- **Face Unlock:** Use facial recognition to unlock your phone.
- **PIN, Pattern, and Password:** Set up a secure lock screen method.
- **Find My Device:** Enable this feature to locate, lock, or erase your device remotely if it's lost or stolen.

4. MAINTENANCE AND CARE

4.1 Cleaning Your Device

To keep your POCO X7 Pro 5G in optimal condition:

- Use a soft, lint-free cloth to wipe the screen and body.
- Avoid using harsh chemicals, abrasive cleaners, or aerosol sprays.
- For stubborn smudges, slightly dampen the cloth with water.

4.2 Software Updates

Regular software updates provide new features, performance improvements, and security patches.

- Ensure your device is connected to Wi-Fi and has sufficient battery before performing an update.
- Go to Settings > About phone > System update to check for and install available updates.

4.3 Storage Management

With 256GB or 512GB of internal storage, you have ample space, but managing it is still important.

- Regularly delete unnecessary files, photos, and videos.
- Uninstall unused applications.
- Utilize cloud storage services to back up large files.
- If you have a microSD card, move media files to it to free up internal storage.

4.4 Water and Dust Resistance (IP68)

The POCO X7 Pro 5G is rated IP68 for water and dust resistance, meaning it is protected against dust ingress and can withstand immersion in up to 1.5 meters of fresh water for up to 30 minutes. However, this is not permanent and resistance might decrease over time with normal wear. Avoid exposing the device to saltwater, chlorinated water, or other liquids. If the device gets wet, dry it thoroughly before charging.

5. TROUBLESHOOTING

This section addresses common issues you might encounter with your POCO X7 Pro 5G.

Issue	Possible Solution
-------	-------------------

Issue	Possible Solution
Device not turning on	Ensure the battery is charged. Connect to the charger for at least 15 minutes. If it still doesn't turn on, try holding the Power button for 10-15 seconds to force a restart.
Battery draining fast	Check battery usage in Settings to identify power-hungry apps. Reduce screen brightness, disable unnecessary features (GPS, Bluetooth, Wi-Fi when not in use), and close background apps. Ensure software is up to date.
Connectivity issues (Wi-Fi, Bluetooth, 5G)	Toggle Wi-Fi/Bluetooth/Mobile Data off and on. Restart the phone. For Wi-Fi, forget the network and reconnect. For Bluetooth, unpair and re-pair the device. Ensure your SIM card is properly inserted for 5G.
Applications crashing or freezing	Force close the app and reopen it. Clear the app's cache and data in Settings > Apps. Ensure the app and your phone's operating system (Android 15) are updated to the latest versions. Restart the device.
Device overheating	Close background applications, especially resource-intensive ones like games. Avoid using the phone while charging, especially with HyperCharge. Reduce screen brightness. If using a protective case, remove it temporarily. Ensure no apps are running excessively in the background (e.g., fitness apps as noted in some user reviews).
Camera not working	Restart the camera app. Clear the camera app's cache and data. Ensure there are no physical obstructions on the camera lenses. Restart the phone.
