1. INTRODUCTION

Thank you for choosing the HOMIDEC Double Rods Clothes Rack. This multifunctional heavy-duty clothes organizer is designed to provide extensive storage for your clothing and accessories. Featuring double hanging rods, four-tier storage shelves, and convenient side hooks, it is suitable for various spaces including bedrooms, wardrobes, closets, and shops. This manual provides detailed instructions for assembly, operation, and maintenance to ensure optimal use and longevity of your product.

2. SAFETY INFORMATION

- Read all instructions carefully before assembly and use.
- Keep all small parts and packaging materials away from children and pets to prevent choking hazards.
- Ensure all connections are securely tightened before placing items on the rack.
- Do not exceed the maximum weight capacity of 780 lbs for the entire unit or 88 lbs per shelf/rod to prevent collapse or damage.
- Place the rack on a flat, stable, and level surface to prevent tipping.
- Avoid hanging excessively heavy items unevenly, which could cause imbalance.
- Do not climb on or hang from the rack.

- Regularly inspect the rack for any loose parts or signs of wear and tear. Tighten screws as needed.

3. PACKAGE CONTENTS

Before beginning assembly, verify that all components listed below are present and undamaged. If any parts are missing or damaged, contact customer support.

Image 3.1: Exploded view of the clothes rack components, illustrating the various parts included in the package.

Components List:

- Metal Frame Pipes (various lengths and shapes for vertical supports, horizontal rods, and shelf frames)
- Metal Mesh Shelves (4 units)
- Side Hooks (8 units, 4 per side)
- Adjustable Balance Feet (4 units)
- Screws and Fasteners
- Assembly Tools (e.g., Allen wrench)
- Instruction Manual

4. SETUP AND ASSEMBLY

Assembly is straightforward and typically takes a short amount of time. It is recommended to assemble the rack in the location where it will be used.

Assembly Steps:

1. **Unpack Components:** Carefully remove all parts from the packaging and lay them out on a clean, soft surface to prevent scratches. Refer to the Package Contents section to ensure all parts are present.
2. **Assemble Base Frame:** Connect the bottom horizontal pipes to the vertical support pipes using the provided screws. Ensure all connections are snug but do not overtighten initially.
3. **Install Shelves:** Attach the four metal mesh shelves to the designated vertical supports. The shelves are designed to fit into specific slots or attach with screws.
4. **Attach Hanging Rods:** Secure the double hanging rods (high and low) to the upper sections of the vertical supports. The non-slip hanging beads should be facing outwards.
5. **Install Side Hooks:** Attach the 8 side hooks to the designated points on the outer vertical frames.
6. **Tighten All Connections:** Once the entire structure is assembled, go back and securely tighten all screws and fasteners.
7. **Adjust Balance Feet:** Turn the adjustable balance feet at the bottom of the rack to ensure stability and levelness on uneven floors.

Large Bottom Space
can accommodate many types of shoes!

Image 4.2: Illustration of the adjustable balance feet, demonstrating how to level the rack on various floor surfaces.

5. OPERATING INSTRUCTIONS

The HOMIDEC Double Rods Clothes Rack is designed for versatile storage. Follow these guidelines for optimal use:

- **Hanging Clothes:** Utilize the double rods for hanging various lengths of clothing. The high rod is suitable for longer garments like dresses and coats, while the lower rod is ideal for shirts, skirts, and trousers. The non-slip beads prevent hangers from sliding off.
- **Shelf Storage:** The four-tier metal mesh shelves provide ample space for folded clothes, storage bins, shoes, and other accessories. Distribute weight evenly across the shelves.
- **Side Hooks:** Use the integrated side hooks to hang items such as coats, hats, scarves, bags, keys, or umbrellas, maximizing vertical storage.
- **Weight Distribution:** Always distribute the weight of your items evenly across the hanging rods and shelves to maintain stability and prevent stress on the frame. Do not overload any single section.

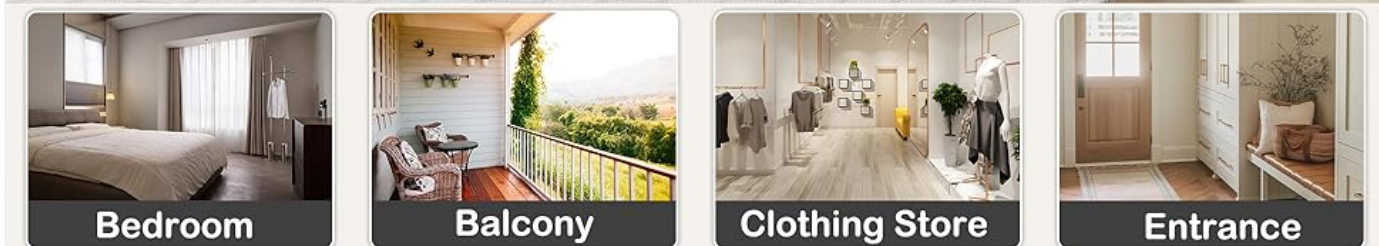

Image 5.2: A close-up view of the side hooks, illustrating their utility for hanging bags, hats, scarves, and umbrellas.

6. MAINTENANCE

Proper maintenance ensures the longevity and continued performance of your clothes rack.

- **Cleaning:** Wipe down the metal frame and shelves with a soft, damp cloth. Avoid abrasive cleaners or harsh chemicals that could damage the finish.
- **Inspection:** Periodically check all screws and connections to ensure they remain tight. Retighten any loose fasteners to maintain stability.
- **Load Management:** Do not overload the rack beyond its specified weight capacity. Overloading can lead to structural fatigue and potential damage.
- **Environment:** While durable, avoid prolonged exposure to extreme moisture or direct sunlight, which could affect the material over time.

7. TROUBLESHOOTING

If you encounter any issues with your HOMIDEC Double Rods Clothes Rack, refer to the following common solutions:

Problem: The rack is wobbly or unstable.

Solution: Ensure all screws are fully tightened. Check that the rack is placed on a flat, level surface. Adjust the balance feet at the bottom of the frame to compensate for uneven flooring.

Problem: Parts do not fit together during assembly.

Solution: Double-check the assembly instructions and diagrams to ensure you are using the correct parts for each step and orienting them correctly. If a part appears bent or damaged, contact customer support for a replacement.

Problem: Clothes are sliding off the hanging rods.

Solution: Ensure the non-slip hanging beads are correctly positioned on the rods. Use hangers with good grip or consider using velvet hangers for extra slip resistance.

Problem: Rack appears to be bending or sagging.

Solution: Immediately remove some items from the rack. This indicates that the weight capacity may have been exceeded. Redistribute the load or reduce the total weight. Verify all connections are secure.

8. SPECIFICATIONS

Brand	HOMIDEC
Model Number	SGGYG+ZWJ
Product Dimensions (D x W x H)	15.7" x 45.3" x 63" (40cm x 115cm x 160cm)
Frame Material	Alloy Steel
Maximum Weight Recommendation	780 lbs (Total)
Load Capacity (per shelf/rod)	88 lbs (Approximate, refer to diagrams)
Number of Shelves	4
