4. OPERATING INSTRUCTIONS

4.1 Gaming Compatibility

The MAJESTECH controller supports a wide range of gaming platforms and titles:

- **Native Mobile Games:** Fortnite, Roblox, Minecraft, Call of Duty Mobile, Asphalt, Dead Cells, and many more that support controller input.
- **Cloud Gaming Services:** Xbox Cloud Gaming, GeForce Now, Luna.
- **Remote Play:** PlayStation Remote Play, Steam Link, Moonlight.
- **Emulators:** Compatible with various emulator applications.

4.2 Hall Effect Joysticks and Turbo Speeds

The Hall Effect joysticks provide precise, drift-free input. The controller also features three adjustable turbo speeds for rapid button presses. To activate or adjust turbo speeds, refer to the specific instructions in the included setup guide, as controls may vary by game or mode.

4.3 RGB Lighting Customization

The joysticks and ABXY buttons feature customizable RGB lighting. You can adjust colors and effects to match your preference. Specific button combinations (e.g., TURBO + R3 to adjust RGB/turn off, TURBO + L3 to turn on/off ABXY colors) are used to cycle through modes or select static colors. Consult the setup guide for detailed instructions on RGB customization.

5. MAINTENANCE

To ensure the longevity and optimal performance of your controller, follow these maintenance guidelines:

- **Cleaning:** Use a soft, dry cloth to clean the surface of the controller. Avoid using harsh chemicals, solvents, or abrasive materials.
- **Storage:** Store the controller in a cool, dry place away from direct sunlight and extreme temperatures. Use the provided protective sleeve when not in use to prevent dust and scratches.
- **Battery Care:** Avoid fully discharging the battery frequently. Charge the controller regularly, even if not in constant use, to maintain battery health.
- **Handling:** Do not drop or subject the controller to strong impacts. Avoid excessive force when inserting or removing your smartphone.

6. TROUBLESHOOTING

If you encounter issues with your MAJESTECH controller, refer to the following common problems and solutions:

- **Controller does not power on:**
 - Ensure the controller is fully charged. Connect it to a power source using the USB-C cable and allow it to charge for at least 30 minutes before attempting to power on again.
- **Unable to pair via Bluetooth:**
 - Ensure the controller is in pairing mode (indicator lights flashing after pressing [B] + [HOME]).
 - Turn off and on your smartphone's Bluetooth.
 - Forget the device from your smartphone's Bluetooth settings and attempt to pair again.
 - Ensure no other Bluetooth devices are interfering with the connection.
 - Restart both your smartphone and the controller.
- **Buttons or joysticks are unresponsive:**
 - Ensure the controller is properly connected via Bluetooth.
 - Check if the game you are playing supports controller input.
 - Restart the controller and your smartphone.
 - If the issue persists, try resetting the controller (refer to the setup guide for reset instructions, if available).
- **RGB lighting is not working or not customizable:**
 - Ensure the controller is powered on.
 - Refer to the setup guide for the correct button combinations to adjust or activate RGB lighting (e.g., TURBO + R3, TURBO + L3).
- **Short battery life:**
 - Ensure the controller is fully charged before use.
 - Battery performance can degrade over time with extensive use.

If these steps do not resolve your issue, please contact MAJESTECH customer support.
