uaue T60

UAUE T60 Smart Watch Instruction Manual

Model: T60

Brand: uaue

INTRODUCTION

Thank you for choosing the UAUE T60 Smart Watch. This manual provides detailed instructions for setting up, operating, and maintaining your device. The T60 Smart Watch is designed to enhance your daily life with features such as Bluetooth calling, comprehensive health monitoring, and various sports modes. Please read this manual carefully to ensure proper use and optimal performance.

Key Features:

- 1.91-inch HD TFT color screen with 3D curved tempered glass.
- Bluetooth 5.4 for calling and instant notifications.
- Comprehensive health monitoring: heart rate, sleep tracking, blood oxygen.
- 112+ sports modes and IP68 waterproof rating.
- Long battery life: 5-7 days of daily use, 30 days standby.
- 20+ practical tools including music control, camera control, alarm, timer, and weather forecast.

SETUP

1. Charging the Device

Before first use, fully charge your UAUE T60 Smart Watch. Connect the magnetic charging cable to the charging points on the back of the watch and plug the USB end into a power adapter (not included) or a computer's USB port. A full charge typically takes about 2 hours.

Image: The UAUE T60 Smart Watch features magnetic charging for convenience and is IP68 waterproof.

2. App Download and Bluetooth Connection

To unlock all features, download the "GloryFit" app on your smartphone. The app is compatible with iOS 9.0 and Android 4.0 or higher. You can find the app by scanning the QR code displayed on the watch or by searching for "GloryFit" in your phone's app store.

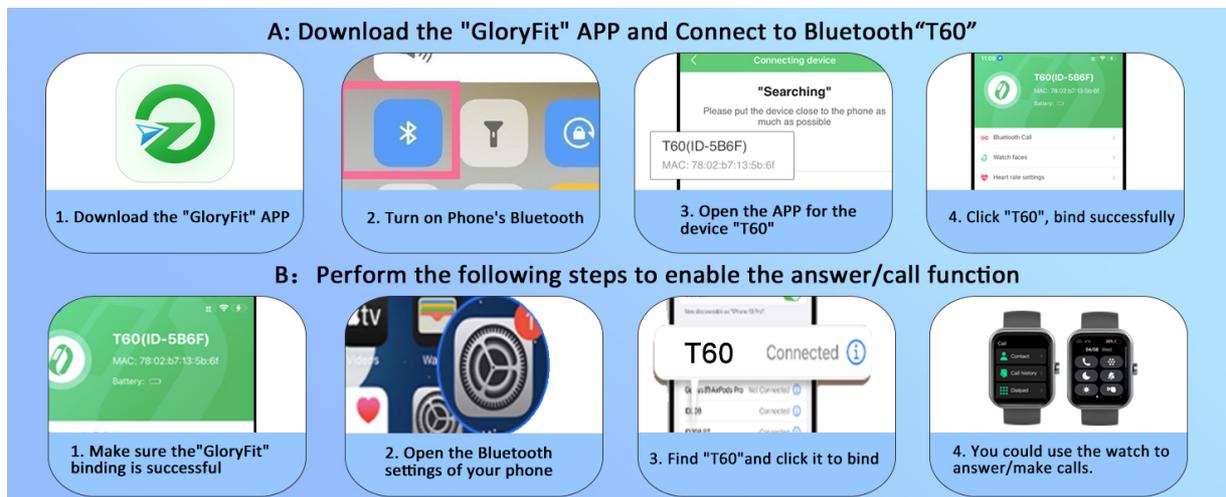

Image: Visual guide for connecting the UAUE T60 Smart Watch to your smartphone via the GloryFit app.

1. Download the "GloryFit" APP.
2. Turn on your phone's Bluetooth.
3. Open the "GloryFit" APP and navigate to the device section.
4. Select "T60" from the list of available devices to bind.

3. Enabling Call Function

To use the Bluetooth calling feature, ensure the watch is successfully bound to the "GloryFit" app. Then, go to your phone's Bluetooth settings, find "T60" (or a similar device ID), and click to pair. Allow access to contacts if prompted. This enables you to make and answer calls directly from your watch.

Your browser does not support the video tag.

