EMEET C960 2025 Version

EMEET C960 1080P Webcam User Manual

Model: **C960 2025 Version**
Brand: **EMEET**

INTRODUCTION

The EMEET C960 1080P Webcam is designed for professional video streaming and online communication. It features full HD 1080P resolution, dual noise-reduction microphones, and a wide 90-degree field of view. With its plug-and-play functionality and versatile USB connectivity, the C960 provides a clear and efficient video conferencing experience for various applications, including online learning, home office, and virtual meetings.

WHAT'S IN THE BOX

- C960 Webcam
- Privacy Cover
- User Manual
- USB Cable (with USB Type-A & A-to-C Adapter)

SETUP

The EMEET C960 Webcam offers a simple plug-and-play setup, requiring no additional drivers. It supports both USB Type-A and USB Type-C connections for broad compatibility.

1. **Connect the Webcam:** Plug the webcam's USB cable into an available USB port on your computer. The C960 comes with both a USB Type-A connector and an A-to-C adapter for versatile connections.

2. **Position the Webcam:** Place the webcam on top of your monitor or a flat surface. The adjustable clip base allows for secure and flexible positioning.

3. **Select as Default Device:** In your video conferencing software (e.g., Zoom, Teams, Facetime), navigate to the audio and video settings. Select "EMEET C960" as your preferred camera and microphone device.

ADJUSTABLE BASE AND HEAD

Both the base and head are flexible for better coverage of attendees.

OPERATING INSTRUCTIONS

Video Quality and Field of View

The C960 delivers full HD 1080P video with a 5-layer anti-glare lens, ensuring clear and smooth visuals. Its fixed focal length provides sharp images within a range of 11.8 to 118.1 inches. The 90-degree wide-angle lens captures more participants, reducing the need for frequent camera adjustments during group calls.

Audio Performance

Equipped with two built-in omnidirectional noise-reduction microphones, the C960 captures your voice clearly while filtering out background noise, ensuring crystal-clear communication during calls.

Image: A user engaged in a video call, highlighting the effectiveness of the built-in dual noise-reduction microphones in enhancing sound quality.

Low-Light Correction

The webcam features automatic low-light correction technology, allowing it to capture clear images even in dim lighting conditions. It also includes low-light boost, color boost, and exposure adjustment to ensure you always look your best.

Privacy and Compatibility

The C960 includes a physical privacy cover that can be automatically removed or closed to protect your privacy. It is highly compatible with major operating systems like Windows 10/11, MacOS 10.14 or later, Linux, and Android TV 7.0 or later. It works seamlessly with popular applications such as Zoom, Microsoft Teams, Facetime, Google Meet, and YouTube.

PRIVACY COVER

## Protect your privacy and prevent hackers from prying eyes

EMEETLINK PC Software

For advanced customization and fine-tuning of your webcam settings, download and install the EMEETLINK PC software. This software allows you to adjust parameters such as brightness, saturation, white balance, contrast, and sharpness to optimize your video output.

MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to clean the webcam lens and body. Avoid using harsh chemicals or abrasive materials that could damage the surface.
- **Storage:** When not in use, store the webcam in a cool, dry place, away from direct sunlight and extreme temperatures. Utilize the privacy cover to protect the lens from dust and scratches.
- **Cable Care:** Avoid bending or twisting the USB cable excessively to prevent internal damage.

TROUBLESHOOTING

No Image/Video Output

- Ensure the USB cable is securely connected to both the webcam and your computer.
- Try connecting the webcam to a different USB port on your computer.
- Verify that the webcam is selected as the active video device in your application's settings.
- Check if the privacy cover is open.
- Restart your computer.

No Audio/Microphone Not Working

- Confirm that "EMEET C960" is selected as the default microphone device in your computer's sound settings and your application's audio settings.
- Check the microphone volume levels in your system settings.
- Ensure your application is not muted or set to use a different audio input.

Poor Video Quality (Flickering, Blurry)

- Ensure adequate lighting in your environment. The webcam has low-light correction, but optimal lighting improves performance.
- Clean the webcam lens with a soft, dry cloth.
- Adjust video settings (brightness, contrast, sharpness) using the EMEETLINK PC software.
- Ensure your computer meets the minimum system requirements for 1080P video streaming.
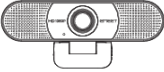

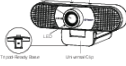

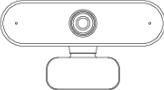

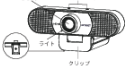

SPECIFICATIONS

Feature	Detail
