johgee B0DSP9K3XM

johgee 2-Zone WiFi Sprinkler Timer with RF Gateway User Manual

Model: B0DSP9K3XM

1. INTRODUCTION

The johgee 2-Zone WiFi Sprinkler Timer with RF Gateway is designed to automate garden and lawn watering. It features two independent outlets, remote control via a smartphone application, and an RF gateway for extended wireless range. This device supports both timed irrigation and spray modes, includes a rain delay function, and allows for manual operation.

2. PACKAGE CONTENTS

Verify that all items are present in the package:

- 1 x 2-Zone Wireless Water Timer
- 1 x RF Gateway (Sub-GHz Gateway)
- 1 x User Manual
- 2 x O-Rings (Spare)
- 1 x Raw Tape (Thread Seal Tape)

Illustration of the package contents, showing the water timer, gateway, and accessories.

3. SETUP

3.1. Battery Installation

The water timer requires two AA batteries (not included). Open the battery compartment on the timer, insert the batteries according to the polarity markings, and securely close the compartment.

3.2. App Download and Gateway Connection

1. Download the "Smart Life" application from your smartphone's app store (available on Google Play and Apple App Store).
2. Plug the RF Gateway into a power outlet within range of your 2.4GHz WiFi network. The WiFi indicator light on the gateway will flash red, indicating it is ready for connection.
3. Open the "Smart Life" app, register or log in, and follow the in-app instructions to add the Sub-GHz Gateway. Ensure your phone's Bluetooth is enabled for easier discovery.
4. Once the gateway is connected, its WiFi indicator light will turn solid blue.

Video demonstrating the connection process of the johgee WiFi Sprinkler Timer and RF Gateway to the smartphone application.

3.3. Timer Connection and Installation

1. With the gateway connected, press and hold the RF button on the water timer for a few seconds until its blue light flashes, indicating it is waiting for connection.
2. In the "Smart Life" app, navigate to the gateway and add the sprinkler timer as a sub-device. The timer's blue light will double flash upon successful connection.
3. Attach the water timer to your outdoor faucet. Ensure a tight seal to prevent leaks, using the provided raw tape and O-rings if necessary.
4. Connect your garden hoses to the two independent outlets (Zone A and Zone B) on the timer.

Anytime and Anywhere Enjoy Your Smart Life

The water timer installed on a faucet, ready for operation.

4. OPERATING INSTRUCTIONS

4.1. Manual Watering

You can manually start or stop watering directly from the device by pressing the Zone A or Zone B buttons, or remotely through the "Smart Life" app. Manual watering can be set for a duration of up to 11 hours and 59 minutes.

Manual Watering

APP Manual Mode: is to 11h and 59s

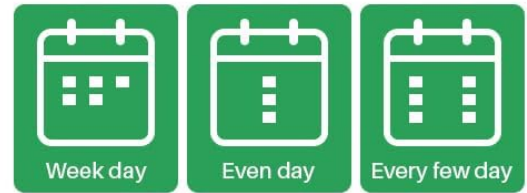

Manual watering in progress, controlled by the timer.

4.2. Timed Irrigation Mode (Scheduling)

Each of the two zones can be programmed independently with up to 5 customized watering procedures. Set the start time, duration, and frequency (daily, specific days of the week, or every few days) for each zone within the app.

