charger, computer charger, or power bank). A full charge takes approximately 3.5 hours.

2. **Filter Installation:** Ensure the HEPA filter and metal filter are correctly installed inside the dustbin. The vacuum comes with one set pre-installed and a spare HEPA filter.
3. **Attach Dustbin:** Securely attach the dustbin assembly to the main body of the vacuum until it clicks into place.

OPERATING INSTRUCTIONS

1. **Power On/Off:** Press the power switch located on the handle to turn the vacuum on. Press it again to turn it off.
2. **Attaching Accessories:** Select the appropriate nozzle for your cleaning task.
 - **Long Suction Nozzle:** Ideal for reaching deep into hard-to-reach corners, tight crevices, sofa gaps, and car interiors.

- **Brush Suction Nozzle:** Combines vacuuming with wiping, suitable for gently cleaning delicate surfaces like keyboards, curtains, and pet hair from upholstery.
 - **Extended Hose:** Use with other nozzles for increased reach, allowing access to areas under furniture, between bookshelves, or deep within car seats.
- **Cleaning:** Guide the vacuum over the area to be cleaned. The powerful 15000PA suction effectively picks up dust, debris, sand, pet hair, and food residue.
 - **Continuous Cleaning (Smart Lock):** The smart lock feature allows for continuous operation without holding down the power button, enhancing comfort during extended cleaning sessions.

MULTIFUNCTIONAL ACCESSORIES

Meet your various cleaning needs

Long Suction Nozzle

It is designed to clean deep into hard-to-reach corners and tight crevices

Brush Suction Nozzle

Combines vacuuming with wiping, effortlessly tackling hair and debris

Extended Hose

Easy to bend and stretch, used for places that are not directly accessible

Image: Demonstrations of the vacuum's versatility with its long suction nozzle for tight spaces, brush suction nozzle for pet hair and delicate surfaces, and extended hose for hard-to-reach areas in a car.

CYCLONIC STRONG SUCTION

Vortex cyclone suction tech & 72000RPM high-speed motor

MAINTENANCE

Regular maintenance ensures optimal performance and extends the lifespan of your vacuum cleaner.

1. Emptying the Dustbin:

- Press the dustbin release button (smart lock) to detach the dustbin from the main unit.
- Open the dustbin flap and empty collected debris into a trash can.

2. Cleaning Filters:

- Remove the HEPA filter and metal filter from the dustbin.
- Rinse both filters under running water until clean.
- Allow filters to air dry completely (at least 24 hours) before re-installing them. Do not use a dryer or direct heat.
- Replace the HEPA filter every 3-6 months, or as needed, to maintain optimal suction.

3. Wipe Down: Use a soft, damp cloth to wipe the exterior of the vacuum cleaner. Do not use

harsh chemicals or abrasive cleaners.

MAKE CLEANING MORE EFFICIENT

One-Key Emptying

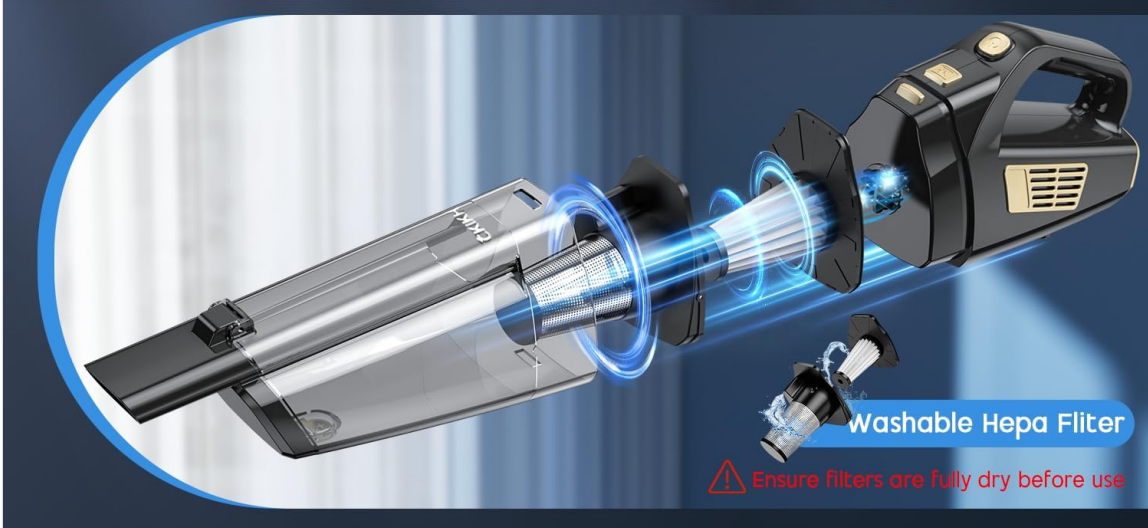

Image: A visual guide demonstrating the steps to disassemble the vacuum, remove filters, empty the dustbin, clean the filters and dust cup, and air dry the components.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Vacuum does not turn on.	Battery is low or depleted.	Charge the vacuum cleaner fully.
Weak suction.	Dustbin is full. Filters are clogged. Nozzle is blocked.	Empty the dustbin. Clean and dry the filters. Check and clear any blockages in the nozzle or hose.
Short runtime.	Battery not fully charged. Old battery.	Ensure full charge (3.5 hours). Contact customer support if battery life significantly degrades.
Dust escaping from vacuum.	Dustbin not properly closed. Filters not installed correctly.	Ensure dustbin is securely latched. Re-install filters correctly.
