

SUPERONE Dual-Side Magnetic Ring Holder

SUPERONE Dual-Side Magnetic Ring Holder with Kickstand for MagSafe Compatible Devices

Instruction Manual

1. INTRODUCTION

Thank you for choosing the SUPERONE Dual-Side Magnetic Ring Holder. This product is designed to enhance your mobile experience by providing a secure grip, a versatile kickstand, and compatibility with MagSafe devices and accessories. Its dual-magnetic design allows for attachment to various surfaces and easy removal for wireless charging.

2. PACKAGE CONTENTS

- SUPERONE Dual-Side Magnetic Phone Grip x 1
- Metal Plate x 1
- User Manual x 1

3. SETUP AND INSTALLATION

3.1 Attaching to MagSafe Compatible Devices/Cases

The SUPERONE Magnetic Ring Holder is designed for direct attachment to MagSafe-compatible iPhones (iPhone 12, 13, 14, 15, 16 series) or MagSafe-certified phone cases with a built-in metal ring. Simply align the magnetic ring holder with the MagSafe area on your device or case. The strong N55 magnets will securely attach the holder.

Image: The SUPERONE Magnetic Ring Holder securely attached to the back of an iPhone, demonstrating its primary function as a phone grip and kickstand.

3.2 Attaching to Non-Metallic Surfaces (Using Metal Plate)

For attaching your device to non-metallic surfaces such as walls, mirrors, or gym equipment, use the provided metal plate. Peel off the adhesive backing from the metal plate and firmly press it onto the desired clean, flat surface. Once the metal plate is secured, you can then attach your MagSafe-compatible phone (with the ring holder attached) to the metal plate.

4. OPERATING INSTRUCTIONS

4.1 Using as a Phone Grip

Once attached, slide your finger through the ring to secure your phone. This provides a comfortable and stable grip, reducing the risk of accidental drops during one-handed use.

4.2 Using as a Kickstand

The ring holder features a 360° rotation and 180° folding capability. Adjust the ring to your desired angle to prop up your phone in either vertical or horizontal orientation for hands-free viewing. The robust design ensures stability.

Vertically Standing

Horizontally Standing

Grip Ring Standing

4.3 Using with Magnetic Car Mounts

The dual-sided magnetic design allows the holder to work seamlessly with MagSafe car mounts without needing to remove the ring holder from your phone.

4.4 Removing for Wireless Charging

To use wireless charging, simply slide the magnetic ring holder off your phone. Its magnetic attachment ensures no sticky residue is left behind. After charging, you can easily reattach it.

Image: An illustration showing the magnetic ring holder being easily removed from a phone, allowing the phone to be placed on a wireless charger. It also depicts compatibility with car mounts.

5. COMPATIBILITY

This magnetic ring holder is compatible with:

- iPhone 12, 13, 14, 15, 16 series (direct attachment)
- Certified MagSafe phone cases with a metal ring on their back (direct attachment)
- Any metal surface (direct attachment)
- Any non-metallic surface when used with the provided metal plate (e.g., tile, plastic, mirror, glass, wooden surfaces)

