# aowoka Smart Bluetooth Tracker Instruction Manual

Model: F2-2-BK

## 1. PRODUCT OVERVIEW

The aowoka Smart Bluetooth Tracker is a compact and lightweight item finder designed to help you locate your valuables using the Apple Find My network. It is compatible exclusively with iOS devices and offers features such as real-time location tracking, left-behind reminders, and a loud sound for nearby searching.

## 2. SETUP AND PAIRING

Before using your aowoka Smart Bluetooth Tracker, ensure your iOS device is updated to iOS 18 or later to utilize all features, including the 'Share This Item' functionality.

### 2.1 Battery Installation

The tracker comes with a pre-installed CR2032 battery. If replacement is needed, gently open the tracker casing and insert a new CR2032 battery, ensuring correct polarity. The battery typically lasts up to one year.

### 2.2 Pairing with Apple Find My App

1. Ensure Bluetooth is enabled on your iOS device.
2. Open the **Find My** app on your iOS device.
3. Navigate to the **Items** tab.
4. Tap on **Add Item**.
5. Select **Other Supported Item**.
6. Follow the on-screen instructions within the Find My app to complete the pairing process.

# Work with Apple Find My

## Global Positioning, Accuracy, Security

### 3. OPERATING INSTRUCTIONS

#### 3.1 Locating Items

- **Global Tracking:** Utilize the Apple Find My network to locate your item globally. Billions of iOS devices anonymously and securely relay the location of your tracker to your Find My app.
- **Nearby Tracking:** Within Bluetooth range (up to 60 meters/200 feet), you can trigger the built-in speaker on the tracker from the Find My app to emit a loud sound, helping you pinpoint its exact location.
- **Siri Integration:** You can use voice commands like "Hey Siri, find my keys" to locate your tagged items.

# Items lost Anywhere

Real-time GPS location and route finding

# Items lost Nearby

100 DB beeps make it easy to locate your items

Image: The tracker emitting a loud beep (100 dB) to help locate items that are lost nearby, such as a wallet on a table.

## 3.2 Left-Behind Remind & Lost Mode

- **Left-Behind Notification:** If your item with the tracker is left behind and the Bluetooth connection to your iOS device is lost, the Find My app will immediately send you a notification that the item is missing.
- **Lost Mode:** If an item is truly lost, you can activate Lost Mode in the Find My app. If you choose to include your contact information, any nearby Apple device that detects your tracker can access this information, allowing a finder to contact you and return your item.

# Left Behind **Remind**

## **"Key" left behind**

20mins ago

This item is no longer detected near you.  
It was last seen near Home.

Image: A notification on a smartphone indicating that a tagged item, such as keys, has been left behind, providing peace of mind.

### **3.3 Privacy Protection**

The aowoka Smart Bluetooth Tracker prioritizes your privacy. All communication within the Find My network is anonymous and encrypted. Location data and history are not stored on the tracker itself, ensuring your information remains secure.

### **3.4 Sharing Items**

With iOS 18 or later, you can share the location of your tracker with friends and family through the Find My app, allowing multiple users to track the same item.

### 3.5 Various Usage Scenarios

The compact and durable design of the aowoka tracker makes it suitable for a wide range of items:

- Wallets
- Keys
- Backpacks
- Suitcases and Luggage
- Laptop Bags
- Satchels

## 4. MAINTENANCE

### 4.1 Battery Replacement

The tracker uses a replaceable CR2032 coin cell battery, which typically provides up to one year of use. You can monitor the battery status directly within the Find My app. When the battery is low, replace it promptly to ensure continuous tracking functionality.

### 4.2 Water and Dust Resistance

The aowoka Smart Bluetooth Tracker is rated IP67 for water and dust resistance. This means it is protected against splashes, rain, and brief submersion in water. However, it is not designed for prolonged submersion or use in extreme water conditions.

## 5. TROUBLESHOOTING

- **Tracker Not Found:** Ensure your iOS device's Bluetooth is enabled and the tracker is within range. Check the battery status in the Find My app and replace the battery if necessary.
- **Pairing Issues:** Verify that your iOS device is updated to iOS 18 or a later version. Restart both your iOS device and the tracker (by temporarily removing and reinserting the battery) and attempt the pairing process again.
- **Sound Not Playing:** Confirm the tracker's battery is not depleted. Ensure your iOS device's volume is up and the tracker is within Bluetooth range.
- **Inaccurate Location:** Ensure your iOS device has a stable internet connection and location services are enabled for the Find My app. The accuracy of location tracking relies on the density of the Find My network in the area.

## 6. SPECIFICATIONS

Feature	Detail
Model Number	F2-2-BK
