6. MAINTENANCE

6.1 General Care

- Keep the power bank dry and away from moisture.
- Avoid extreme temperatures (hot or cold).
- Clean the device with a soft, dry cloth. Do not use harsh chemicals or abrasive materials.
- Do not drop, disassemble, or attempt to repair the power bank yourself.

6.2 Storage

When storing the power bank for extended periods, ensure it is charged to approximately 50-75% capacity. Recharge it every 3-6 months to maintain battery health.

6.3 Safety Precautions

- This power bank includes built-in protections against short circuits, overcharging, and over-discharging.
- Do not expose the power bank to fire or direct sunlight.
- Keep out of reach of children.

7. TROUBLESHOOTING

7.1 Power Bank Not Charging

- Ensure the charging cable is securely connected to both the power bank and the power source.
- Try a different USB wall adapter or USB port.
- Verify that the power source is active.

7.2 Device Not Charging from Power Bank

- Check if the power bank has sufficient charge (press the button to check LEDs).
- Ensure the charging cable connecting your device to the power bank is functional and correctly inserted.
- Try a different output port on the power bank.
- Some devices may require a specific charging cable or adapter.

7.3 Slow Charging

- Ensure you are using the appropriate port for faster charging (USB-C or USB 2).
- The charging speed can be affected by the cable quality, the device being charged, and the power bank's remaining charge level.