Wide Compatibility

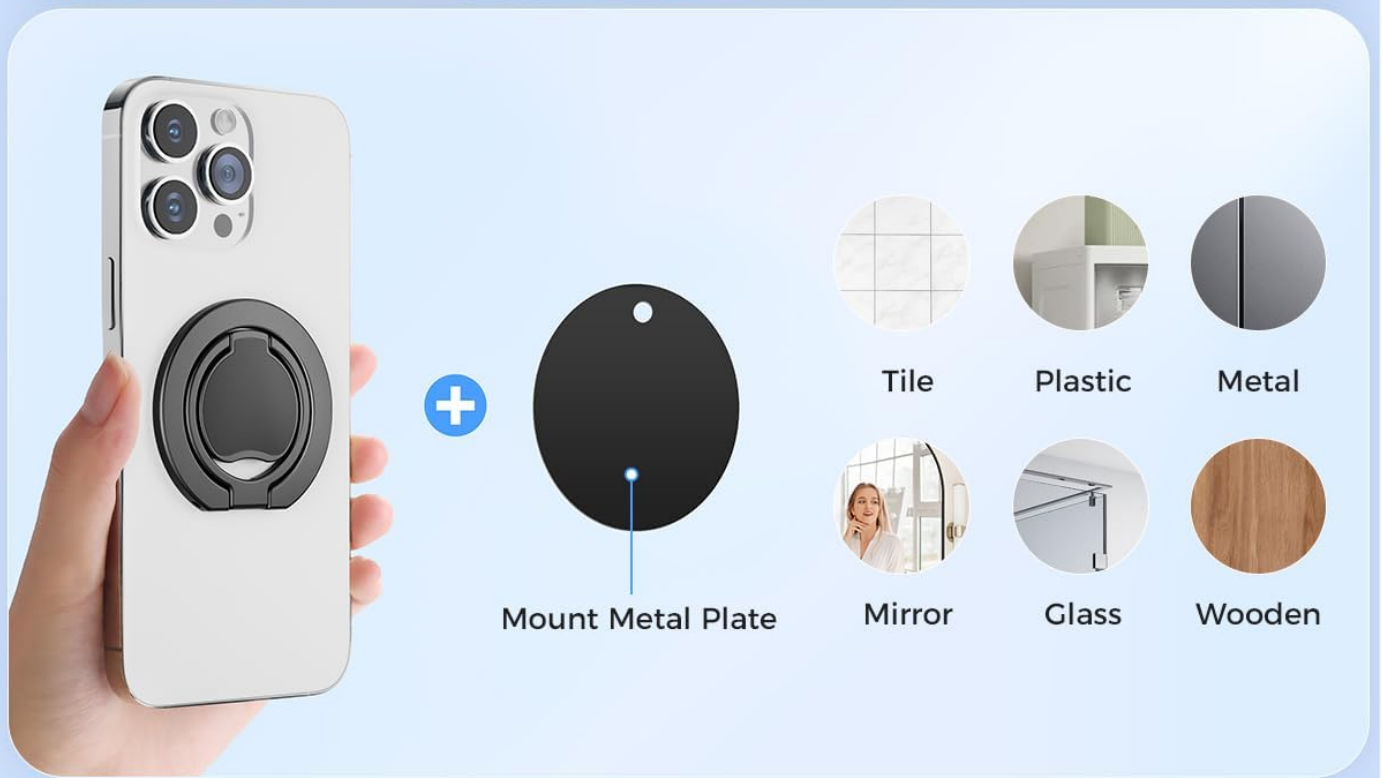

Image: An illustration demonstrating the wide compatibility of the magnetic ring holder. It shows direct compatibility with MagSafe iPhones

and cases, and compatibility with various surfaces like tile, plastic, metal, mirror, glass, and wood when using the included mount metal plate.

6. MAINTENANCE

- Keep the magnetic surfaces clean and free of dust or debris to ensure optimal magnetic strength.
- Wipe the holder with a soft, dry cloth if it becomes dirty. Avoid harsh chemicals.
- Store in a cool, dry place when not in use.

7. TROUBLESHOOTING

7.1 Holder feels loose or not attaching securely

- Ensure your phone or case is MagSafe compatible. Non-MagSafe cases may not provide sufficient magnetic attraction.
- Check for any obstructions (e.g., thick cases, foreign objects) between the holder and your device/case.
- If using the metal plate, ensure it is firmly adhered to a clean, flat surface.

8. SPECIFICATIONS

- **Brand:** SUPERONE
- **Model:** Dual-Side Magnetic Ring Holder
- **Material:** Plastic, High-Quality Aluminum, Silicone Pad
- **Magnet Type:** N55 Magnets (2x stronger than N50/N48)
