## 4. SETUP

### 4.1 Charging the Device

Before first use, fully charge the handheld vacuum sealer. Connect the provided USB Type-C cable to the charging port on the top of the device and plug the other end into a compatible USB power adapter (not included). The indicator light will show charging status.

Video: Demonstration of charging the ZKIRON OneTouch Handheld Vacuum Sealer. The device features a long-lasting battery capable of up to 100 seals per charge.

### 4.2 Preparing Reusable Bags

The included reusable bags are BPA-free and feature a dual-lock zipper for a secure seal and an air-tight valve for vacuuming. Ensure the zipper is clean and free of food debris before sealing. Use the provided sealing clips to ensure a complete closure of the bag's zipper.

## 5. OPERATING INSTRUCTIONS

Follow these simple steps to vacuum seal your food:

1. **Place Food:** Put your desired food item into a reusable vacuum bag. Do not overfill the bag.
2. **Seal Bag:** Close the dual-lock zipper completely. Use the provided sealing clip to ensure a tight, even seal across the entire zipper.
3. **Position Sealer:** Place the detachable transparent suction head of the vacuum sealer directly over the air valve on the bag. Ensure a firm, flat contact to prevent air leakage.
4. **Activate Vacuum:** Press the power button on the handheld sealer. The device will automatically begin to remove air from the bag.
5. **Automatic Shutoff:** The sealer will automatically shut off once a sufficient vacuum (65kPa) is achieved, typically within 5-10 seconds.

6. **Remove Sealer:** Once the device stops, gently lift it from the bag's air valve. The bag is now vacuum-sealed and ready for storage.

## 6. MAINTENANCE

### 6.1 Cleaning the Sealer

The detachable transparent suction head can be removed for easy cleaning. Rinse it with water and dry thoroughly before reattaching. Do not submerge the main body of the vacuum sealer in water. Wipe the main body with a damp cloth if needed.

## 6.2 Cleaning Reusable Bags

The reusable bags are dishwasher-safe. They can also be hand-washed with warm, soapy water. Ensure bags are completely dry before reuse to prevent moisture from affecting the vacuum seal.

## Freezer Safe & Microwave Ready

Image: Reusable bags are suitable for microwave and freezer use.

## 7. STORAGE

The ZKIRON OneTouch Handheld Vacuum Sealer's ultra-compact, pepper-grinder sized design allows for easy storage in kitchen drawers or cabinets, minimizing countertop clutter. Store the device and bags in a clean, dry place.

## 8. TROUBLESHOOTING

- **Device not turning on:** Ensure the device is fully charged. Connect to the USB Type-C charging cable and allow it to charge.
- **Bag not sealing properly:** Check that the dual-lock zipper is completely closed and free of any food particles. Ensure the suction head is firmly pressed against the air valve on the bag.
- **Air re-entering the bag:** Inspect the bag for any punctures or damage. Ensure the air valve is clean and not obstructed.
- **Liquid being drawn into the sealer:** The detachable transparent suction head allows you to

monitor liquid levels. If sealing moist foods, ensure excess liquid is removed or frozen prior to vacuum sealing to prevent damage to the device.

## 9. SPECIFICATIONS

Attribute	Detail
Brand	ZKIRON