Irrigate Your Garden with Ease

Customized Irrigation Mode Provides 5 Preset Schedules per Zone

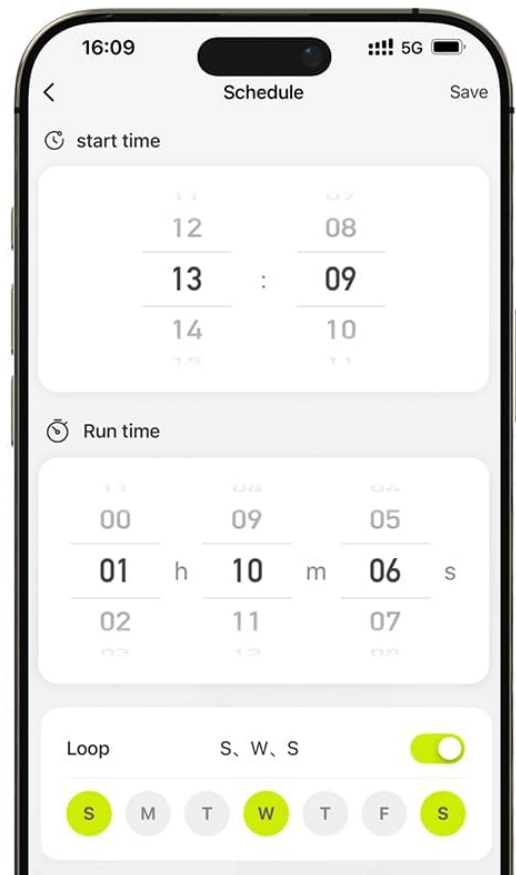

SCHEDULE IRRIGATION

Start time Irrigation Duration: 45s
7:00 7:45

Every 2 Day

SU MO TU WE TH FR SA

Setting up a watering schedule using the smartphone application.

4.3. Spray Mode

The spray mode allows for flexible adjustment of runtime and interval time, supporting weekly cycle frequencies. This mode is suitable for specific watering needs that require intermittent spraying.

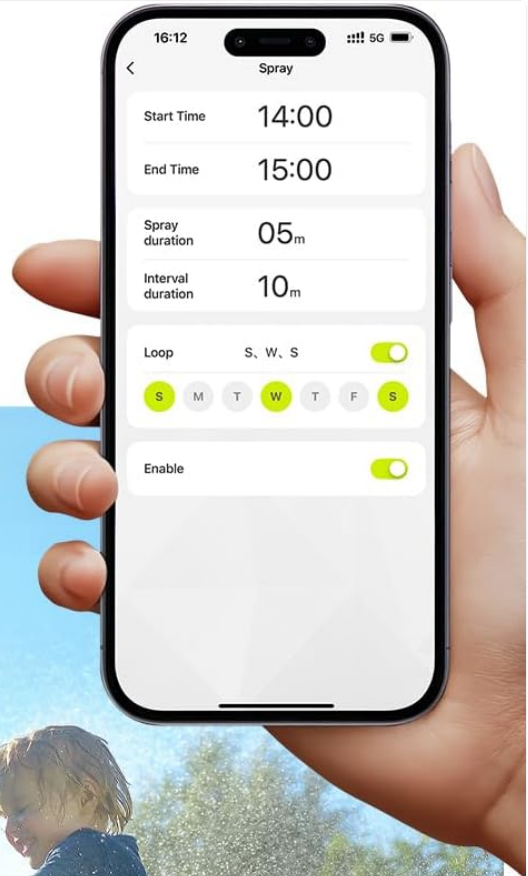

Spray Irrigation Mode

 **SPARY WATERING**

14:00 14:01 14:05 14:06 14:10 14:11 14:05 14:06

ON OFF ON OFF ON OFF ON OFF

SU MO TU WE TH FR SA

Configuring the spray irrigation mode via the app.

4.4. Rain Delay

The smart hose timer features a rain delay function, allowing you to pause watering for 1-7 days to avoid unnecessary water usage during rainfall. The system can also intelligently detect rain and automatically stop watering.

Rain Delay: 1-7 Days

Adjust watering schedule during rainfall!

DESIGN
AWARD
2026

Two Modes

- A** When rain is detected, you set a delay in watering for a few days (1-7 Days)
- B** Intelligent delay, as soon as rain is detected, watering will be stopped automatically

Setting a rain delay through the application.

