SETUP & ASSEMBLY

The CHITA modular sofa is designed for minimum tool-free assembly. Each step is intuitive.

1. Unpack all components from the five boxes. Ensure all parts are present before starting.
2. Begin with the Arms Box (Box 1) and follow the detailed instructions provided within.
3. Connect the modular pieces using the integrated connectors.
4. Once assembled, fluff the cushions to help them expand fully.

OPERATING YOUR MODULAR SOFA

The modular design allows for versatile arrangements to suit your living space.

Modularity

The individual pieces can be easily moved and rearranged to create different configurations, from a large L-shape sectional to separate seating units. This flexibility allows you to adapt the sofa to various room layouts and needs.

Comfort Features

- **Deep Seats:** Enjoy extra deep seats (23.6 inches) for maximum comfort and lounging.
- **Feather-Blend Cushions:** Seat cushions are filled with 2.0 high-density foam and sterilized feathers, providing a medium firmness (3 out of 5). Back cushions are filled with soft fiber and sterilized feathers.
- **Solid Wood Plinth Base:** The exposed kiln-dried solid wood frame adds durability and a stylish touch, while the high-leg design allows for easy cleaning underneath.

MAINTENANCE & CARE

Cleaning Instructions

The linen-like fabric is durable and easy to clean. Cushions are loose with zip-off covers for convenient maintenance.

- For general cleaning, wipe with a dry cloth.
- For spills, promptly clean the affected area. The fabric is engineered to withstand heavy use.

- Cushion covers are removable and can be washed. Refer to the care label for specific washing instructions to prevent shrinking or pilling.
- Regularly fluff cushions to maintain their shape and appearance.

TROUBLESHOOTING

This section addresses common inquiries and minor issues you might encounter with your CHITA modular sofa.

Cushions appear flat or wrinkled:

This is normal after shipping due to vacuum packaging. Follow the cushion fluffing instructions in the "Setup & Assembly" section. Regular fluffing will help maintain their fullness.

Modular pieces are not staying together:

Ensure the integrated connectors on the underside of each module are properly aligned and engaged. Push the modules firmly together until they lock into place.

Fabric stains or marks:

The fabric is designed for durability and easy cleaning. For most spills, a dry cloth can be used. For tougher stains, remove the zip-off cover and follow the care label instructions for washing. Test any cleaning solution on an inconspicuous area first.
