## 5. TROUBLESHOOTING

### 5.1 Tablet Goes to Sleep When Cover is Folded Back

Some users may experience the tablet entering sleep mode when the cover is folded completely back. This is due to the magnetic sensor designed for wake/sleep functionality. Currently, there is no setting on the Bpad 10 tablet to disable this feature. To avoid this, try to adjust the cover so it does not fully align with the magnetic sensor when folded back, or use the case in stand mode.