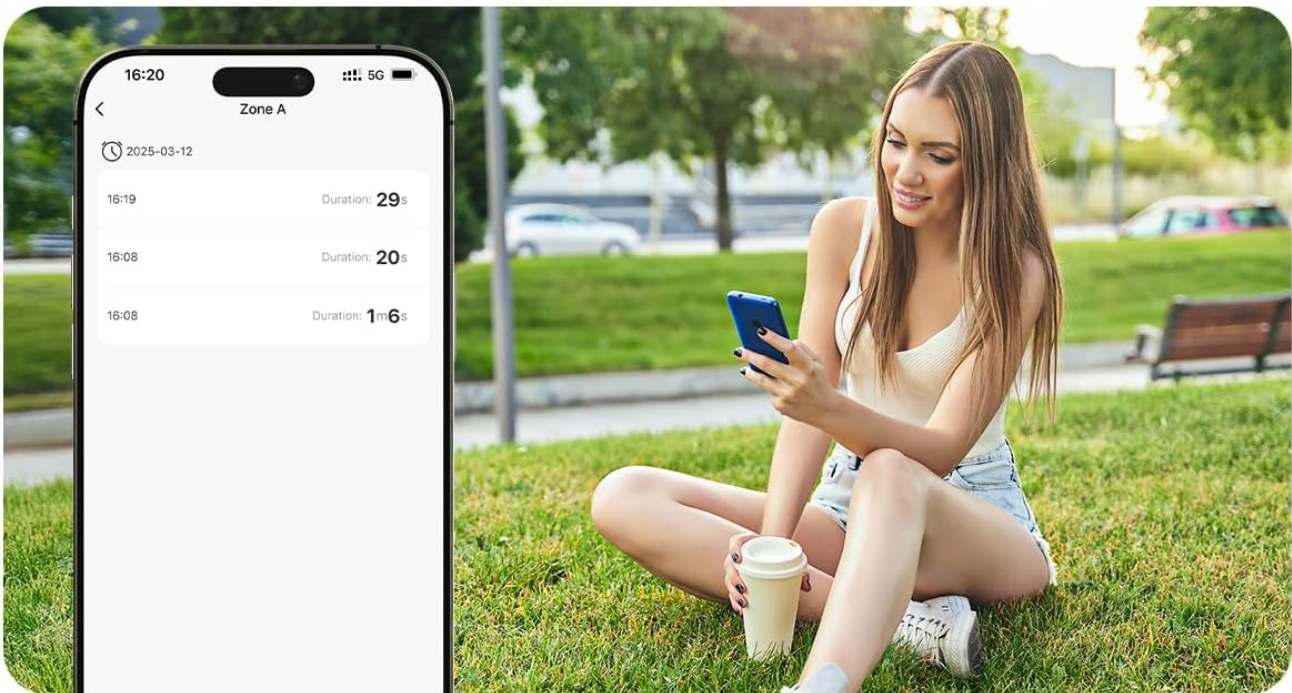

4.5. Irrigation Records

The app provides a dedicated watering log page that details the start time, duration, and end time of each watering session, allowing you to monitor your irrigation history.

Manual Watering

Monitor Irrigation Records

Viewing past irrigation records in the app.

5. MAINTENANCE

- **Battery Replacement:** Replace AA batteries in the water timer as needed. Low battery indicators will appear in the app.
- **Waterproofing:** The device has an IP55 waterproof rating, ensuring stable operation in outdoor weather conditions. However, ensure all connections are tight to prevent leaks.
- **Winterization:** Before freezing temperatures, disconnect the water timer from the faucet, remove batteries, and store the device indoors to prevent damage.

6. TROUBLESHOOTING

- **Connection Issues:** Ensure the RF Gateway is within 984 feet (300 meters) of the water timer and connected to a 2.4GHz WiFi network. If connection is lost, try restarting the gateway and re-pairing the timer via the app. Placing the gateway closer to the WiFi router can improve stability.
- **Leaks:** Check all hose connections for tightness. Use the provided raw tape on threaded connections and ensure O-rings are properly seated to prevent water leakage.
- **Timer Not Activating:** Verify battery levels in the water timer. Check the app for any active rain delays or conflicting schedules. Ensure the faucet is fully open.

7. SPECIFICATIONS

Feature	Detail
Brand	johgee
Model	B0DSP9K3XM
Color	Gray
Material	Plastic
Product Dimensions	4.7"D x 4.3"W x 4.3"H
Item Weight	0.52 Kilograms
Number of Settings	11
Smart Home Compatibility	Smart Home Compatible (Alexa, Google Voice Control)
Wireless Range	Up to 984 feet (300 meters) via RF Gateway
WiFi Frequency	2.4GHz (for Gateway connection)
Waterproof Rating	IP55