5. Music and Camera Control

When connected to the "GloryFit" app, you can control music playback on your phone directly from the smartwatch. You can also use the watch as a remote control to take photos with your phone, making it convenient for selfies or group shots.

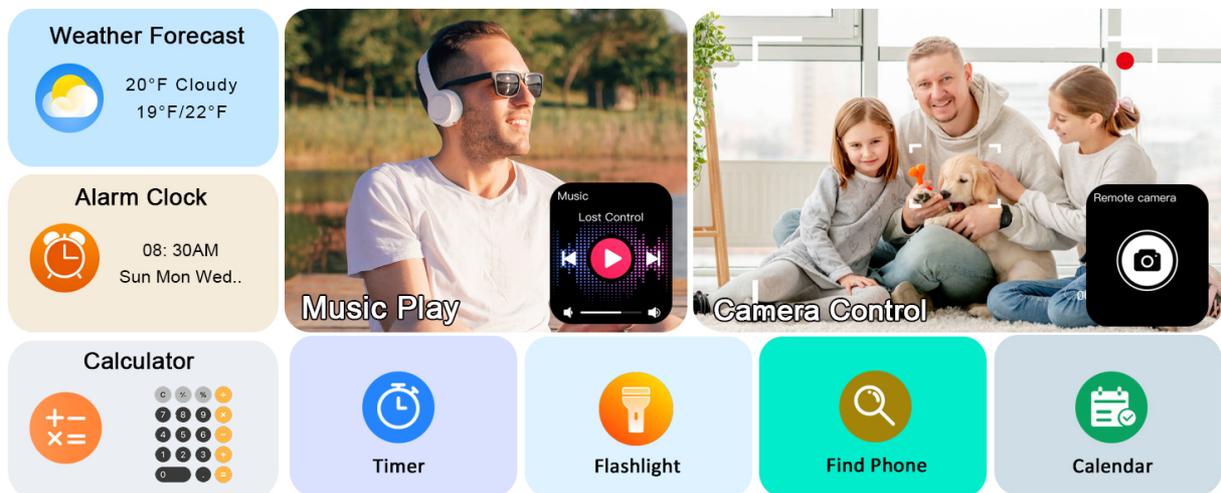

Image: The UAUE T60 Smart Watch offers music control and remote camera functions.

6. Other Practical Tools

The UAUE T60 Smart Watch includes over 20 practical functions such as a timer, stopwatch, alarm clock, sedentary reminder, weather forecast, brightness adjustment, calculator, flashlight, and "Find Phone" feature.

Multifunctional Smartwatch

The T60 smartwatch has more practical functions and can become a convenient assistant in your life.

Image: Additional features include stopwatch, breath training, sedentary reminders, and female health tracking.

MAINTENANCE

1. Charging

Charge the watch using the provided magnetic charging cable. Ensure the charging pins align correctly with the watch's charging contacts. Avoid using damaged cables or chargers. The watch offers 5-7 days of normal use and

up to 30 days of standby time on a single 2-hour charge.

2. Waterproofing

The UAUE T60 Smart Watch has an IP68 waterproof rating, meaning it can withstand splashes, rain, and brief immersion in water. It is suitable for daily activities like washing hands or wearing in the rain. However, it is not recommended for hot showers, saunas, or diving, as steam and high water pressure can compromise the seal.

TROUBLESHOOTING

If you encounter any issues with your UAUE T60 Smart Watch, please refer to the following general troubleshooting tips:

- **Watch not turning on:** Ensure the watch is fully charged. Connect it to the charger for at least 30 minutes.
- **Bluetooth connection issues:** Make sure Bluetooth is enabled on your phone and the watch. Restart both devices and try pairing again through the "GloryFit" app. Ensure the app has necessary permissions.
- **Notifications not appearing:** Check if app notifications are enabled in the "GloryFit" app settings and in your phone's system settings for the app. Ensure the watch is connected via Bluetooth.
- **Inaccurate health data:** Ensure the watch is worn snugly on your wrist, not too tight or too loose. Clean the sensors regularly. Note that smartwatches are not medical devices and readings are for reference only.
- **Short battery life:** Reduce screen brightness, disable unnecessary notifications, and limit continuous heart rate monitoring if not needed.

For more specific issues or persistent problems, please contact customer support.
