# JOINICE B002 66-inch Fluted TV Stand Instruction Manual

Model: B002

## INTRODUCTION

---

Thank you for choosing the JOINICE B002 66-inch Fluted TV Stand. This manual provides detailed instructions for assembly, usage, maintenance, and troubleshooting to ensure optimal performance and longevity of your product. Please read all instructions carefully before beginning assembly and retain this manual for future reference.

## SAFETY INFORMATION

---

- **Caution:** The TV stand features rounded edges to prevent injury.
- Ensure the TV is securely mounted to the wall or placed centrally on the stand to prevent tipping.
- Do not exceed the maximum weight capacity of 110 lbs for the top surface and 22 lbs for lower shelves.
- Keep small parts and packaging materials away from children during assembly.
- Assembly requires at least two adults due to the weight and size of the components.

## ASSEMBLY INSTRUCTIONS

Assembly of the JOINICE B002 TV Stand requires careful attention to detail. Please follow the step-by-step instructions provided in the separate assembly guide included with your product packaging. Ensure all parts are present before beginning assembly.

1. Unpack all components and verify against the parts list in your assembly guide.
2. Identify all hardware and tools required. A Phillips head screwdriver is necessary. An electric drill can expedite the process but use with caution to avoid overtightening or damaging components.
3. Follow the diagrams and written instructions precisely for each step.

4. Ensure all connections are secure but do not overtighten screws.
5. For optimal stability, assemble the unit on a flat, clean surface.

**Note:** Some steps may require assistance from another person due to the size and weight of the parts.

## OPERATING INSTRUCTIONS

---

- **Drawers:** Gently pull the ring handles to open the drawers. Push firmly to close.
- **Cabinet Doors:** Open the central cabinet doors by gently pulling the edges. Close by pushing until they latch securely.
- **Adjustable Shelves:** To adjust shelf height, remove the shelf and reposition the metal pins into the desired pre-drilled holes. Ensure all four pins are securely in place before resting items on the shelf.
- **Cable Management:** Utilize the rear cutouts to route power cords and audio/video cables, keeping them tidy and out of sight.

## MAINTENANCE

---

- **Cleaning:** Wipe surfaces with a soft, dry cloth. For stubborn marks, use a slightly damp cloth with mild soap, then dry immediately. Avoid harsh chemicals or abrasive cleaners.
- **Dusting:** Regularly dust the unit to prevent buildup.
- **Avoid Moisture:** Do not place hot or wet items directly on the surface. Use coasters or protective pads.
- **Check Connections:** Periodically check all screws and fasteners to ensure they remain tight. Retighten if necessary.
- **Sunlight Exposure:** Avoid prolonged direct sunlight exposure to prevent fading or discoloration of the wood finish.

## TROUBLESHOOTING

---

### Wobbly or Unstable Unit

- **Solution:** Ensure all screws and fasteners are tightened. Verify the unit is on a flat, even surface. If on soft carpet, consider placing a rigid mat underneath for better stability.

### Drawers Not Closing Smoothly

- **Solution:** Check that the drawer slides are properly aligned and free of obstructions. Ensure the drawer is correctly inserted into the runners.

### Cabinet Doors Misaligned

- **Solution:** Adjust the hinge screws on the cabinet doors. Most hinges allow for minor adjustments to align the doors horizontally and vertically. Refer to the assembly guide for specific hinge adjustment instructions.
