## 2. SAFETY INFORMATION

**WARNING: To be used under the direct supervision of an adult.**

- Ensure the rocking horse is assembled correctly and all fasteners are securely tightened before each use.
- Always use the adjustable 3-point safety harness to secure the child in the seat.
- Do not exceed the maximum weight capacity of 150 lbs (68 kg).
- Place the rocking horse on a flat, stable surface away from stairs, open flames, heaters, and other hazards.
- Regularly inspect the product for any signs of damage, loose parts, or wear. Discontinue use if any damage is found.
- Keep small children and pets away from the assembly area.
- This product is made from certified safe materials, passing American Toy Standards, CPC, ASTM, and Europe's EN71 testing.

### 3. PACKAGE CONTENTS

Verify that all components are present before beginning assembly:

- 1 x Plush Fox Rocker Body (with integrated seat and handles)
- 2 x Plank (wooden side supports)
- 2 x Bottom Plate (wooden rocker base)
- 1 x Wooden Dowel
- 12 x Screws
- 1 x Screwdriver

### 4. SETUP AND ASSEMBLY

Follow these steps to assemble your labebe Fox Rocking Horse:

1. **Attach Planks to Rocker Base:** Position the two wooden planks (side supports) onto the two bottom

plates (rocker base). Ensure the pre-drilled holes align.

2. **Secure with Screws:** Insert and tighten the screws through the designated holes to firmly connect the planks to the rocker base. **Caution:** To avoid splitting the wood, do not use excessive force when twisting screws.
3. **Attach Plush Body to Base:** Carefully place the plush fox rocker body onto the assembled wooden base. Align the attachment points.
4. **Final Securement:** Use the remaining screws to attach the plush body to the wooden base. Ensure all connections are tight and stable.
5. **Stabilize the Rocker:** For optimal stability, press and hold the control lever (if applicable, referring to the wooden handles) firmly and push it forward to align with the device. This action helps ensure the rocking horse is stable during use.

## 5. OPERATING INSTRUCTIONS

To use the labebe Fox Rocking Horse:

1. **Child Placement:** Gently place the child into the integrated seat of the fox rocker.

2. **Secure Harness:** Fasten the 3-point safety harness securely around the child. Adjust the straps to ensure a snug but comfortable fit.
3. **Supervision:** Always ensure an adult is present and actively supervising the child during use.
4. **Rocking Motion:** The child can initiate rocking by pushing with their feet or by shifting their weight. The design provides a gentle and safe rocking motion.
5. **Interactive Features:** The fox's ears contain rattling paper, which produces a rustling sound when touched, stimulating the child's auditory sense.

Using the rocking horse can help children develop fine motor skills, balance, and core muscle strength. It encourages coordination between arms, hands, legs, and feet as they learn to control the rocking motion.

## 6. MAINTENANCE

Proper maintenance ensures the longevity and safety of your rocking horse:

- **Cleaning:** Stains on the plush material can be removed using a wet rag with a small amount of baking soda powder. Gently wipe the affected area and allow it to air dry. Do not immerse the product in water.
- **Inspection:** Regularly check all screws, bolts, and connections to ensure they remain tight. Tighten any

loose fasteners immediately.

- **Wear and Tear:** Inspect the plush fabric, wooden base, and safety harness for any signs of wear, tears, or damage. Replace or repair components as necessary.
- **Storage:** Store the rocking horse in a dry, cool place away from direct sunlight and extreme temperatures to prevent material degradation.

## 7. TROUBLESHOOTING

If you encounter any issues with your rocking horse, consider the following:

- **Unstable Rocking:** Ensure the rocking horse is placed on a completely flat and even surface. Re-check all assembly connections to confirm they are tight.
- **Loose Parts:** If any parts feel loose, refer to the assembly instructions (Section 4) and tighten all screws. Do not overtighten.
- **Squeaking Noise:** A slight squeaking might occur over time. This can often be resolved by ensuring all connections are tight. If the noise persists, contact customer support.
