## 2. SETUP AND INSTALLATION

Installation of the HOROW wall-hung toilet system requires professional plumbing knowledge. It is recommended to consult a qualified plumber for installation to ensure proper function and compliance with local building codes. The concealed tank system is designed for in-wall installation, providing a seamless and space-saving appearance.

### Key Installation Features:

- **Adjustable Height:** The toilet bowl's installation height can be adjusted to suit individual preferences and bathroom conditions, ensuring optimal comfort.
- **Concealed Plumbing:** All plumbing is hidden within the wall, contributing to a clean and modern bathroom aesthetic.
- **Secure Mounting:** The carrier system installs directly into wall studs for a stable and secure hold.

## Dimensions for Installation Planning:

Refer to the detailed dimension diagrams for precise installation planning. All dimensions are approximate and may have slight variations. Always measure the actual product before making any cuts or permanent installations.

All dimensions are manually measured with certain errors.  
Please refer to the received product for specific dimensions

### 3. OPERATING INSTRUCTIONS

The HOROW wall-hung toilet is designed for user comfort and water efficiency.

#### Dual Flush System:

The toilet features a dual-flush mechanism, allowing you to choose between two flush volumes to conserve water. The flush plate has two buttons:

- **Small Button:** Activates a 1.1 GPF (Gallons Per Flush) flush for liquid waste, saving water.
- **Large Button:** Activates a 1.6 GPF flush for solid waste, providing powerful cleaning.

The super-swirl flushing system ensures thorough cleaning of the bowl with each flush, preventing clogging.

#### Soft-Close Seat:

The included toilet seat is equipped with a soft-close mechanism. This feature allows the seat and lid to close slowly and quietly, preventing slamming and reducing wear and tear.

## 4. MAINTENANCE

Regular cleaning and maintenance will ensure the longevity and optimal performance of your HOROW toilet.

### Cleaning the Toilet Bowl:

- The toilet bowl features a smooth, non-porous glaze that resists dirt and grime buildup.
- Use a mild, non-abrasive toilet cleaner and a soft brush or cloth. Avoid harsh chemicals or abrasive pads that can damage the glaze.
- The wall-hung design eliminates the base, making it easier to clean the floor underneath and around the toilet, preventing the accumulation of dirt in 'dead corners'.

Figure 10: Easy Clean Glaze

### Cleaning the Toilet Seat:

- The toilet seat can be easily removed for thorough cleaning. Gently pull upwards on the seat to detach it from the mounting posts.
- Clean the seat with mild soap and water. Reattach by aligning and pressing down until it clicks into place.

## 5. TROUBLESHOOTING

If you encounter any issues with your HOROW toilet, please refer to the following common troubleshooting tips:

- **Weak Flush:** Ensure the water supply valve to the concealed tank is fully open. Check for any obstructions in the flush mechanism or the toilet bowl's trapway.
- **Continuous Running Water:** This often indicates an issue with the fill valve or flush valve inside the tank. The flush plate can be removed to access the internal components of the concealed tank for inspection.
- **Leaking:** Inspect all connections for tightness. If the leak is from within the tank, it may require professional service.
- **Seat Not Closing Softly:** Check if the soft-close mechanism is obstructed or damaged. Ensure the seat is correctly installed on its mounting posts.

For complex issues or if troubleshooting steps do not resolve the problem, contact HOROW customer service.

## 6. SPECIFICATIONS

Detailed specifications for the HOROW HR-WT03T Compact Wall Hung Toilet Combo Set:

Feature	Specification
Model Number	HR-WT03T
